THE ROYAL GEORGE IS BEING REPAIRED

Big Liner Successfully Floated at High Tide on Saturday Afternoon.

GOES TO QUEBEC WITH OWN STEAM.

Opinion of Expert is that Vessel Can be Repaired and Taken Across Atlantic.

Quebec, Nov. 24.—When Pilot Rioux of the Royal George, sent a wireless message ashore some days ago that the steamer would be floated on the 24th inst., he evidently left a margin of 12 hours, in case of accident, as the tide would be high at 5.42 a. m. on that date.

It was intended not to attempt to float the steamer until the tide reached 51 feet forward, but when the water had 21.2 feet, it was found that the ship was off the ground. The starboard anchor was at once weighed, and the steamer Lord Strathcona, having a hawser attached to the Royal George, commenced to pull her into deep water, which she reached without any grating sound, clearly proving that she was not touching ground.

When the steamer reached deep water the four anchors which she had out aft were buoyed and slipped. The Royal George at six p. m. left Quebec under her own steam, making eight knots an hour. She entered port at seven o'clock, the Lord Strathcona and Lady Grey accompanying her. She had to remain in the stream until the steamer Megantic left the breakwater, so as to enable the damaged steamer to enter the Louis-Belle pier. The tug Belle took a hawser from the Royal George and worked along it, succeeded with the aid of hawsers from the other tug, and there were a great many men on the beach in the big steamer was brought safely ashore and damaged keel, brought back and repaired and sent across the Atlantic.

UNCLE SAM WILL BURY THE CORPSE OF RECIPROcity. Washington, Nov. 23.—Repeal of the Canadian reciprocity treaty, which Canada rejected after its advocacy by President Taft, was brought forward today as the subject of a bitter fight this winter, on the return of House Democratic leaders. That all efforts to wipe the treaty from the statute books to prevent its possible future acceptance by Canada will be made during both the regular and special sessions of Congress, was asserted by the leaders.

"I am informed that a hard fight to repeal the treaty will be made this winter," said Representative Henry (Democratic Texas), chairman of the house treaty committee today. "The treaty amendment proposition will probably come up early in the session. It is expected to provoke controversy."

TEMPERANCE MEETING IN MONCTON DEVELOPS INCIDENT NOT ON PROGRAM.

Special to The Standard. Moncton, Nov. 23.—The introduction of party politics and a wordy personal encounter between Dr. O. B. Price, Conservative M. P. for Moncton, and J. T. Hawke, editor of the local Liberal organ, were features which contributed to make the public temperance meeting, which was held in the Grand Opera House here this afternoon one of the most interesting and memorable of its kind ever held in this city.

The clash occurred as a result of certain references of the speaker of the certain, which were considered by the local members as reflecting unjustly on the government of which he is a supporter.

The meeting was called to consider the Scott act situation in this province. The principal speaker was Rev. Herbert E. Thomas, who was formerly pastor of Wesley Memorial Methodist church. Mr. Thomas succeeded in starting a temperance crusade which resulted in closing up of many open bars and in present improvement of streets.

Mr. Thomas, in the course of his remarks read some correspondence which passed between himself and Provincial Secretary McLeod relative to the investigation of charges made against Inspector J. B. Jones, of St. John, whom he charged with neglecting to investigate these charges, and said that the government, while it would not investigate charges against this man, was "quick enough to take the arm of the law will deal heavily with them."

The magazine had been published a few days ago and was circulated in the court room.

"In view of Mr. Jewell's testimony about Hockin, and in view of what has happened here today, I wish to ask the court to increase to \$20,000 not only the bonds of Hockin, but of all the defendants who are members of the union's executive board," said District Attorney Miller, after the jury had retired.

Judge Anderson said: "I did not intend to take any notice of the articles published in the magazine, but since they were referred to I will say I never heard of such an outrageous contempt of court as will increase Hockin's bonds. The evidence has shown that he is a man who cannot be trusted by anybody and in view of the day which he has had to deal, but as it is Saturday I will not consider increasing the bonds of the others. Hockin will be taken into custody."

Canadian Apples are Popular in New Zealand. Many Large Shipments Made to New Zealand—Hard Wheat in Great Demand in France.

Ottawa, Nov. 24.—New Zealand is selling more and more butter to Canada according to the weekly report of the Trade and Commerce Department, and in return is ordering increased quantities of Canadian apples. Space has been reserved on steamships for upwards of 125,000 boxes of butter for this season. The Trade Commissioner states that he is constantly in receipt of communications from places as far east as Toronto asking for the names of butter shippers. A recent shipment of Canadian apples proved very satisfactory, being described as the best received this season from anywhere. Additional orders have been called to Canada.

The Weekly Report also notes that the French press is urging the government to temporarily reduce the duty on wheat entering France. The domestic supply has not ripened well this year and the millers will need a larger quantity of Canadian hard wheat than usual to provide the quality of flour French bakers demand. In 1888 under similar circumstances there was suspension of duty for over a year.

DEFENDANTS AT IRON WORKERS TRIAL TO SUFFER THROUGH MAGAZINE ARTICLE.

SAYS GOVERNMENT IS STEEL TRUST'S TOOL.

WOMAN JOURNALIST BRANDED AN ANARCHIST BY JUDGE BONDS RAISED.

Indianapolis, Nov. 23.—Imprisonment of Herbert B. Hockin, one of the defendants in a trial in the Los Angeles Times explosion, by District Attorney of a woman writer in the court room as an "anarchist," and a repudiation by attorneys for the defence of some of the acts of the defendants were among sensational incidents at the "Dynamite Conspiracy" trial today.

Hockin was declared to have been in the employ of detectives soon after the Los Angeles Times explosion. He was also accused of having told a witness of overhearing John J. McNamara talk to President Lynch of the International Typographical Union, "about an explosion on the Pacific coast."

Miss Mary Field of New York was branded by the District Attorney as an "anarchist" who ought to be excluded from the court room, for certain articles she published concerning the trial in the union magazine.

The officials of the union now on trial including Frank M. Ryan, the president, J. T. Butler, Buffalo; Vice-President, M. J. Young, Boston, and P. E. Cooley, New Orleans, were denounced for publishing what the court said was "an outrageous contempt of court."

No sooner had the court spoken than Senator Kern and William N. Harding, among the attorneys for the defence, arose and said they had some article criticizing the trial, and that they disavowed the sentiments expressed in the article.

Pointing toward the table where sat about ten attorneys for the defence, Judge Anderson said: "He had in mind the government, while it would not investigate charges against this man, was 'quick enough to take the arm of the law will deal heavily with them.'"

Both Sides are Waiting for Peace. Bulgarians After Re-inforcements for Attack of Thessalonian Lines—Little Fighting—Austrian Reservists Called Out.

London, Nov. 24.—No serious fighting is reported on the Thessalonian lines, where both sides appear to be waiting the issue of the armistice negotiations. Meanwhile all the necessary dispositions are being made for a resumption of the war should the negotiations fail.

Bulgaria is shipping her forces from Saloniki in Greek transports, presumably for transfer to Gallipoli Peninsula, where Turkey is also strengthening her forces by Anatolian troops. Here an attempt will be made by the allies, assisted by the Greek fleet, to take the Dardanelles.

The rest of the allied forces, liberated in Macedonia, will be sent by rail as speedily as possible to reinforce the Bulgarians attacking the Thessalonian lines. Their places will be taken by the Bulgarian 1912 recruits, being drafted into Macedonia for garrison duty.

The only news of military importance tonight is the occupation of Ochrida, a large town near Monastir by the Servians. The position at Adrianople and Scutari is apparently unchanged.

Official statements at Vienna continue to deny the reported war preparations. Letters from Vienna have reached London, however, confirming the reports that the strength of six different army corps is being increased and that a large number of reservists have been called out.

Young Man Found Guilty of Murder. Toronto, Nov. 23.—On Good Friday Joseph Rosenthal was atrociously murdered in the yard of the Hydro Electric Power Station on Strachan avenue. His battered corpse was found next morning. A week later Charles Gibson was arrested charged with the crime, but, as the spring trial was about to open, his trial did not come on until the autumn. This afternoon the jury in the case after being out two days returned a verdict of guilty. Gibson is a young man in his twenties. His lawyer has asked for leave to appeal on the ground that the evidence of Dukieman was not admissible.
