Our tire efforts are directed toward effecting a complete clearance of every dollar's worth of spring and summer clothes and shoes. Of the little illustrated advice book described below, which I gladly send free to all men who fill in the coupon. I beg to say that it represents the very BEST information of a private nature which I am able to give. It is the result of over 20 years' observation and study of my patients, during which time I have personally interviewed many thousands of men, young and elderly, single and married, rich and poor, who came to me in confidence with their confessions of debility, lost nerve force and falling strength.

It is, in fact, this rare and unusual opportunity which has enabled me to compile this very popular and valuable information as to the exact living, breathing experiences and needs of real men who sought information as to the new ways of self treatment without the use of drugs.

Remember, this book of over 8,000 words and 80 illustrations will come to you by return mail in reply to your request, and in a perfectly plain, sealed envelope, for it is no one's business but your own what the envelope contains. There is absolutely no obligation on your part to buy anything or pay anything, and merely the receipt of this book does not mean in any way that you are to use one of my VITALIZERS (see description below) and, in fact, only a portion of the book has any reference to the VITALIZER at all. **GANDEN, AUTHOR.**  
It is a fact, reader, which you and I must recognize and admit, that the whole world admires and is fascinated by strong, vigorous, husky, manly men. It is this same manhood and this alone which is the back of the real leaders and producers in every walk of life. No matter where we go, we find it to be the manly, vigorous, vital force that makes men and women of this community, who does the really great things. An unmanly man merely means nature's laws gone wrong, for it is he who hails and hesitates, who takes the back seat, who does not fit into the picture in a way that a manly, vital nature should. And yet, reader, it is my firm belief that any man, no matter what his past, no matter what dispositions or follies may have left their mark upon his physical and mental being, I say to you that such a man, unless there be some unusual reason, may hope for a complete return of his strength, vigor and self-confidence, if he but go about his self-
