Premier Guest of Fredericton K. of C.

Hon. P. J. Veniot was a guest of honor at a banquet tendered him in Fredericton last evening by the Fredericton Council of the Knights of Columbus. He was the recipient of hearty congratulations upon his elevation to the high position of Premier.

At the conclusion of the material part of the program, High O'Neill, Grand Knights of the Council, proposed the toast to the King, which was honored in the customary fashion. This was followed by toasts to His Holiness Pope Pius XI and to the Catholic Church, Very Rev. P. J. Murphy, of Fredericton, dean of the Diocese of St. John, and Rev. M. T. Murphy, of Miramichi, presiding.

The toast "To the Guest of the Evening," proposed by Mr. O'Neill, was accompanied by an address to him which the guest knighted him. The address declared that tolerance, service and duty towards his fellow men had ever marked the work of the Premier. It assured him of the pleasure which his fellow knights felt at the honor that had been done him and concluded with the expression of the hope that he might long enjoy success and happiness in his new position.

The Premier was given a rousing reception on rising to reply. He was very happy, he said, to accept the honor done him. Tolerance, charity and good fellowship, he said, were the mark every knight of Columbus, and as the Catholic and French-Canadian Premier of New Brunswick he felt that he could choose no better channel to send out to the people of the province the message of charity, good citizenship and good fellowship than through the medium of an organization of which he was a member.

Mr. Veniot replied that the company was taking a chance on that and was quite safe in saying it was a good one. He said that the contract was broken. When Mr. Peters said he questioned if the people who were voting for it in the November election, he was met with the prompt reply that the men who were voting for it were voting for it in the November election. They knew as much as you.

Mr. A. Macaulay spoke at length in favor of further negotiation. Dr. W. P. Broderick said he held no brief for the N. B. Power Company. He admitted that it was on account of Musquash that the rates had been reduced. The offer contained in the second section was well worthy of consideration, he thought. He took it for granted that the company would accept it.

Other Speakers.

Following Mr. Veniot's response, Mr. P. J. Veniot, of Gloucester, sang the Marseilles in French in a very acceptable manner.

The toast to our country was proposed by Rev. J. H. Milligan, curate at St. Dunstan's, and responded to by Hon. J. P. Byrne, attorney-general, and W. E. Scully, M. P. St. John.

D. J. Shea, past grand knight, proposed the toast to the Knights of Columbus order, and Hon. J. E. McMichael, past district deputy, responded to it.

Grouped about the guest table were Very Rev. F. L. Carney and Rev. J. H. Milligan, Fredericton; Rev. William Hannigan, St. John; Miles Howard, Kingsclear; Rev. Father Burns, Boletown; Hon. J. J. Byrne, Hon. J. E. McMichael, W. E. Scully, M. P. St. John; Rev. J. H. Milligan, Fredericton; Rev. J. E. McMichael, W. E. Scully, M. P. St. John; Rev. J. H. Milligan, Fredericton; Rev. J. E. McMichael, W. E. Scully, M. P. St. John.

The W. M. S. of German street Baptist church held their annual Easter thank offering service yesterday. Those participating in the service were: Mrs. Stewart Smith, Mrs. Charles Wason, Mrs. J. Z. Currie, and Mrs. W. H. Barker. Mrs. S. S. Poole presided and a generous offering was received.

POWER COMPANY MEETING LAST NIGHT

Pythian Castle Meeting Hears Hydro Enthusiasts as Well as Opponents—Some Humorous Passages

A meeting of hydro opponents was held at the Pythian Castle last evening. L. P. D. Tilley acting as chairman and about 800 citizens present. However, it was quite evident that there were a large number in the audience who were strong supporters of hydro, and the "select few" who called the meeting were brought to task time after time with reference to statements made during the course of their remarks. The speakers who expressed opposition to the erection of a duplicate distribution system were: Fraser Gregory, C. H. Peters, Dr. W. P. Broderick, H. W. Frink, R. A. Macaulay and E. N. Sanderson, president of the Federal Light and Traction Company.

The meeting was quite stormy, and some of the speakers were subjected to sharp questioning on the part of citizens in the hall and their assertions closely checked. Following the speeches, Mr. Frink moved and C. H. Peters seconded the following resolution:

Resolved, That this meeting is of the opinion that it would be detrimental to the interests of the city of St. John to have two systems of electrical distribution, and that every effort should be made to arrive at an arrangement with the New Brunswick Power Company whereby they would distribute, under proper safeguards as to rates, the current purchased by the city from the Provincial Hydro Commission, using as a basis for such arrangement sub-section (b) of the paragraph number one in the offer of the Power Company made to the Mayor and commissioners dated the third instant.

The chairman, Mr. Tilley, read the motion and then said, without asking for the question: "Those in favor please say 'aye'." After the "ayes" had their say, he called for the "nays," which were given with a spontaneous motion that moved the chairman to call for a standing vote. It was quite apparent from the standing vote that the "ayes" had it.

But the chairman's procedure aroused unfavorable comment.

Some Humorous.

When Mr. Gregory, the first speaker, was subjected to some cross-examination on several of the statements he made. He criticized opponents of the present Mayor at the time of the November election when he said that "of two evils" the electors had chosen the least. (Laughter). When he affirmed his belief that Musquash would have gone dry this year and been unable to serve the city, he moved the hydro enthusiasts to much laughter. Pleading for the new offer, he held aloft a weekly pass and asked: "Any kick coming from the North End or West Side about this pass?"

A voice: "We don't live there." (Laughter).

When Mr. Gregory said he had ridden on that pass five times yesterday, a voice called out: "That's a good one. Millidgeville this summer." (More laughter).

When he asked why the reduction had been made in lighting rates, there was a concerted reply, given strongly and with a will:

"HYDRO."

C. H. Peters advanced the arguments he presented before the Common Council on the hydro issue.

He said he accepted the Ross report and the Scheidegger report and he condemned the Musquash.

Mr. Quinn—"What is your opinion of the city accepted by the power company, if you say, the power is not there, then the contract would be broken. When Mr. Peters said he questioned if the people who were voting for it in the November election, he was met with the prompt reply that the men who were voting for it were voting for it in the November election. They knew as much as you."

Mr. A. Macaulay spoke at length in favor of further negotiation. Dr. W. P. Broderick said he held no brief for the N. B. Power Company. He admitted that it was on account of Musquash that the rates had been reduced. The offer contained in the second section was well worthy of consideration, he thought. He took it for granted that the company would accept it.

How I Got Rid of Burning Feet

And Pains from Corns and Bunions Without Soaking, Powders, Plasters, Etc., After Suffering Indescribable Foot Misery for 20 Years.

Prof. F. T. McIntyre, well known foot specialist and expert, says: "For two years I was compelled to wear shoes two sizes too large, to be able to walk with any comfort at all. I tried soaking my feet in medicated baths, powders, plasters and foot-treatments galore, but the burning callouses and soreness refused to go, while the pains from corns and bunions continued to torture both mind and body, which upset my entire nervous system. One day, very fortunately, I met a lady from Egypt who gave me a little box of Gypso Foot Relief, which she said was a secret from the desert. After using it a short time, the awful burning stopped, the callouses came off in chunks leaving the skin of my feet clean and smooth, while the pains from corns and bunions seemed to disappear as if by magic. From a painful condition I was able to wear shoes over 90 years of indescribable foot misery. I would not take a hundred thousand dollars to again go through those years of agony. Now I feel like telling every foot sufferer to get a box of the wonderful Gypso Foot Relief."

Note.—Gypso Foot Relief, referred to by Mr. McIntyre, may be supplied in a minute, without fuss or bother. Sure, quick relief comes three minutes later, or the makers give back the small amount you pay.

It is sold in this city by Travis Drug Co., Ltd.; J. M. Rouleau, T. J. Durick and Ross Drug Store, Ltd.

granted that the power was at Musquash.

H. W. Frink said he was not unserved in favor of the Sanderson proposal. He did think it could be and should be used as a basis for further negotiation.

Advantages of Civic System.

F. A. Dykenham asked a hearing, which was readily granted. He said it seemed to be forgotten by the speakers that the 10,000,000 k.w.h. which the city had contracted for would cost only one-quarter of what the city paid last year to the Power Company for the 5,225,000 k.w.h. consumed. (Loud applause). It did seem to him that the city was saving a matter of \$160,000 a year as a result of the reduction in rates.

Mr. A. Macaulay spoke at length in favor of further negotiation. Dr. W. P. Broderick said he held no brief for the N. B. Power Company. He admitted that it was on account of Musquash that the rates had been reduced. The offer contained in the second section was well worthy of consideration, he thought. He took it for granted that the company would accept it.

MAP OF OCEAN FLOOR

Sonic Depth Finder Enables Survey of Pacific Valley in Seismic Study

Washington, April 5.—As the result of a survey of the Pacific Ocean floor, a chart showing the depths of the ocean from San Francisco to Point San Diego, has been published by the Hydrographic Office of the navy.

The chart, which of great interest to scientists, has less interest to scholars than the instrument itself, of which the U. S. Navy has a number. It is the work of the Bureau of Engineering in the navy, and was the result of a survey of the Pacific Ocean floor, which was conducted by the U. S. Navy.

The design of the sonic depth finder, says a statement, "is to ascertain the velocity of sound in water and accurately measure the time from the moment the sound is produced till it is heard again reflected back."

"For measuring water deeper than fifty fathoms, as in mid-ocean, it is necessary to use with the sonic range finder a high power vibratory sound source, which is a directional form of sound receiver."

"The soundings obtained by the U. S. Navy were with the sonic depth finder, which enabled the Navy to obtain the depths of water necessary for the construction of a chart of the Pacific Ocean floor, which was of great value to seismologists, geologists and oceanographers."

The sonic depth finder, which was used in November, 1922, and paralleled soundings were run from Point Conception to Point Desolation, Mex., and five miles apart from Point Conception to Point Desolation, Mex. The average distance between soundings is one to two miles; the distance covered was 3,800 miles; the total distance covered was 3,800 miles; the total distance covered was 3,800 miles.
