

# Slightly Affected By Smoke

This sale of fur goods, slightly affected by a fire in the building adjoining us, is something that you won't hear of again unless through some similar accident. The furs are being sacrificed absolutely regardless of cost or value. Yesterday was the first day, and although we had secured extra assistance, we failed to keep up with the rush. We're prepared to-day, however, to handle the business promptly.

The goods being sold are those which were displayed on the racks and tables and are only slightly affected by smoke. The large collection of garments were securely protected by the air-tight cases, and are not included in this sale.

The insurance companies adjusted matters quickly, thus enabling us to have this sale before Christmas. It gives you a chance to make a Christmas purchase at a positive saving of not less than 25 per cent. and in some cases of 50 per cent.

### STATUTORY COUNCIL MEETINGS ARE HELD

Townships and Towns Throuth the County Hold Final Meeting of the Year—County Items.

**TORONTO JUNCTION, Dec. 16.**—The voters of the Junction will not have a chance to express their opinion of the hydro-electric power bylaw at New Year's, as Mayor Baird was only able to submit the proposal to council at the statutory meeting this morning. The mayor explained that it was not till last Thursday that he could get the figures, and it is now late to advertise the measure as required by law. The proposal was to raise \$66,000 for a municipal distributing plant, in view of the contract just entered into with the Stark T. L. and E. system the council were disposed to wait and see what action Toronto would take with regard to the bylaw.  
The financial statement submitted by the treasurer shows a surplus of over \$18,000.  
The receipts, which total \$185,522.61, include credit bank balance, Jan. 1, 1907, including debenture interest paid out Jan. 2, \$31,252.90; cash on hand, \$30.90; land sales, \$2,459.68; sewer construction, \$197,282; taxes of 1904, \$23,100; taxes of 1905, \$21,355; taxes of 1906, \$30,024.94; taxes of 1907, \$11,467.06; and water rates, \$70,183.91.  
Some Outlays.  
The disbursements total \$185,522.61, and include administration of justice, \$2507.87; charity, \$875.23; collegiate institute board, \$680; debenture interest, \$12,327.70; electric light maintenance, \$788.73; election, \$178.65; fire department, \$418.01; health department, \$453.95; public school board, \$35,521; police department, \$62,521; separate school board, \$1382.50; sewer construction, \$1,133.48; sewer construction, \$3063; street lighting, \$10,124.49; waterworks maintenance, \$19,115.11.  
Interest on Debt.  
The cash liabilities include interest due on debentures, \$592,851; public school board, \$22,450; and collegiate institute board, \$4789, and total \$47,869.75.  
Big Estimate for Water.  
That the estimate for water supply this morning by the scheme proposed by Superintendent McMullin of the waterworks department, for improvements the estimated cost of which will be \$100,000. According to the report of the committee on the immediate needs of the town with regard to water supply.  
A 36-inch main from the pumping station to the corner of Elizabeth and Dundas-streets.  
A 12-inch main north on Elizabeth-street to St. Clair-avenue, then east on St. Clair-avenue, to the 12-inch main at that point. If the present 12-inch main on Elizabeth-street were run east to connect with the six-inch main on Dundas-street, near St. John's-burton, there would be a proper distribution for the needs of the whole town.  
The heaviest demand for water during summer's day of 24 hours was 2,389,000 gallons. This, in respect to the small main running from the pumping station to the town. The average supply per day in summer has been 1,850,000 gallons, and the number of persons supplied was fully 15,000, besides manufacturers.  
The superintendent also stated that if in the near future a 4,000,000 gallon pump and a 36-inch intake pipe were obtained, the system would probably supply all demands for the next 15 years.
