In the Cariboo Country.

It is said that the old Carlboo country, made famous in the early placer days, is destined to come to the front again as one of the great mining camps of the West. The latest news from that section of British Columbia is to the effect that on a bench of Williams' Creek directly opposite Barker-ville and overlooking what were formerly the richest diggings, three Chinamen are taking out on an average 60 ounces of coarse gold a day, one nugget being secured weighing 38 ounces. They sank to bed rock on the old channel, which is 40 feet above the present channel.

Ymir is very much to the front just now. Bustling activity is the order of the day, and 1 read that the work for putting up mills for the Dundee and other m ines has furnished employment for every man. The saw mill is work ing day and night to keep up the supply of lumber, and every team in town is also employed. In addition to this, the Merchants' Bank of Hadifax are making arrangements to open up a branch of their in stitution, and other buildings and stores are being erected. Work is being prosecuted on the Evening Star, one of the claims owned by the Fairmont G. M. Co., while the Lerwick (Elise) are pushing work on perhaps one of the best known claims in the West. Bearing in min d all this, the investor cannot afford to overlook such purchases of stock as the Fairmont (Morning and Evening Star), Dundee and Lerwick (Elise.) The prices are within the reach of all, and, being acquainted with the management of each company, I can the more confidently recommend them to the notice of the investor.
