

NEW PROFESSOR FOR ENGINEERING

At a meeting of the senate of the University of New Brunswick, held yesterday afternoon in the government rooms here, Ezra O. Turner was appointed to the chair of civil engineering.

but no appointments were decided upon for the other two vacancies. Mr. Turner is a graduate of the Massachusetts Institute of Technology and has of late been acting as assistant in the Brooklyn Polytechnic Institute. Some little time was spent in discussion of applications for the other two positions, the chair of English and the chair of Forestry. No decision was reached in the former case, but in the latter a committee was appointed to consider the applications further.

An announcement of a scholarship of \$500 a year from Mrs. John Z. Currie was made and acknowledged. It is given in memory of her husband the late Dr. John Z. Currie, formerly of Fredericton, a graduate of U. N. B. in 1870. The scholarship will be given in chemistry this year. Mrs. Currie who has been residing in Cambridge (Mass.), is at present in Fredericton. Prof. C. S. McGinnis who has been professor of electrical engineering, was appointed dean of applied science.

ACT DESIGNED TO STOP PROFITEERING

Chicago, July 18.—The city council of Chicago has passed an ordinance creating a department of foods and markets and farm products with the object of preventing frauds in the manufacture, distribution and marketing of food products, and to prevent in so far as possible all factors tending to create and maintain exorbitant prices. An appropriation of \$20,000 was given for the purpose.

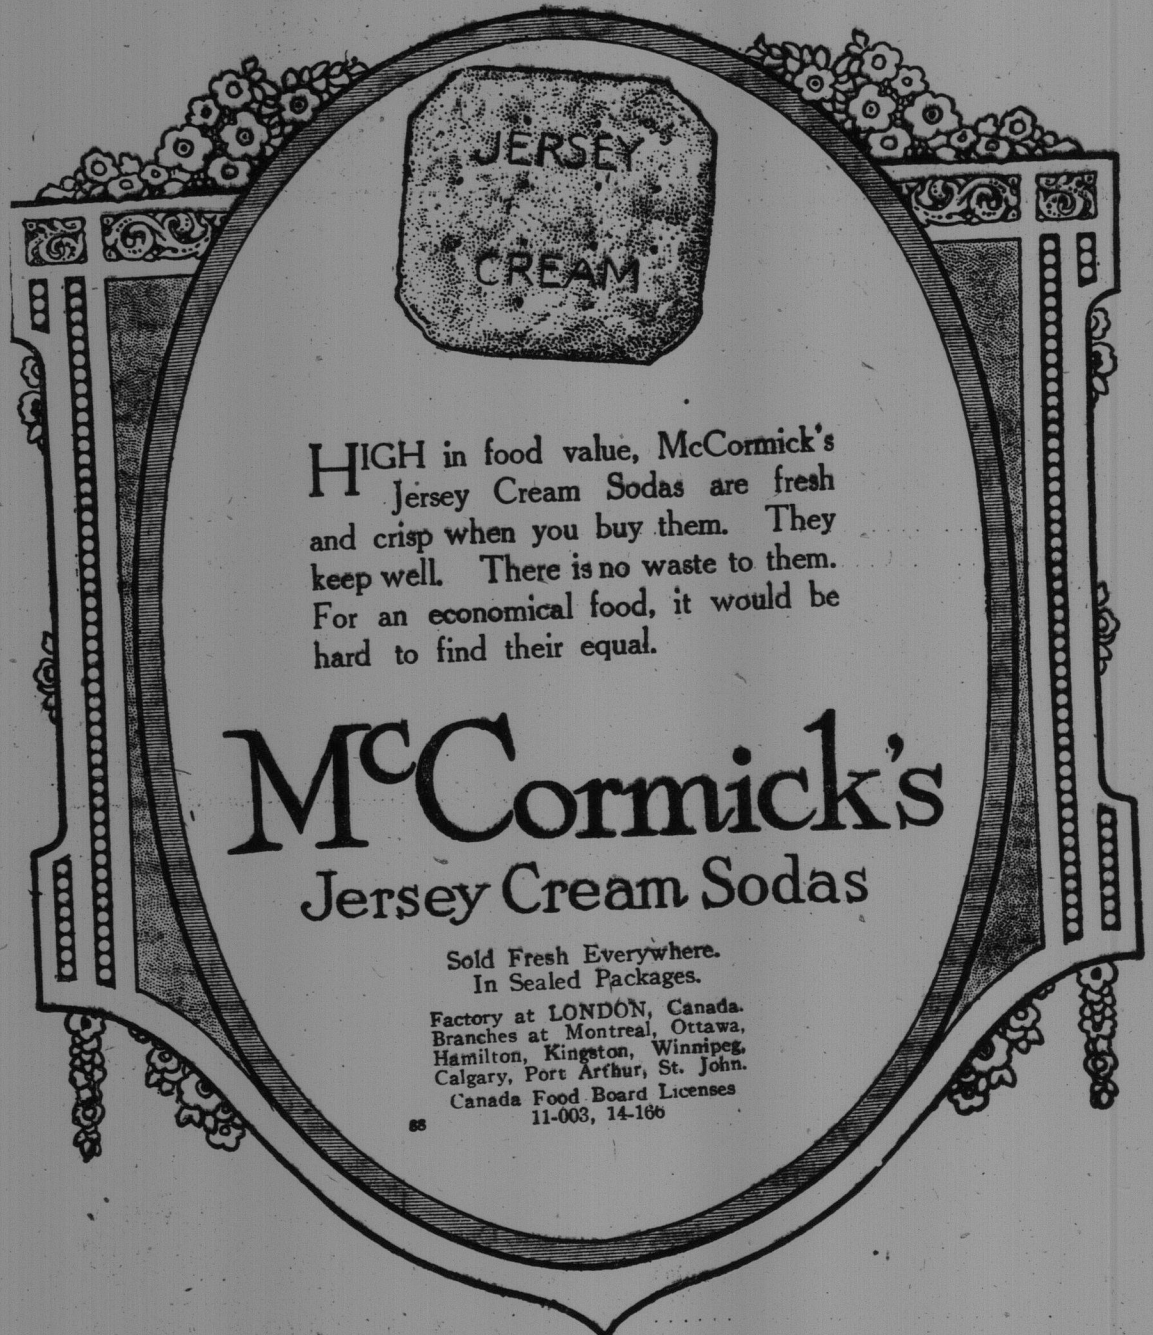

The passage of this ordinance is one of the most important pieces of legislation passed by the council in many years, in the opinion of John H. Lyle, city alderman and author of the ordinance. "We spend," said Mr. Lyle, "\$856,000,000 a year in Chicago for food supplies, and heretofore have not provided one cent toward the regulation of food prices, while thousands of dollars are spent for the regulation of public utilities."

The commission created by this ordinance is to have the power to conduct investigations and hearings on the sources of food supply, available stocks and food and food products hoarded by speculators; delays in shipping, and hauling food supplies; customs and practices of producers and distributors in handling and marketing foods; keeping of records of the amount of foods shipped into Chicago, and to make charges against speculators alleged to indulge in the practice of buying up throughout the producing area of the state, crops and fruits, vegetables and other products, and refusing to market the same or permitting them to decay.

The department will publish reports containing information on the cost of production, distribution and marketing foods, and recommend state and city legislation whereby food and food products may be supplied as directly as possible from the consumer at a minimum cost, and will maintain a free bureau of information for the use of the producer and consumer, to which complaints can be made.

The most important provision of the ordinance, in the opinion of Alderman Lyle, is that permitting the city to co-operate with the state and federal authorities to prevent food profiteering. The only opposition to the ordinance was from interests that will be affected by it, Mr. Lyle said, and he charged in the council meeting that the packers were interested in preventing its passage.

The ordinance provides that a commissioner shall be appointed as head of the new city department at a salary of \$3,000 a year. Nine citizens who shall serve without pay for a term of one year are to constitute an advisory board to co-operate with the department in performing the duties defined in the ordinance. At least six of these members are to be representatives of the consumers and the remaining three shall be experts with special knowledge of production, transportation and marketing the new law provides.

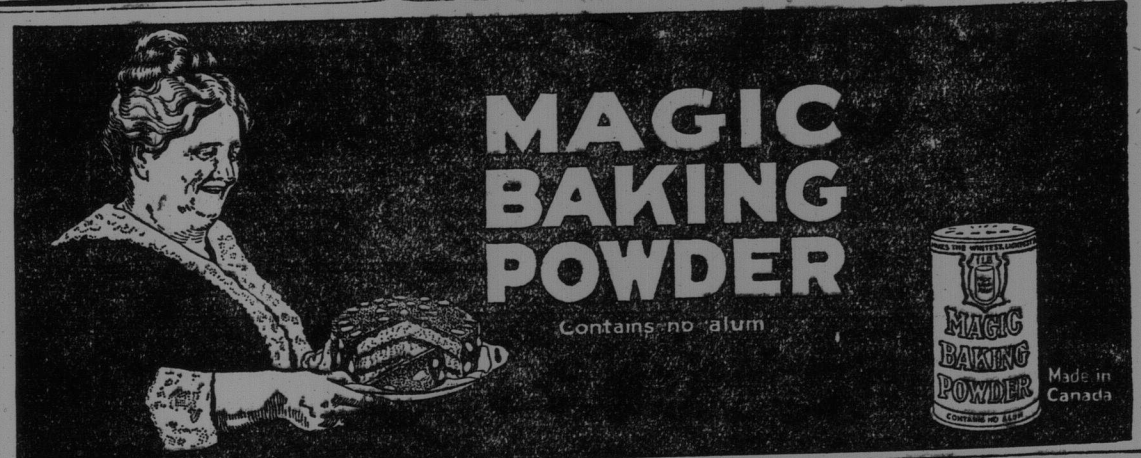

HIGH in food value, McCormick's Jersey Cream Sodas are fresh and crisp when you buy them. They keep well. There is no waste to them. For an economical food, it would be hard to find their equal.

**The Northern
Timer Elevator**
Puts Punch in Ford Performance

A Northern Timer Elevator on your Ford will reduce your engine troubles, because—
Oil, water, mud, etc., to which the timer, in its present location, is exposed is often the direct cause of short circuiting and inefficient running.
Then again, the Northern Timer Elevator brings the timer well up to a more convenient and easily accessible position.

The Northern Timer Elevator is a real investment, not a mere accessory. You can install it yourself in less than 30 minutes. No holes to drill and no fuss.
Be one of thousands of Ford owners who know what "even running torque" means.

The People's Verdict On President Wilson's Plea

Out and out opponents of the League of Nations Covenant are not converted by President Wilson's plea that it is "a practical necessity," "the only hope for mankind," and that to reject it would be to "break the heart of the world." The leading article in THE LITERARY DIGEST for this week—July 19th—gives a country-wide survey of the press and interviews with United States Senators, enabling readers to gain a very definite idea of what the United States thinks of the President's Senate speech for a League of Nations.

While the Minneapolis Journal (Rep.) urges us "to be very sure that the Covenant does not permit the European camel to get its head inside our tent," the New York Times sounds the dominant note in public opinion when it declares that "the President's address compels ratification; it is an irresistible force which the Senate can not withstand."

Other important news articles in this week's DIGEST are:

Keep "Up-to-date" By Reading The Digest

Nothing means more to every man and woman in these days of momentous happenings and world-wide change than to be able to follow intelligently all that is taking place, both at home and abroad, and to take part in any discussion upon topics of general interest with confidence and authority. To fit oneself to do this in any real sense would seemingly involve an impossible amount of reading of current periodicals of all sorts, for which few, indeed, of us

would have the time. But this difficulty is merely apparent. You will find a solution for it on every news-stand in the shape of THE LITERARY DIGEST, the world's greatest news-magazine, which gives you all sides of all the vital questions of the day from week to week in a compact and readily assimilable form. If you want to be properly informed on all current issues read THE DIGEST this week and every week.

Makes Youngsters Grow

IT'S the richness of Carnation Milk that makes it such a wonderful food.

The fresh milk is received daily at our condenseries located in the better dairy sections.

And the Carnation method—evaporating this good milk to the consistency of cream, taking away nothing but water, adding nothing—assures you of fresh, rich milk.

Give the children lots of Carnation Milk. Give it to them as cream on cereals and as whipped cream on desserts (chill it first of course). Add water and give it to them to drink. Get "The Story of Carnation Milk" with its 100 splendid recipes and see what Carnation Milk will do for your cooking. See page 31 for suggested baby food formula. Write to Aylmer and we'll send a copy.

Of course you buy Carnation Milk the convenient way, too—from your grocer. Order several cans to-day. Directions on every can.
