In shipments of pottery, most opportunely arrived from England and France, are some choice examples of two noted makers—Ruskin Pottery and Pottery Lachanal. Vases, Jardinières, Bon-Bon Dishes, Candelsticks, Bowls and Ornaments are all included in a variety of sizes. The shapes and colorings are beautiful in the extreme. In Ruskin pottery the colors range from wonderful tints of pearly gold to deep blues and greens, in some instances plain, in others shaded in harmonizing combinations.

Our whole exhibit of pottery is one of interest, not only to intending purchasers, but to all who have a taste for the beautiful in ceramic art.

## Carved Furniture from Italy

A recent importation from Italy comprises a number of beautifully carved chairs, arm chairs, tabourets and stands, in dark walnut.

The distinguished appearance of these pieces and the wonderful carving with which they are enriched stamp them as valuable out of all proportion to the small prices we ask.

Any one of these articles would make an admirable addition to the furnishing of the hall or library of any bride of June.

How Miss Pussy Cat got there is veiled in mystery, unless she made her way from the cornice of an adjoining room, and even then a "leap the gap" performance would be required of her to reach the perilous position she occupied when she found herself marooned.

Kind-hearted painters from across the street took over an extension ladder, and one of them, ascending it, was just about to raise his hand up and reach the distressed feline.

Miss Pussy, however, was still nervous, and inclined to resist removal, but Mr. Rescuer, finally got her by the scruff of the neck—and he was not in a comfortable position to risk much exertion—and brought her safely to earth again.

## SPENCE IS CHAIRMAN OF HARBOR COMMITTEE

Controller Church Opposed Him—Plan of Work Outlined—Drayton to Go to England.

Controller Spence was elected chairman of the new civic committee which is taking up the question of placing the whole fifteen miles of waterfront in the hands of a permanent commission. He was instructed to arrange for a conference with several men who have been active in local harbor affairs, in the near future.

Instructions were forwarded to the city solicitor to notify the various acts relative to the harbor and showing the powers of the Ontario and Dominion Governments, and the harbor commission. The chairman will also ask the Dominion Government to allow Engineer J. G. Sing to advise with the committee.

When the meeting first convened, and before the chairman was selected, Controller Church raised an objection that the quorum was not a regularly appointed committee. His original motion in council naming a committee had been switched in the board of control, on account of Controller Spence introducing a similar one. Mr. Church was not objecting so much to the personnel of the committee, as to the preference it gave Mr. Spence for the chairman-ship, and he didn't think the latter was the proper man for that office, because he was a member of the present harbor board, which had "bucked" every improvement the city had made.

Controller Spence, Ward and Church dropped out, and Spence was elected. On the suggestion of Ald. Maguire, a sub-committee will be appointed after the proposed conference is held, to confer with the dock owners, the board of trade and the Dominion Government. The alderman suggested all large representation on the committee, when appointed, the harbor and waterfront improvement would not cost the citizens a cent.

Drayton to Go.  
At a special meeting of the board of control yesterday afternoon, it was decided to send Controller Drayton to England to fight the city's case before the privy council in England when the P. R. appeal against the viaduct order comes up. Mr. Drayton will leave on Tuesday next.

Legislation will be asked for which will enable the city to sell the St. Patrick's market property or to use it for other than market purposes. The city solicitor says it is free from any reserve rights of the Boulton estate and is free simple, but is subject to the provision that it must be used for market purposes.

**Suggests a Change.**  
City Auditor Sterling, in his annual report, advises an improved system of tax collection, saying:  
"Under the changing conditions of the city in its rapid growth, it appears highly desirable that the matter of the early closing of the rolls should receive prompt consideration. At the present moment, the rolls for 1910 will be in the collectors' hands immediately, whilst several of those for 1907 are not yet closed."

"I beg to recommend that regulations be adopted under which collectors should, under no circumstances, have more than two rolls in their possession at once."  
"Another point in connection with this matter I desire to emphasize, viz.: the method under which the income tax is collected. Under the present system the long delay between the time when the assessment is made and the tax levied and collected leads to serious loss for the civic revenue, which, under a better system, which might easily be devised could be largely avoided."

**Dr. Sheard's Denial.**  
Dr. Sheard says the charges of Frank Elliott, 17 Elm Grove-avenue, that his house was not disinfected after a case of scarlet fever had been taken out, are not true.

The house was disinfected on Feb. 23. There was afterwards another case removed, and the inspector went to disinfest the place. He found nobody home and called again the next day, when Mrs. Elliott told him they had disinfect the house themselves in a hither manner to that in which the

department had done it before.  
"The trouble with the Isolation Hospital is that we are running an institution only large enough for a city of 150,000 people. We admit that the child contracted measles since it was admitted to the hospital. We have sixteen other children who have caught the disease. Often they result from a case of measles being admitted that was originally diagnosed as scarlet fever. We had one lately. A child may have the germs of other diseases when coming to the hospital, and we have a mixed ward for such cases."

## A PECULIAR SITUATION

President-Elect of Argentina Gets Audience With the Pope.

ROME, June 16.—There was an audience under unprecedented circumstances at the Vatican to-day, when the Pope received privately Roque Saenz Pena, president-elect of Argentina, but who is still in Rome, in the capacity of Argentine minister to the Quirinal, and so, by the rule of protest established by the holy see, after the fall of the church's temporal power, barred from the presence of the pontiff. This technical difficulty was overcome by the declaration of Saenz Pena that he had in fact ceased to be a minister to the Quirinal, although he had not yet delivered his letters of recall. On the other hand, the pope would not assume his new office until October, and, pending his inauguration, was not to be regarded as the head of a Catholic state.

**SARA BERNHARDT, ARTIST AND ACTRESS.**  
The Bust of a Child Modeled by Her Skilful Fingers on View in a King Street Store.

Of the transcendent abilities of the divine Sara as an actress everyone has heard, even if they have not had the good fortune to see her on the stage. That Madame is also a possessor of remarkable talent as an artist in modeling is not so well known. Such is the case, however, and a fine example of her work may be seen in the pottery section of the John Kay Company's store at 36 West King-street. It consists of the bust of a child, beautifully modeled, and bears the signature of the famous artist plainly inscribed on the base. This work of art was seen by the last trip to Europe, and he carried back with him a full assurance that no duplicates were in existence.

## THOUGHT BAPTISTS CAUSED EARTHQUAKE

Ministers Had Exciting Escape From Mob Who Wanted to Hang Them.

ROME, June 16.—Details of the escape of a party of American Baptist clergymen from the hands of a superstitious mob at Avellino at the time of the recent earthquake were laid before Premier Luzzatti to-day by Jas. P. Stuart of St. Louis, who was sent by the American Board of Baptist Missions to Italy to investigate the situation in that country, and who returned a few days ago from the Province of Avellino.  
Mr. Stuart reported to the premier that the situation in that district was very serious, owing to the struggle between Catholics and Baptists. On the night of the earthquake he and his companions, he said, were brutally attacked. The populace seemed to attribute the earthquake to the presence of the Baptists, and a crowd, numbering into the thousands, set upon the Americans with the avowed intention of hanging them.  
"The police officials," said Mr. Stuart, "wanted us to leave the province immediately and secretly, but this we refused to do, as the Italians would have said that we had fled, and we would have lost all the time we had at our disposal. Later, however, we took our departure according to arrangements, in a public manner, but we were guarded by 200 soldiers with guns and bayonets, as a protection against the 5000 or more persons who lined the streets, yelling, cursing and threatening us."  
Premier Luzzatti urged upon Mr. Stuart the advisability of avoiding any retaliatory measures, or any demonstration which would be apt to disturb the peace. He expressed the opinion that the action of the Italian government against the Americans, because of the earthquake than to any other cause, was a mistake.  
Mr. Stuart has decided to postpone his return to the district, in order to allow the excitement to subside.
