AT 18 WATERLOO ST. Phone. M.
288.

STOVES

GOOD LINE OF SECOND HAND
Stoves—Well repaired; will sell
cheap; also new stoves of all kinds, 163
Brunswick street. Phone 1308-11, H.
MILLEY.

TILING

WE are Experts in Tile, Marble, Mo-
saiques and Fire Places. Call and see
our samples. The W. Nounenman Til-
ing Co., 254 Union street.

IRON FOUNDRIES

UNION FOUNDRY AND MA-
chine Works, Limited, George H.
Waring, manager, West St. John, N. B.
Engineers and Machinists, Iron and
Brass Foundry.

WATCH REPAIRERS

FOR reliable clock and watch repairs,
years in Watkinson watch factory. T. F.

W. BAILEY, the English, American
and Swiss expert watch repairer,
126 Mill street (next to Hygienic Bak-
ery). For reliable and lasting repairs
come to me with your watches and
clocks. Prompt attention and reason-
able charges. Watches demagnetized.

RUSSIA DRINKING TEA INSTEAD OF VODKA

Both German and Russian Troops
are Using it—Tea Trade Tightens

(Toronto Globe)
Elimination of the vodka from Russia
has evidently started that immense na-
tion tea drinking. According to the
New York Journal of Commerce, heavy
buying by Russia of India and Ceylon
teas, these teas, the quotations being
from eight to ten cents a pound higher than
a year ago. From reports in the trade
the Russians are buying all the India-
Ceylons available, and there is a like-
hood of prices going still higher.

Not only is the Russian army using
tea in enormous quantities now, but the
Kaiser long ago ordered it for his
troops. Unusually large buying by these
two nations and their entrance into
new markets as competitors have
placed the tea market in a tight posi-
tion. It has been previously pointed
out in these columns that Britain is
turning more to tea-drinking. United
States drinks 80,000,000 pounds a year.
To these factors the Canadian tea trade
is sensitive, and advances in market
values are not unlikely.

Berkeley Cake

Beat 2 rounding teaspoons of butter
and 1 cup of sugar to a cream, add 1
teaspoon flavoring. Sift 3 level teaspoons
of baking powder and 2 cups flour to-
gether, then add it alternately with 1
cup milk. Beat 5 minutes. Bake in a
shallow pan in a moderate oven
thirty minutes. Orange or chocolate ice-
ing are best with this cake.

Lemon Pie

One cup sugar, 1 cup water, grated
rind and juice of 1 lemon, 1 tablespoon
cornstarch (better potato flour), dash
salt, yolks of 2 eggs, small piece butter
added last thing. Use well-beaten whites
with tablespoon powdered sugar for
frosting.

It's All Right! When You Know How to Burn It!

TO GET BEST RESULTS
This is the way—Put half as
much in the stove as you would of
other soft coal. When it cokes a lit-
tle, stir it up with the poker. Then
you will have a clean, hot, lasting
fire.

The above refers to
WINTER PORT COAL
It is soft, bituminous coal, mined
in New Brunswick. It is different
from other New Brunswick coals.

ANY DYSPLECTIC CAN GET WELL

By Taking "Fruit-a-tives"
Says Capt. Swan

Life is very miserable to those who
suffer with Indigestion, Dyspepsia, Sour
Stomach and Bilio-sis. This letter
from Captain Swan (one of the best
known skippers on the Great Lakes)
tells how to get quick relief from Stom-
ach Trouble.

"Fort Burwell, Ont., May 8th, 1913.
"A man has a poor chance of living
and enjoying life when he cannot eat.
That was what was wrong with me.
Loss of appetite and indigestion was
brought on by Constipation. I have had
trouble with these diseases for years. I
lost a great deal of flesh and suffered
constantly. For the last couple of years
I have taken 'Fruit-a-tives' and have
been so pleased with the results that I
have recommended them on many oc-
casions to friends and acquaintances. I
am sure that 'Fruit-a-tives' have helped
me greatly. By following the diet rules
and taking 'Fruit-a-tives' according to
directions, any person with Dyspepsia
will get benefit."

"Fruit-a-tives" are sold by all dealers
at 50c. a box, 4 for \$2.00, or trial size
25c., or sent postpaid on receipt of price
by Fruit-a-tives Limited, Ottawa.

The teacher was quizzing her pupils
about the Germans, their habits, food,
drink, etc. A difference of opinion was
found in regard to the favorite drink of
the Germans.

A number held up their hands to vote
for beer as the German favorite drink.
Others remembered the ravages of the
Germans in the French wine cellars and
said "Chateau."

One little boy voted for neither of
these drinks.
"Well, I don't know," said the teacher,
"what do you think is the favorite
drink of the Germans?"
"Well, I don't know," said the boy,
"but the army likes best," said Johnnie, "but
the navy seems to stick to port."—Canadian
Courier.

BRITAIN NOW HAS GUNS SUPERIOR TO ANY OF GERMANY'S

Government's Ordnance Expert
Talks of Naval and Military
Armaments

(Montreal Gazette.)
New York, March 18.—Sir Trevor
Dawson, managing director of Vickers
Limited, of London, and one of the
British government experts on ordnance,
arrived from Liverpool today on the
White Star liner Adriatic on a mission
to Washington and Canada.

In an interview with a Gazette re-
porter, Sir Trevor said that the produc-
tion of small arms and equipment for
the new army was proceeding rapidly
in a satisfactory manner. He did not
believe that there was likely to be any
trouble with the workmen in Sheffield,
Barrow or Birmingham. It was a good
thing, however, he said, that the gov-
ernment had now the power to take
over any factory that could be used for
ordnance purposes.

When asked about the new gun used
by the British artillery at Neu-Chapelle,
Sir Trevor replied that it was a
9.4-10 inch gun, which fired a shell
weighing 355 pounds at a range of 12-
000 yards, and was most effective.
"Personally," he said, "I believe that
the British naval and military guns are
superior to anything the Germans have,
as their big 42-centimetre howitzer is
unwieldy and cannot be transported or
hand like our new gun or the French
gun."

The 15-inch gun on the Queen Eliza-
beth, now bombarding the forts of the
Dardanelles, are the finest naval guns
in the world. She has eight of them,
besides the 12-inch guns. The former
have a range of fully 20,000 yards
with a shell weighing over 1,500 pounds,
and the latter carry 1,200 pound shells
over 12,000 yards. They will all give
a good account of themselves.

When asked if he was going to see
Charles W. Schwab while he was here,
Sir Trevor said that he hoped to, but
could not discuss plans. He is vice-
president of the Canadian Ship-
ping Lines and will inspect the lines during
his stay in Canada.

EDISON INTERESTED IN SYDNEY PLANT

About 3,000 Gallons of Benzol
Will Be Turned Out Daily—
Making Toluol For Explosives

That Thomas A. Edison, inventor
who has a considerable interest in the
Dominion Steel Corporation's new to-
luol plant at Sydney would seem to be
indicated by an article which appeared
in the New York Herald the other day.
Mr. Edison, who is one of the largest
manufacturers of benzol, and the allied
products, toluol, in America, speaks as
if he were building a new plant at Syd-
ney as well as one at Johnston and a
third at a place not yet determined on.
The understanding in Steel circles
here is that the Steel Corporation is hav-
ing a plant of its own at Sydney, but it
is known that Mr. Edison visited Mr.
Edison at his West Orange plant sev-
eral times recently and some co-operative
arrangements have been discussed.
In the course of an interview Mr.
Edison discussed the recent activities by
government investigators in regard to
getting benzol, which constitutes a foun-
dation for carboic acid and aniline dyes
as supplies from England and
America have been cut off by the war, and
also told of the enormous demand for chem-
icals in America at the present time. To
relieve the pressure he applied himself
to the task of getting benzol from coal
gas at steel plants with remarkable
success. He said the United States
throws away annually 20,000,000 gallons
of benzol in gas from coke and which
has no value as a fuel, and this he is
turning out 2,000 gallons daily and the
new Sydney plant will produce 3,000
gallons. He will sell sparingly to manu-
facturers, however. Mr. Edison said, as
it is a big use of the material himself.
He is still negotiating for the site of his
third plant. Only five men are required
to extract the benzol from Johnston.
The construction of the plants be-
referred to as a gamble on the duration of
the war. As soon as the war is over,
Germany will make carboic acid much
cheaper than I am making it," he said.
Ultimate victory, however, long delayed
must, he thinks rest with the Allies.

The toluol product used in the manu-
facture of high explosives, which prom-
ises to be a profitable adjunct to Do-
minion Steel's business, has risen enor-
mously in value since the war started.

SCHOOLS AS SOCIAL CENTRES

(Cleveland Plain Dealer.)
The waste caused by permitting school
buildings to be idle most of the time
was proclaimed long ago. No one de-
nies it. But progress toward prevent-
ing a continuance of the waste is pain-
fully slow.

Something like a national movement
is discernible in the direction of a bet-
ter utilization of school buildings. Fig-
ures to indicate progress last year are
not available, but there is every indica-
tion that the sentiment manifested in
many quarters during the previous year
was no less active then.

During 1912-13, 126 American cities
reported that the boards of education
furnished heat, light and janitor service
for social-centre usage of the schools.

By morning most, if not all, of your
dandruff will be gone, and three or four
more applications will completely dis-
solve and entirely destroy every single
sign and trace of it, no matter how much
dandruff you may have.

You will find, too, that all itching and
giggling of the scalp will stop instantly,
and your hair will be fluffy, lustrous,
glossy, silky and soft and look and feel
a hundred times better.

If you want to keep your hair looking
rich, do by all means get rid of dandruff,
for nothing destroys the hair so quickly.
It not only starves the hair and makes
it fall out, but it makes it stringy, strag-
gly, dull, dry, brittle and lifeless, and
everybody notices it. You can get liquid
arvon at any drug store. It is inexpensive,
and four ounces is all you will need.
This simple remedy has never been
known to fail.

My Corns Were Ended This Way

Countless women have told
other women about Blue-jay
plasters. Now a million corns a
month are ended in this scientific
way.

Women who know Blue-jay
do not suffer corns. When one
appears, they put a Blue-jay
plaster on it. That ends the pain.
In 48 hours the corn is gone
forever, with no soreness left.

If you can't believe it, ask
your friends. Half of them
have probably ended corns with
Blue-jay. If you still doubt it,
ask us for samples. Try them
on corns of your own.

Don't coddle corns. Don't
pare and keep them. Don't use
old-time treatments. A famous
chemist has made corns utterly
unnecessary. That sort of torture
is a thing of the past.

Blue-jay Ends Corns

Bauer & Black, Chicago and New York
Makers of Physicians' Supplies

The biggest strides during 1914 appear
to have been made in the west. St.
Louis, Omaha and Nashville were
among the larger cities to open their
school plants to community uses. Dal-
les and Houston have put into their new
buildings complete social-centre equip-
ment.

A school house is a natural place for
community activities to centre. It is
conveniently located and about it clus-
ters the best sentiment of the home;
it is, further, a public possession sup-
ported by public funds. People asking
for the use of a public school structure
for social purposes are merely seeking
permission to use their own property.

These are facts recognized by all.
The disappointing thing is that this
common knowledge is productive of no
larger results. Too many school houses
are dark and practically every night. At a
time when thoughts are turning more
than ever to the saving power of a bet-
ter social understanding this most po-
tent agency for creating a finer social
atmosphere among the people of local
communities is widely neglected.

Urban as well as rural districts need
the school house for their night activi-
ties. There is too much saving of gas,
electricity at the expense of social
development. Admitting that the ques-
tion of finance is often an important
element in the determination of how far
schools can be thrown open for social
centre activities, the fact remains there
is much indifference toward the
waste represented by the school build-
ings whose windows are dark seven
nights out of ten.

It would be well were wider consid-
eration given this question. Are we, in
city and country, making the best pos-
sible use of school houses for our own
social upbuilding?

COFFEE

(Montreal Journal of Commerce)

The blockade which Great Britain is
establishing around Germany will have
far-reaching effects not only upon the
Germans, who will be cut off by the out-
side world, but upon countries which
formerly did a big business with the
German Empire. One of the countries
to be affected by the embargo is Brazil,
which formerly exported large quanti-
ties of coffee to the German people.

Germans have a per capita consumption
of coffee of seven pounds per annum,
ranking in respect to consumption the
half dozen coffee drinking nations of the
world. Holland leads with fifteen pounds
per capita a year, Norway and Sweden

come next, with about fourteen pounds
each, then follows the United States
with twelve pounds, and Germany with
