KARL'S CONSORT FROM SLANDERS

Correspondent Denies in Toto Rumors of Infidelity and Treachery.

AMSTERDAM, July 9. — Denying rumors which have been circulating in Austria-Hungary regarding Empress Zita, the correspondent at Vienna of the Tijd says:

"It is true the Austrian empress partly desires peace and has with proper dignity advocated it, but the rumor that an energetic Austrian offensive against Italy was delayed by her influence is slanderous, as also is the rumor that the empress was to blame for one or two set-backs which followed the offensive.

"It is still more slanderous to involve her honor as a woman with Imperial statesman and the imperial house. The empress, whose sensitiveness is well known, suffered not a little under the imputations which have driven her to a sick bed.

"The slander was more painful, as it even assailed the wedded fidelity which so distinguished the conduct of the imperial couple, while the non-existent correspondence, which was said to contain utterances of the empress regarding peace, is reported to be the first cause of the difference between the emperor and the empress."
