Men's Trousers Bought and Priced Below Usual, Thursday, Pair \$2.65

WE SECURED these trousers several months ago much below the average maker's price prevailing at that time. Since then the cost of labor and materials has again advanced, so that now the difference between these garments and those obtainable under usual present circumstances are very sharply defined. They are carefully tailored of close, firm worsteds with stripes in medium or dark grey, the five pockets are made of strong material, and there are sizes from 32 to 42. Buy a pair for work, or to help wear out a coat and vest. Special price, pair2.65

fully tailored of close, firm worsteds with stripes in medium or dark grey, the five pockets are made of strong material, and there are sizes from 32 to 42. Buy a pair for work, or to help wear out a coat and vest. Special price, pair2.65

EATON-Made Suits for Men Who Want to be Sure of Good Style and Good Service: \$13.50 and \$16.50

Those at \$13.50 are tailored of cassimere and cheviot finished tweeds, in choice of several greys or browns, including checks, mixtures and distinctive stripes. The shoulders, collars and lapels are carefully shaped, the coat front hangs smooth and holds its shape and the sleeves are properly hung. The linings are durable twilled serge. Sizes 36 to 44. Price, \$13.50

At \$16.50 there are exceptionally well finished Suits suitable for business men. The materials are firmly woven twilled worsteds and cheviot finished fabrics in grays. Every detail of the making is guaranteed fully, and for the man who needs a suit that will stand day-in-and-day-out wear without soon becoming shabby, we recommend these models from our workrooms. Sizes 36 to 42. Price16.50

Reliable Eaton Watches for Men, From \$5.50 to \$9.00

THESE EATON watches have special features that class them among the most reliable time-keepers on the market at moderate prices.

For example, they have an exposed winding wheel, Brequet hair-spring, 15 jewel, and patent regulator, jewelled bearings, and are adjusted to a second. They are in size 12, 16 or 18, the size 12 being a neat, thin model for the vest pocket. Roman or Arabic dial, gold-filled, silver or nickel-plated cases, all open face. Some cases are engraved or engine turned; others plain.

We guarantee these watches for the first two years against any defect, which is a sufficient period to test their reliability. Prices, \$5.50, \$5.75, \$6.00, \$7.50 and \$9.00.

—Main Floor, Yonge Street.

The Watch Is a Friend You Need

Devoted as you may be to your old friend "Your Watch," do you give it a fair chance of being a faithful friend to you?

How many years has it run and kept time for you and never received any attention for its faithfulness? A watch should be thoroughly cleaned and adjusted every twelve to fifteen months to keep it in proper working order. In that time the oil will dry or harden on the pivots, even though there may not be much dirt in it. This should all be removed and fresh oil put on and the pivots polished before fresh oil is put on. It does not need much oil, but it needs that much at least every fifteen months. Think it over and see whether you are acting fair to your watch.

We will be pleased to give you an estimate of the cost to overhaul or repair your watch before doing any work on it. Every watch repaired by us carries the Store's guarantee.

Dates and hours of lessons can now be arranged with Mr. Freeman. Six lessons for3.00

THE T. EATON CO. LIMITED

FLYING SQUADRONS TO BE ORGANIZED

Wing of Royal Flying Corps Will Be Formed Immediately.

INSTRUCTION FREE

Will Be Officered as Far as Possible by Returned Canadians.

It is proposed to form a wing of the Imperial Flying Corps in Canada. This wing will consist of reserve squadrons, that is, squadrons for training purposes.

It is the intention to recruit the personnel for these squadrons entirely in Canada, and to officer them as far as possible with Canadian officers sent back from overseas.

Suitable candidates for commissioned rank will be enlisted in Canada for instruction in flying and ground duties. On completion of this preliminary training they will be sent to England for higher training, and after successfully passing the tests will be given commissions as flying officers in the Royal Flying Corps.

Any such candidates on applying to the officer commanding, Royal Flying Corps (Canada), Toronto, will be given any further information they require.

The object of the Imperial authorities in starting this scheme is to enable candidates for the Royal Flying Corps to have instruction in flying free of expense to themselves; further, the machines for these squadrons will be built in Canada, and so far as

possible material and plant will be purchased in the Dominion.

Between two and three thousand skilled mechanics will be required to form the personnel of these squadrons, and a recruiting campaign will be opened this week for the purpose of enlisting suitable recruits.

The trades required are as follows: Acetylene welders, blacksmiths, carpenters, carriage body builders, cabinet makers, cooperers, draughtsmen, automobile drivers, electricians, engine fitters, general fitters, motor-cycle fitters, automobile fitters, machine tool makers, painters, tailors, sail-makers, tinsmiths, vulcanizers. A number of male clerks, cooks, and officers' servants will also be required. The terms of enlistment will be for the duration of the war. Special rates of pay applicable to technical corps have been arranged. Particulars may be seen on bills and posters. Separation allowance on full Canadian scale.

The standard of medical fitness is in nowise as severe as for men required for the infantry, and in consequence many men who are physically unfit for general infantry service will be enabled to usefully take their part in the defence of the empire, the chief condition being that any physical disabilities which a man may have do not interfere with his work as a tradesman.

Another special advantage which the Imperial Flying Corps offers is that it enables men to gain a valuable insight into a practically new industry, which will undoubtedly increase and develop after the war.

Candidates for enlistment in the Imperial Royal Flying Corps are trained at their respective trades, and for this purpose arrangements have been made at the Toronto recruiting depot, the armories, University ave., and the Hamilton recruiting depot, where the Hamilton, to which places application should be made personally.

Small preparation to extinguish a small gasoline fire is said to be the following mixture: 10 pounds of bicarbonate of soda and 10 pounds of common sawdust. The sawdust need not be wet, but must be free from chips and shavings.

DEFER CHURCH UNION TO AVOID DISRUPTION

Presbytery Favors Resolution of Prof. J. Ballantyne of Knox College.

At the meeting of the Toronto Presbytery yesterday a motion was introduced by Prof. J. Ballantyne of Knox College, and seconded by Dr. John Neil, asking that the union movement be deferred, in the hope that disruption may be avoided. Prof. Ballantyne said he had no desire to block church union, as he was himself in favor of it, but he believed in conciliatory and co-operative methods, especially in the newer districts. He believed this policy would avoid all hostility and the possibility of disruption thru disagreement in the near future. He also asked that the resolution be sent to a committee to consider and put it in definite form and report to the presbytery at the next regular meeting.

The motion was approved by the presbytery and Dr. Ballantyne was appointed convener of the committee.

CASE CONTINUES.

Argument Heard in Case of Tough-Oakes Mining Company.

Justice Kelly in the non-jury assize court at the city hall yesterday heard further technical evidence in the Tough-Oakes Mining Company action. The suit is between the old and new directors, and two cases are being tried at the same time.

Argument was concluded in the afternoon in the first claim of the old directors, C. A. Foster, T. B. Tough, G. Tough, E. W. Kerney and W. H. Jones. They allege that the meeting on January 28, when the new directors were elected, was not proper and that there was no quorum.

At the meeting of the Samaritan Club held yesterday in the Gage Building, Rev. Audrey L. Brown spoke on the application of neighborhood work to the problems of the city. Miss Mabel Doherty contributed the vocal program.

MAKE PLANS FOR CAR LINE ON PAPE AVENUE

Manager Fleming Does Not Think Line Will Be Run on Parallel Streets.

Plans are being prepared for the building of the extension line to Pape avenue, but, according to the statement made yesterday by R. J. Fleming, the plans are for the line to run on Pape avenue and not on Carlaw avenue. Very reticent indeed was Mr. Fleming when approached by a reporter for The World. "We are preparing the plans," he admitted, "but what the next step will be I cannot say." After repeated questioning he finally admitted that the plans are for Pape avenue and not for Carlaw avenue. "Unless we get an order from the railway board altering these to Carlaw, I see no reason to doubt but that the line will be run up Pape avenue. Of course, if the railway board give us instructions to go up Carlaw, then we shall do so, but at the present time I see no reason why they should be altered." No information could be obtained as to when the work is likely to be commenced. "This is not the time to lay rails," said Mr. Fleming.

WOMEN'S PRESS CLUB.

An unusually large gathering of members of the Women's Press Club and their friends met at the rooms of the club yesterday afternoon, when Dr. Macdonald of The Globe gave a short address in the course of which he said he was to speak in Philadelphia for the Union League, when his subject would be "Lincoln as Canadians See Him." Mr. Forsythe Grant introduced the speaker and Miss Rork expressed the appreciation of the club. Miss Cleaver was the hostess and Mrs. Langford poured tea.

As the result of a eulogy held at the home of the president, Mrs. Wm. T. White, of the Chatsworth Patriotic Club, the sum of \$20 will go towards the club's fund for disabled soldiers' families.

Returned Soldier Buried With Full Military Honors

Pte. Joseph Clements, who went overseas with the Army Service Corps a year ago last October, was buried with full military honors yesterday afternoon, from his late residence, 10 Poucher street. The band of the 220th Battalion and an escort, with firing party, attended, and also representatives of the I.O.O.F. The body was placed in the vault in St. James' cemetery, the service being taken, both at the home and grave, by Capt. Canon Dixon. Pte. Clements was ten months in France. He was invalided home two weeks ago, and died in the General Hospital.

SIMCOE CHAPTER, I. O. D. E.

The newly elected officers of the Simcoe Chapter, I. O. D. E., are: Regent, Mrs. Rupert Simpson; first vice-regent, Miss Carrie McCall; second vice-regent, Mrs. Ada Hicks; secretary, Mrs. Adele Tomlinson; treasurer, Mrs. A. T. Siple; standard-bearer, Miss Clara Lawson; standard-bearer, Mrs. H. F. Cook; councillors, Mrs. L. F. Alken, Mrs. A. Bole, Mrs. R. Edmonds, Mrs. D. D. Ginton, Mrs. T. E. Langford, Mrs. R. Nell, Mrs. T. J. Smith, Mrs. G. Verrett, Mrs. Ira Whitehead, Mrs. G. Williamson. Receipts for the past year were \$5010 and the expenditure \$4813.

"REPRESENTATIVE CANADIANS."

A new edition of "Representative Canadians," an important book of reference, is now in process of publication, and will again bear the imprint of the Hunter-Rose Co., Limited, whose name as publishers, 57 years prominent in this field, is ample guarantee of the character and workmanship of the volume. The work will contain data up to and including 1917, and full page portraits will embellish its pages. The first volume was published in 1886, the second in 1888, and copies of these issues are much sought after now for reference purposes. It is expected to be the most complete cyclopaedia of Canadian biography published since confederation, and will be off the press in June.

Twenty Cents Is in Dispute Between Company and Passenger

At the first available opportunity Judge Morson will hear in chambers the suit brought by James R. Code, bardist, against the Toronto Railway Company for the sum of 20 cents. The railway company has deposited the coin in dispute in the court, and also claim five cents. Code claims the 20 cents as his change for a 25-cent piece which he gave a conductor for blue tickets. The defendants return the 25-cent coin and ask that they be paid the 5 cents for the passenger's fare. They also allege that the coin offered to the conductor was defaced and that the plaintiff refused to accept it when returned to him by the conductor.

Trench Sox Fund Shower Proves a Great Success

Most encouraging was the response to the invitation sent out by the trench sock fund to contribute to a shower held at 210 Yonge street yesterday afternoon. The objective aimed at 1000 pairs, and at an early hour it was known that the number had been secured. Two tables piled up with beautiful well-knitted socks were soon in evidence.

The organization owes its origin to Kathleen Farrar, a young girl, who, receiving a present of a knitting machine, spent her summer holidays in knitting. Friends soon contributed a dollar a month to supply her in wool, and so the movement began and expanded. The committee in charge yesterday were Mrs. J. Wilton Morse, the president; Mrs. N.W. Drummond, Mrs. C. McArthur, Mrs. Frank Ball, Mrs. C. Brown, Mrs. A. Martin. A musical program was contributed by Mrs. C. Withall, Mrs. Fred Score, Mrs. Armstrong and a number of boys in khaki from the base hospital.

RECEIVES VICTORIA CROSS.

Ottawa, Feb. 6.—Pte. John Chipman Kerr, on whom King George conferred the Victoria Cross, is a member of the 42nd Battalion. His next of kin is given as Mrs. Robert Kerr, Fox River, N.S.

MISSIONARY HONORED BY SERB GOVERNMENT

Returns to the Front for Second Time After Enjoying Furlough in China.

Dr. F. C. Stephenson, general secretary of the young people's foreign mission movement of the Methodist Church, announced that Col. (Dr.) Howard G. Barry, formerly of Toronto, is leaving again for the front. Col. Barry went to China a few years ago as a missionary for the Methodist Church and after establishing a hospital at Kailung, China, went to Edinburgh, where he took post-graduate work. He volunteered for service and was given charge of a medical unit, and sent to Serbia, where he rendered distinguished service, being honored twice by the Serbian Government. After months of service, during which he was a victim of typhus fever epidemic, he was ordered a rest, which he took at the home in China.

Methodist Ministers Travel To Hear Billy Sunday Preach

A private individual, whose name is shrouded in mystery, is extremely anxious that all the active Methodist ministers should take a journey to Buffalo to hear Billy Sunday, and in all probability every Methodist minister in Toronto will be given an opportunity of hearing the famous evangelist.

RECEIPTS WERE LARGE.

The University Hospital Supply Association since October, 1916, received \$5273.39. Supplies to the amount of 41 cases were sent to the Canadian Red Cross Society and five cases of socks to the War Contingent Association during the month of January, 1917.

"This world would be a pleasant place if there were not so many fools in it."
"Yes, but it would be more difficult to make a living."—Boston Transcript.
