

Design Important

One quarter of one inch in the width of the brim of a man's Straw Sailor, and an eighth of one inch in the height of the crown, makes or mars its beauty on the wearer's head.

Hats are made to suit different faces. A Hatter's stock must be absolutely complete in sizes and designs before it can be called satisfactory.

Our Hat stock is complete—we have hats to suit every head and every face. No broken lines. All new goods.

WORLD HOT ON THE TRAIL OF THE HIDDEN HAND

Bracondale Citizen Says Paid Hirelings Have Been at Work—They Aim to Shackle Suburbs

The World's campaign to disclose the operations of the Hidden Hand in the suburbs of Toronto has been backed up by some of the most representative men in the territory affected. Among these it is scarcely necessary to mention such estimable citizens as Messrs. George Heintzman, John Ellis, John T. Moore and others, as some of those who have interested themselves in the situation. To-day Mr. John Wanless, of the well-known real-estate firm of Toronto, who is a resident of Bracondale, writes as follows:

SUBURBAN ANNEXATION.
Editor World: No more timely or true articles were ever printed than those of The World on the "Hidden Hand." To the writer's knowledge this mysterious agency with its paid hirelings has been at work for years and their operations extend all the way from the legislature to the humble shack.
Only the welfare of the people as a whole prompts one to add another note of alarm ere it be too late. Their desire is to obtain control of the whole street and radial railway system in and around Toronto, and, if money and ingenuity can secure it, they will be successful, and the workmen will suffer perhaps for generations. The statute is favorable to this octopus. Annexation requires a majority of the ratepayers, resident and non-resident. In York Township, part 2, or the non-resident list, is very large, indifferent and hard to reach. Every one not reached counts against annexation and in their favor. There is a lack of co-operation between the city and the townships and the shuffling and shuffling and paid agents take advantage of this. A suspicious instance occurred just the other day when a paltry dispute arose regarding a section of Yonge-street. Misrepresentation has been rife thru all the immigrant settlements around the city. These newcomers do not understand the situation. Among other things they have been told that they will lose their holdings if absorption takes place and have been so terrified that they have unwittingly worked against their own interests and in favor of the corporations.
In securing signatures against annexation paid hirelings have been going the rounds and securing names under false pretences. It is worth noting that the extremely poor and the extremely rich or well-to-do are opposed, the former they ignore and the latter from avarice. Much more might be written in connection with these serious conditions, but time and space forbid. The strong, articulate hand of Premier Whitney is needed to beat off those who would prey on the rights of the masses. To the people. Opposition to annexation, to my mind, is little short of criminal.
John Wanless.

COLOGNE BRIDGE FALLS

Collapse Bringing Death and Ruin—Almost Duplicate Quebec Disaster.

COLOGNE, July 9.—The new bridge under construction over the Rhine fell in to-day, and a number of the workmen engaged on the structure lost their lives. Up to noon fourteen bodies have been recovered and nine men have been taken from the water seriously injured. It is impossible to tell now exactly how many were killed. The scaffolding supporting the powerful crane used in the erection of the central span of the bridge collapsed and carried with it several other spans.

DECLINE TO SEND DELEGATE.

MONTREAL, July 9.—The chamber of commerce of this city had appointed a delegate to the approaching world storage convention in Paris, but they have rescinded the motion as a mark of disapproval of the failure of the French senate to ratify the Franco-Canadian Commercial Treaty.

Tramway Confer.

Representative of the Brotherhood of Railway Trainmen from Portland to Chicago met in conference with General Superintendent of Transportation Brownlee, Supt. Gillen of the middle division and Supt. Tiffin of the northern division and about forty employees of the Grand Trunk at the Union Station yesterday, to rearrange their agreement with the management, which expired this week.

Old Couple Incarcerated.

ROCHESTER, N.Y., July 9.—Mr. and Mrs. Edmund Smith, who resided on a farm two miles east of North Rose, were burned to death this morning in a fire which destroyed their residence. Each were 80 years of age.

A THRILLING TRIP.

Gasoline Launch Went Up Long Sault Rapids.

CORNWALL, July 9.—For a boat to go up the Longue Sault Rapids seems almost impossible. Yet it has been accomplished by the powerful sixty-foot gasoline boat Priscilla, owned by Senator Richardson of Delaware. The Priscilla was tied up at Cornwall by the canal break, and after waiting several days a desperate attempt to run up the south channel proved successful, and four hours after leaving Cornwall the Priscilla was at Ogdensburg, N.Y.

New Knox Church Windows Contract.

The largest and most important contract ever let in Canada for stained glass windows goes to the N. T. Lyon Glass Co., 141 Church-street. This is the contract for the windows in the new Knox Church, now erecting on Spadina-avenue, above the Crescent. The church will have a larger number of windows than usual, and all will be in stained glass. Most of them are memorial windows, and will be designed to correspond in beauty and dignity with the magnificent building. Among the memorials is one immense window placed by the church to perpetuate the name of Jesse Ketcham, who gave the property on which old Knox Church stands. Another is being put in by Donald Mackay of the firm of Gordon, Mackay, in memory of his wife. There are also to be ten windows to the prophets placed above the pulpit at the expense of the church. When completed the windows will form a most beautiful spectacle.
