Co-operation Means Development

The spirit of co-operation for St. John and for New Brunswick is showing itself strongly now. The development of the coal mining industry of the province and the providing of an independent source of supply for this city is recognized as important. And this is one of the reasons the Debenture Shares to be issued by J. S. Gibbon & Co., Ltd., are being so favorably received.

Mr. Carthy's Hard Luck

John A. Carthy of Westmorland Road, who was injured in a dynamite explosion last year, and who was taken to the hospital yesterday morning to have his leg dressed, which was injured while he was at work in the sugar refinery when he was struck by a flying splinter of steel, was also one of the victims of the street car accident on Mill street last evening when he again went to the hospital where he has a deep cut in his wrist.

WILL PRESENT CUP

At the temperance hall, Fairville, this evening the cup donated by J. B. M. Baxter to the winners of the Fairville league will be presented by him to the Royal Canadian Mounted Police. The season and the prize of a baseball outfit donated by Glendon H. Allen will be given by him this evening to the Cubs for sale Mr. Acton. It is interesting to note, came to this part of the country from the west a couple of years ago. He farmed in Manitoba, and he is farming here, and he declares without any hesitation yesterday that this is by far the best part of Canada for the poor man. Out west, he continued, a man to start farming must have at least two thousand dollars to lay out in the way of horses and farming utensils. Here it is altogether different. Several men can buy an expensive piece of machinery together and the cost comes light on each individual. In addition to this is the fact that the best is a better country to live in. When we were in Manitoba, Mr. Acton remarked, we had to drive five miles to a church and three miles to a school.

WHY THEY ARE GOOD

The Rev. Dr. Morton, who succeeds the late Dr. Evans as manager of the Supernumerary fund of the Methodist church, having been elected to procure a house in Hampton, has wisely concluded to make his headquarters at Sackville. He will reside with his aunt, Mrs. (Dr.) Stewart, and will have start farming, must have at least two thousand dollars to lay out in the way of horses and farming utensils. OPERA HOUSE DATES CONFLICT

But the Thompson & Woods Company Are Kindly Endeavoring to Make Way For Local People

The members of the Royal Kennebec Yacht Club are having some little trouble with their attraction, booked in the Opera House for next Friday week, Miss Eva Mylott, the contralto. When arrangements were made for this singer's appearance, the Opera House had not decided definitely as to the opening of the stock season. With the advent, however, of the Thompson-Woods forces, the yacht club was notified that it would be impossible to play the date, so they decided giving the concert at the Nickel, but unfortunately they had no experience in having the Kennebec people had rented the premises for the 17th. The only recourse left them was to endeavor to make arrangements for the Opera House on the original date. Mr. Spencer was in a peculiar position, being between two contracts, but the local manager of the stock company expressed himself desirous of doing everything possible to accommodate the Yacht Club, and at very great inconvenience is trying to arrange so that the date may be available for Miss Mylott, and to this end, has communicated with the New York office, in an effort to make arrangements that will avoid the necessity of cancelling the concert engagement.
