Some people simply buy coal; others

Buy Radio

There is a difference and there is a reason. THE DIFFERENCE—When compared with other coals, RADIO shows a big percentage less ash; a big percentage less stone and a lot less other in as much as it burns cleanly. THE REASON—The quality of Radio, the efficiency with which an order is handled and the prompt and courteous way in which it is delivered.

CHIEF JUSTICE WHITE'S WILL

Washington, May 31.—The will of Chief Justice Edward Douglas White, which was filed for probate by Attorney Frederic D. McKenney. The document, which was executed June 26, 1915, is contained in fifty-one words and reads: This is my last will. I give, bequeath and devise to my wife, Letitia M. White, in complete and perfect ownership, all my rights and property of every kind mixed and nature, whether real, personal or mixed, wherever situated, appointing her executrix of my estate without bond and giving her session thereof.

EDWARD D. WHITE. The signature of the will was witnessed by Richard H. Nugent, colored messenger attached to the Chief Justice's office, and his former stenographic clerk, Bertama P. Shipman.

Mr. McKenney said that he did not know the exact value of the estate but expected that it would be about \$120,000. He declared that Chief Justice White's estate had been dealt a heavy blow by the removal of the duty on sugar. He explained that the Chief Justice owned a large sugar plantation in Louisiana, the equipment of which was valued at about \$850,000, but that after the cane growers suffered the setback the Chief Justice sold the entire plantation for about \$100,000.

DECIMAL COINAGE

Manchester, May 31.—(By Canadian Press.)—The Manchester Chamber of Commerce has discussed a proposal to raise the value of the English penny so that ten pennies would equal one shilling. The suggestion, it is pointed out, would obviate the necessity for any new coinage, and the decimal association has expressed itself as in favor of the idea.

FRENCH BALANCE OF TRADE IS DECLINING

Washington, May 31.—(By Canadian Press.)—In its monthly cable review on economic conditions in France the U. S. commercial attaché in Paris says that imports are increasing and exports decreasing. There has been a notable decrease, however, in the imports of raw materials. General building and construction activities remain comparatively inactive, although special activity is noted in the construction of lower-priced dwellings and hydro-electric projects.
