Many Reasons for 8 o'Clock Shopping In the Basement Monday

- Tin Wash Boilers, with flat copper bottom: size 8 or 9: 100 only at this Monday morning price; each .87
Galvanized Watering Cans, 6-quart size; strongly made and will not rust; limited number at a big saving. Monday morning; each .25
Galvanized Garbage Cans, bail handle; slip-over cover .65, .75, and 1.00
Galvanized Refrigerator Pans .25
Galvanized Ice Boxes, large ice receptacle, with drain spout. 2.75
Wire Carpet Beaters .8
Charcoal Irons, nicely nickel plated 1.25
Steam Egg Poachers, for 5 eggs .30
Storey Cake Tins, set of four with loose bottom; set .20
Daisy Tea Kettles, suitable for gas stove. 12 1/2
Wood Knife Boxes, nicely varnished .30
"Victor" Mangles, three maple rolls; large fly wheel; drop table easy to turn 16.00
Select Clothes Pins, 6 doz. for .8
Imported Rolling Pins, beautiful clear wood .15 and .25
Imported Willow Clothes Baskets .55
Four-foot, Three-fold Clothes Horses .37
Good Quality Corn Brooms, light weight; specially priced at each .15

Nose Feed Bags

This is a good strong White Duck Feed Bag, made up 15-inch deep, with gore in back to fit horse's head properly. It is 30 inches in circumference at top and has solid leather bottom 9 inches across. It is fitted with eyelets in front to insure plenty of air for the horse; has 1-inch solid leather strap to go over the head and hold the bag in proper position with buckle on the side to adjust to size of head; a special value at .75

Save on Trunks, Monday, at \$4.15

Square Duck-covered Trunk, waterproof painted, brass plated dome corners, steel-bound all around; deep covered tray and hat box; also extra dress tray; strong lock and side clamps; two outside leather straps rivetted to sheet iron bottom; in sizes 32, 34 and 36 inches; save considerably on any one. Monday at, each 4.15

Reliance Sewing Machines, \$18.85

Quantity Limited Shop Early

The "Reliance" is a high-grade improved high arm sewing machine, fitted with the best made attachments and ball bearings, ensuring light running. The case is of rich golden finished oak. So confident are we of the many merits of the "Reliance" that we give ten years' guarantee, and if after a fair trial it is found unsatisfactory, we will refund your money. There are only a few left at this price. An immediate purchase should be made. Price . 18.85

THE T. EATON CO. LIMITED

Unusual Hammock Values for Monday's Selling

The advanced warm weather has made brisk business in our Hammock Section.

Here are a few popular lines; a strong close woven hammock in pretty colors; pillow, concealed spreader and valance; splendid value at the price. 1.35

Our \$3.00 Hammock has all the makings of a higher priced line; beautiful and attractive in coloring; strong, heavy yarn, closely woven; throw back pillow; rich deep valance; head and foot spreader; a genuine comfort producer; splendid value 3.00

Hammock Stands

The advantages of a Hammock Stand are many: Convenient to move; can be placed anywhere; will extend to accommodate any length hammock; made of good hardwood 6.00

Baby's Ideal Cosy Corner; a cradle hammock; price 1.10, 1.50 and 1.75

Baby Hammock Stands 1.85

Groceries and Meats

- Manzanilla Olives, put up in quart jars; jar .30
New Maple Sugar; pound .13
Finest Rolled Wheat; stone .45
Extra sifted early June Peas; 2 tins .25
Etonian Brand Creamery Butter; fresh made; pound .25
Louisiana Rice; 3 lbs. for .25
Pearl Tapioca; 4 lbs. for .25
Pitted Cherries in syrup; tin .20
Walter Baker's Cocoa; 1/2-lb. tin .23
Sutton & Sons' Imported Worcester Sauce; 3 bottles .25
Brisket Point of Young Beef; lb. .7
Rib Boil of Beef; lb. .10
Stewing Beef; no bone; lb. .9
Round Roast Beef; lb. .15
Shank Beef; each .25 to .75
Smoked Ham; half or whole hams; lb. .17
Pickled Ham; half or whole ham; lb. .16
Pressed Cooked Beef; lb. .15
Cooked Ham sliced by machine; lb. .28

The Toronto World

THIS CERTIFICATE, with 25 others of consecutive dates, (Sundays excepted) if presented at the business office of THE WORLD, 40 Richmond St. West, will entitle the bearer to one WORLD COOK BOOK, absolutely free. If the Cook Book is to be sent by mail, send the necessary certificates in an envelope, also inclosing 14c in stamps, to the Cook Book Editor, care of Toronto World. Not more than one Cook Book will be given to one person.

This is an opportunity for every good housekeeper to become possessed of the very best Cook Book on the market. The size is 8 1/2 x 6 1/2 x 2. It is substantially bound in oiled muslin and is designed for utility. Caution—Not more than one coupon bearing the same date will be accepted.

ALGONQUIN PARK FURS

Satisfaction is expressed at the department of lands and mines at the result of the sale of furs from animals at Algonquin Park, which it was necessary to destroy. The furs were sold at the Parliament buildings yesterday by tender. The tenders accepted were: John Hallam, 376 beaver skins, \$2756; E. T. Carter & Co., 31 muskrat, \$9.20; 8 martens, \$44; 1 fox, \$5. Total, \$2959.

GOVERNMENT REPORT ON THE PORCUPINE

Bureau of Mines Issue New Official Report to Accompany Map

The Bureau of Mines have issued a new and up-to-date map of the Porcupine gold area, which is to accompany the 20th report of the bureau soon to be sent out. The map is based on the geological work performed by the survey party sent north by the government and is a revised and enlarged edition of the map published last July. It is accompanied by a geological report by Mr. Willett G. Miller of the bureau of mines. This report says in part: History of Discoveries. Until the last two or three years the Porcupine area was difficult of access and little prospecting was done in it. The information concerning it was practically all contained in the reports published by the geologists, who accompanied O. L. S. Niven in his base-line work and the township survey in the years 1894, 1898, 1899, 1904 and 1905. In 1896, Mr. E. M. Burwash accompanied Mr. Niven as geologist in the survey of the Nipissing-Algonia boundary line, which it may be added, now forms the boundary between the districts of Nipissing and Sudbury. Mr. Burwash's description is published in Volume 6 of the Report of the Bureau of Mines. He points out that the district gives promise as a gold field.

In 1898 Mr. W. A. Parks reported on the geology of the district for the bureau of mines. His paper is published in Volume 8. Mr. Parks noted the occurrence of gold in traces in some of the quartz veins and said: "I regard the possibility of the occurrence of gold in the district as somewhat doubtful, but the occurrence of gold in the district is not more than 20 feet. Occasionally it is 100 to 150 feet. The area lying between the mouth of Porcupine river and Porcupine lake is considerably higher, the hill behind the Hollinger office, for instance, reaches an elevation of 115 feet above sea level. The lakes are shallow, Night Hawk lake having a depth of only 6 feet in many parts, and a maximum depth of 12 feet in so far as is known. The greatest depth of water found in Porcupine lake was 20 feet.

The legend of this map gives the age groups of the rocks, which have been recognized in the field. Keewatin—The oldest series, the Keewatin, is similar in character to rocks of this age found in various parts of northern Ontario, from the ship of Manitoba on the east to that of Ontario on the west. It consists of various volcanic rocks with their schistose representatives. The series is here much more disturbed, as is illustrated by the schistose character in many places, than it is in the Cobalt area. In the Porcupine area, however, some of the Keewatin rocks have escaped dynamic metamorphic agencies sufficient to show their original character. Probably volcanic fragmental rocks of Keewatin age occur in the area, but they have not been definitely recognized. Associated with the Keewatin, especially in the southern part of the township of Whitney, there is much iron formation. This iron formation is what is commonly called jaspilite, and consists of alternate thin bands of magnetic and siliceous matter, frequently red in color. Many of the Keewatin rocks contain considerable carbonate—dolomite or a ferruginous carbonate. The Huronian in this area has been subjected to intense dynamic metamorphism, and it is difficult to distinguish Huronian schist or other highly metamorphosed rocks of this age from the Keewatin. Laurentian—About 10 miles to the southeast of Porcupine outcrops of hornblende granite are frequently seen. This granite intrudes the Keewatin. In a patch of conglomerate on the south side of Langmuir township, pebbles of hornblende granite occur, probably of the Bureau of Mines. He points out that the district gives promise as a gold field.

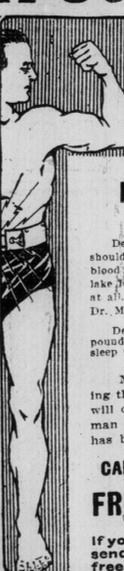

ing that some of the granites are pre-Huronian. A few outcrops of a somewhat fine grained, biotite granite, of the southern part of Whitney township, if it intrudes the Keewatin series, but its relation to the Huronian has not been determined. Huronian—A belt of Huronian fragmental rocks, that outcrops thru the drift covering at irregular intervals, of the Porcupine river in the township of Cobay southwest across the northern part of the township of Whitney and as is illustrated by the schistose character in many places, than it is in the Cobalt area. In the Porcupine area, however, some of the Keewatin rocks have escaped dynamic metamorphic agencies sufficient to show their original character. Probably volcanic fragmental rocks of Keewatin age occur in the area, but they have not been definitely recognized. A CURE FOR WEAK MEN

I HAVE A CURE FOR WEAK MEN THAT CURES TO STAY CURED. I CAN TAKE A WEAK, PUNY MAN AND MAKE HIM A HEALTHY, VIGOROUS SPECIMEN OF MANKIND. REMOVE HIS PAINS AND ACRES, STRENGTHEN HIS NERVES AND ORGANS, AND GIVE HIM NEW VITALITY.

I can do this with Electricity, applied through my Electric Belt. Nature's greatest remedy for a broken-down system. I can pour a strong, vigorous current of this force into the nerves and organs, and drive out all pain and weakness. If you have a good constitution at all, I can cure you and make you as good a man as you ever hoped to be. Do you doubt it? If so, any man or woman who will give me reasonable security can have my Belt, with all the necessary attachments suitable for your case, and you can

PAY ME WHEN YOU ARE CURED. HERE IS PROOF OF MY ARGUMENTS:

Dear Sir—Your Belt has been a boon to me. The emissions have ceased. My Rheumatism in the shoulder has gone. I must say that I feel that life is now worth living. The most noticeable thing is the blood; it seems to have increased very much in circulation. Before using the Belt, if I took a swing in the lake I very soon got cold, but now I am in the water every morning about 8 o'clock, and don't feel the cold at all. I think your Belt will do all you claim it will, and then some more. A. G. ROFFEY, Wabigoon, Ont. Dr. McLaughlin:

Dear Sir—Your Belt has helped me wonderfully, for I am feeling day at present. I have gained nine pounds in weight, and I give your Belt the credit for it. I am stronger than I ever was in my life. I sleep well, eat well and feel fine, and I am sure your Belt did it. Yours truly, L. MALIN.

My Dr. McLaughlin's Electric Belt will make you strong. It will send the life blood dancing through your veins, you will feel the exhilarating spark warm your frame, the bright flash will come to your eye and a firm grip to your hand, and you will be able to grasp your fellow-man and feel what others are capable of doing is not impossible to you. This grand appliance has brought strength, ambition and happiness to thousands in the past year.

CALL TO-DAY FREE Consultation Book. DR. M. D. McLAUGHLIN, 112 Yonge Street, Toronto, Can. Office Hours 9 a.m. to 6 p.m., Wednesday and Saturday until 8.30 p.m. Write plainly.

Donato Pansini, wounding with intent to maim; Walter Preeland, gross indecency. The maximum penalty for wounding with intent to maim is life imprisonment; for gross indecency the supreme punishment is ten years imprisonment and the lash. Lost Bread; Claims Damages. M. Siderowitz brought action against the Toronto Street Railway Co. yesterday afternoon before Judge Morgan in the county jury assize court. He claims that on Jan. 22 he was delivering bread at the corner of Sherbourne and Duchess-streets when a car collided with his wagon, valued at \$80, and the horse, valued at \$21, and bread, \$15. The wagon was destroyed, the bread was thrown out and he was thrown from the wagon. Siderowitz is claiming \$200 damages.
