Wednesday Evening, Oct. 31.

The last day of the month was marked by a strong advance in Toronto Railway shaies, based on recent continued increases in earnings over previous years. The issue sold up to 110 in Montreal, where the buying was best, and up to 103% in Toralto. The close was slightly lower. Montreal Railway advanced a couple of points in Montreal. Another strong issue is Crow's Nest Coal. This stock was put up to 1038 to-day, a rise of 12 peants, and closed at 194 bid and 195 asked. A dividend is soon due in this issue, and, besides it is rumored that a melon in the way of the creation of a preference stock with a bonus of common is shortly to be cut for the shareholders. Rich if in inclines higher. Payne and Republic were off somewhat to day, but closed stronger.

J. J. Dixon has the following this evening from Chicago:
Wheat—Strength in wheat to-day was due to very strong Liverpool cables and further advices from Argentine of very poor crop outlook there. Good many shorts covered, while there was short selling by another element. The market has been much broader. Confirmation of bad Argentine outlook, as reported to-day, will mean much better values.

Corn—Has been firm. with the feature early covering of November shorts. It showed at one time %c advance. There has been a good foreign demand, with direct sales from here, almost 200,000 bush. The weather west was wet. Receipts were small—207 cars—with 210 for to-morrow.

Trade was only fair.

Oats—Have been firm and a shade higher; light receipts and strength in other grains the feature. Commission houses and shippers were good buyers. Cash demand good, Sales of 110,000 reported so far. Clearances light. Arrivals, only 89 cars, with 105 for to-morrow.

Provisions—Opened a shade lower on lower prices for hogs, but afterwards ruled strong and ligher on moderate buying by some of the packers. October pork soid up \$20. Cash demand fairly good; 33,000 hogs to-morrow.
