I can take a man like that and pump new energy into his body while he sleeps, and in a few weeks time transform him into a giant in strength and courage. It is proven that energy and electricity are one and the same thing. If you lack this energy you can get it only by all ing your nerves with electricity. Dr. McLaughlin's Electric Belt desthis. Wear it while you sleep. Feel its invigorating stream of electricity in the morning full of new life, new energy, and courage enough to tackle anything.

The secret of strength is plenty of electricity in the human body. Keep it full and every organ will do its duty; pain and weakness will disappear.

Keep it full and every organ will do its duty; pain and weakness will disappear.

My Electric Belt does this while you sleep. It pours a steady stream of soothing electricity into the nerves and organs all night long, and is taken up by them just as a sponge absorbs water. It restores strength to every part that is weak.

A man who is nervous, whose brain and body are weak, who sleeps badly, awakens more tired than when he went to bad, who is easily discouraged, inclined to brood over imaginary troubles, who has lost ambition and energy to tackle hard problems, lacks the animal electricity which the Dr. McLaughlin Electric Belt supplies.

The whole force of vitality in your body is dependent upon your animal electricity. When you lose that in any manner my Belt will replace it, and I will cure you. will cure you. ness transacted by mail or at offices only. No agents.
