ronto; Ontario, \$3.50 per cent, patents, \$2.25
bid for export; Manitoba patent, special
brands, \$4.50; strong bakers, \$4.

COBALT MINING CO'S STOCK
As announced in the papers during the past week the price of this stock will be advanced after Monday, the 26th inst, and only a small amount of stock will be sold at the advanced price. Orders will be filled providing they have been mailed to us accompanied by cheque or money order bearing the post mark of November 26th.

DO NOT WAIT FOR THE RISE, BUY NOW
This stock is one that should command a very high figure at an early date. The Company has a very low capitalization, being \$500,000 in shares of \$1.00 each. The Company owns and controls 120 acres of land in the mineral belt in Buckle Township. Seventeen veins have been exposed, two shafts being sunk and two more to go down. A shipper, we think, by February. A number of shares have been bought by Cobalt and New Liskard people. The stock will be quoted on New York and Boston curb a week from Monday. We think this is an exceptional opportunity and one that we strongly recommend.

Chicago.
New York, Nov. 24.—Receipts—Hogs, 493; cattle and
quarters of beef.

Chicago Live Stock.
Chicago, Nov. 24.—Cattle—Estimated re-
ceipts, 87,000; market, 80c; calves, \$1.20; hogs, \$3.20.

Another American Buys.
A New York despatch says: A deal has
just been completed at Cobalt in which
Evelyn Locke, of the Treadway Silver Mine,
for the southwest quarter of the south half
of Lot 2, Co. 6, has been sold to Mr. Russell.

Resigns Director.
Mr. Frank W. Strathmore has resigned from
the directorate of the Treadway Silver
Mine, Limited.

word of praise to that of the many who
are willing to testify to the manly work
done by your valiant paper in calling the
attention of the public—capitalist, miner
and prospector—to this great silver camp,
and particularly your efforts to stir up
every Canadian to take advantage of the
splendid chances there are to improve his
financial position, right here in this very
door.

Should be another important matter I
would very much like to see you take up,
viz., the sanitary conditions existing in
this camp. This, sir, almost approaches a
crime, and unless some radical changes are
made it should be a splendid field for the
life insurance agent and the undertaker,
as every man who has been in the camp
in my humble opinion, it will be little
short of a miracle if there is not an ep-
idemic when the frost and snow of winter
gives way before the warm rays of the sun
next spring.

The purchase of the Running Block by
the Bank of Montreal, if reports are true,
is a very important testimony to the belief
of that conservative institution that they
have to get their dollars out of the
country, and that the best way to do it
is to invest in the old mines which have
been overlooked of the old-squippers for the
past few weeks.

500 Men to Develop Foster.
Grant Hugh Browne of the United
Cobalt Exploration Company, the holding
company of Foster and other properties,
says that on the Foster 15,000 feet of ore
have been uncovered in 22 veins, and that
it is the intention of his company to place
500 workmen on the property to rush de-
velopment without delay.

In Regina Hotel Fire.
Word has been received from T. D. D.
Lloyd, traveler for G. Goulding & Son,
wholesale milliners, that he was one of
the guests of the Windsor Hotel, de-
stroyed by fire at Regina, Sask., last
Monday. Mr. Lloyd escaped in his night
clothes and lost his personal effects,
the loss of which he has not yet been
able to recover.

Cook's Cotton Koot Compound.
The great Uterine Tonic, and
only safe effectual Monthly
Regulator, which women can
depend. Sold in three degrees
of strength—No. 1, \$1; No. 2,
50¢; No. 3, 25¢.

NEW YORK FINANCIERS
TAKING HEAVY INTEREST
In the Green-Meehan Mine on
Favorable Report From
Two Experts.

A prominent New York financial
house is securing a heavy interest in
the Green-Meehan mine. The decision
to participate in the flotation was ab-
solutely dependent upon expert ex-
amination of the property. F. G.
Canning, geologist and mining engi-
neer, and president of the exploration
company of New York, and C. C. Bur-
ger, mining engineer of New York,
were entrusted with the examination
of the property. Mr. Canning has been
associated with John Hays Hammond,
the confidential mining expert of the
Guggenheims, on several occasions, as
consulting engineer. Mr. Canning
concluded, "The Green-Meehan will
prove a good mine."
