## UNITED STATES SPEAKS TO MEXICO IN TERMS THAT CANNOT SAFELY BE DISREGARDED

### THAW'S LAWYERS AGAIN WIN OVER N. Y. STATE

Matteawan Fugitive Temporarily Immune from Immigration Officials.

### RIOTOUS SCENES IN SHERBROOKE COURT.

Three Points Argued Yesterday and Decided in Favor of Prisoner—Jerome Leaves For Quebec to Consult Attorney General of Province.

Sherbrooke, Aug. 27.—Harry K. Thaw, won three victories from the New York State authorities today and was locked tonight in the Sherbrooke jail, immune from the time being from the Dominion immigration authorities, after having received from the townspeople of Sherbrooke a wonderful ovation.

So riotous was the scene in the superior court when, at the morning session, Mr. Justice Gloabensky refused to allow counsel representing New York State to be present at the proceedings, that the court subsequently warned spectators that a repetition of such scenes would mean jail sentences for the demonstrators.

Speaking from the bench at the afternoon session he said that never in his experience as a member of the bar and of the bench had he seen a witness "touch a disgraceful scene." It was carried out in the presence of court attendants and four armed Dominion police, who stood silent while emotional women rushed toward Stanford White's lawyer crying: "three cheers for Thaw, we will give you Justice, Harry."

Tonight with Thaw's term of confinement indeterminate, and the key to the riddle unknown, there was a general exodus of those who rushed hither after the fugitive's sensational escape from Matteawan eleven days ago.

William Travers Jerome, former prosecutor of Thaw and specialist on matters appertaining to his life, left for Quebec tonight, accompanied by Franklin Kennedy, deputy attorney-general of New York.

Either tonight or tomorrow will depart District Attorney E. A. Conger, of Duchesne county, Sheriff Frederick Hornbeck, of the county, Supt. Klein, of Matteawan, John Mack, former district attorney of Duchesne county, and with him sheriffs and deputy sheriffs of Vermont and New Hampshire, who were ready to strangle Thaw in the event of his deportation.

### URGES MORE KNOWLEDGE AS MEANS OF CLEANSING WORLD

Scientists and Educators in Attendance at International Congress Deprecate Policy of Keeping Silent on Matters of Sex-hygiene.

Buffalo, Aug. 27.—Scientists and educators of world-wide fame at the Fourth International Congress on School Hygiene, in a special session today, agreed with practical unanimity that the time had come when the attitude of the world's educational institutions toward sex hygiene should be re-evaluated. They saw in the silence of the past on the subject, a growing and real menace to the future of the race that must be combated by a system of education without exaggeration or morbid suggestion. Public opinion, they maintained, has already reached the point where this revolution is demanded.

### RATE-WAR ON THE PACIFIC

Placing by C. P. R. of Speedy Ships on Orient Route Leads to Reprisals by Other Companies.

Victoria, Aug. 27.—The placing by the Canadian Pacific Railway of two large and speedy steamships on the Victoria-Orient route has led to reprisals. The Great Northern Company shares of the first-class passenger business and with that object in view, has not only reduced its freight charges, but also its passenger rates to the Orient.

The tariff on freight has also been lowered by the Blue Funnel Line, C. P. R., and the Nippon Yusen Kaisha.

### LONDON STRIKERS GAINING GROUND AGAINST CAPITAL

Strong Pickets Surround Public Buildings—Many Employers Grant Demands—Candles Used for Lighting.

London, Aug. 27.—Strong pickets of strikers belonging to the construction and electrical trades today endeavored to induce the workers to lay down their tools at Buckingham Palace, Marlborough House, the Admiralty and Premier Asquith's official residence in Downing street, all of which are in the hands of repairs.

Most of the public museums and government institutions are suffering from the absence of electricity. Candles were the sole means of illumination last night at the Colonial Office, where the strikers also have been put out of commission.

First Grain Train Now in Calgary.

Calgary, Aug. 27.—The first car of grain harvested this year to arrive in this city came in this morning. It was harvested at Noble, Alberta.

Children. Churches take a new interest. An important question is: "What force can now be put in play against the formidable evils which gravely threaten the very life of the race? No one force or agency can be completely relied upon."

"Public progress in regard to sex hygiene and eugenics is to be procured chiefly through educational methods. The work must be done delicately and without interference with parental rights or religious conviction."

Rev. Richard Tierney said his convictions were not favorable to the movement in all its details; neither were they adverse. "Eliminate the details of sex hygiene; train character; teach that purity is noble and possible; that vice is vile and carries its own punishment; that marriage is inviolable; that the family is sacred. Knowledge is not moral power. Christ, not hygiene, will cleanse the world," was his advice.

In an address before another section of the congress, Dr. Edward C. Spitzka, of New York, declared that New York City, in its classification and care of defective and abnormal children stands on no higher level than a country village.

### United States Takes Definite Stand and Will Not Recede.

STRENGTHEN FLEET IN MEXICAN WATERS.

State that Outrages to U. S. Citizens Will be Avenged—Huerta Must Resign from Power and Other Conditions Must be Accepted.

Washington, August 27.—President Wilson went to congress today and revealed how the Huerta provisional government in Mexico had rejected the friendship of the United States and its effort to aid in the establishment of peace and a government which could be recognized by this nation, and which would be obeyed and respected by Mexico's own people.

### OCEAN RATES COMMISSIONER IS RETURNING

H. L. Drayton Will Make Report on Arrival from England—Important Cases Await Railway Commission.

Ottawa, Aug. 27.—Word has been received that H. L. Drayton, chairman of the Railway Commission, sails for England for Canada on September 13. His return is awaited with a great deal of interest as the rooms of the commission in ocean freight rates in recent years.

Secretary Bryan planned to confer with President Wilson early tomorrow and assurances were given that everything necessary would be done to carry out strict neutrality.

To Strengthen Fleet. Secretary Daniels conferred with the President during the day, and the navy department is ready to despatch more ships to Mexican waters if required, to prevent the shipment of arms to Mexico by sea.

Foreign powers, it was understood tonight, have not been asked to place an embargo on the shipment of munitions of war or arms to Mexico, but the President in his message asserted that this government has been given the generous moral support of foreign nations, in the proposals to the Huerta government, which under serious consideration the ordering of several thousand more troops to the Mexican border line.

The President's urgent request to Americans in Mexico to leave the country, emphasized to Congress the necessity for speed upon the recent request of Secretary Bryan for an appropriation of \$100,000 with which to aid citizens of the United States in their exodus from the scene of the conflict. Such an appropriation is included in a deficiency bill now in the hands of the house appropriations committee and it is expected action on it will be hastened.

The State department estimates that there are now in Mexico not more than fifteen thousand Americans, whereas there were sixty thousand several years ago. In Mexico City, it is estimated, there are less than 2,000 Americans today. The diplomatic relations between the two countries it is understood, will remain as they are at present, except each country containing an embassy without official recognition, passed over by a charge d'affaires.

Mineral Spring Race Track Invaded by Two Companies of Guards—Determined to Stop Gambling.

Porter, Ind., Aug. 27.—Two companies of the Indiana National Guards arrived here at 8:30 o'clock this afternoon and immediately took charge of the Mineral Spring Race track, where betting on horse races is said to have flourished since the opening of the meet last Thursday. The troops were ordered out by Governor Ralston, after he had received information that the track officials were permitting gambling, and that the county authorities were doing little to stop it.

Today's racing card had been completed and the largest crowd of the meet had dispersed before the arrival of the troops. W. E. Knotts, president of the Racing Association was present, but made no attempt to defy executive interference. Mr. Knotts said that in the event the troops attempted to carry out Governor Ralston's order to clear the racing course of everybody but the track officials, horse owners, and employes, the meet would come to an end. There probably will be no racing tomorrow with the soldiers camping in the enclosure.

Many Possibles Made in One Thousand Yard Range in Burlan Contest in Spite of Unsteady Wind.

Rockville Rifle Ranges, Ottawa, Aug. 27.—The riflemen contesting in the D. C. R. A. matches continued to make many possibles at the one thousand yards, and an unsteady wind today did not prevent them from planting the bullets in the bull's eye. A number of team matches were decided and the Burlan at one thousand yards caused a good deal of interest.

Lt.-Col. J. Burlan, president of the association, entertained at luncheon today, and Hon. G. H. Parley and Dr. Chabot, M. P., delivered congratulatory addresses on the progress of the meet.

Morrisburg, Ont., Aug. 27.—Gathering from all directions from the first break of dawn this morning between five and six thousand farmers, with women and children residents of the three united counties of Stormont, Dundas and Glengarry, came to the historic spot known as Chrysler's Farm to commemorate the victory that, one hundred years ago, was perhaps the deciding factor in preserving Canada for the British Empire. Long before the hour set for the opening of the program, the old farm whose fertile soil had been once drenched in blood, was a moving kaleidoscope of gay colors, with thousands of banners flapping to the breeze and the multi-colored uniforms of the soldiers mingling with the more sombre hues of the civilian visitors. Of the entire crowd perhaps one half were people whose ancestors fought at Chrysler's Farm.

Early on the scene was Andrew Broder, member of parliament for the district. He was followed shortly afterward by Hon. George P. Graham, M. P., ex-minister of railways, whose address

Telegram from Minister of Justice Postpones the Execution.

### LOST HIS COMPOSURE WHEN NEWS ARRIVED.

Amherst Murderer, Thought to Have Dual Personality, Had Prepared Himself for Death This Morning—Wrote Poem Entitled "Waiting."

Special to The Standard. Amherst, N. S., Aug. 27.—Datline back one hundred and fifty years to the time of the English settlement of Cumberland there have only been two men who have expiated their crimes on the scaffold. A century ago tradition relates that a man named Brick was hanged near the old cemetery at West Amherst. In 1858 a wanderer character named Doyle suffered similar fate for what is familiarly known throughout this county as the "Clem murder." With the long lapse of seventy-five years since the last execution occurred it is not surprising that for at every street corner talked with a faded breath of the sad tragedy, that was expected to be enacted on the morrow.

The gallows had been erected and could be plainly seen from the principal street of the town. Sheriff Davidson had all arrangements completed to bring the last sad chapter of a young man's career to a close and the officials in charge were this evening making some final tests on the shabby structure, when a telegram was received from the Minister of Justice postponing the date of execution for three weeks.

It is hardly possible to imagine the general feeling of relief that swept over the town as the word passed from mouth to mouth, as it is now felt that the sentence will be commuted to life, or a long term of imprisonment. It is not devoid of sympathy for the prisoner that has brought about a marked change in his favor. During his imprisonment he has been a model prisoner. He has apparently thought for himself, but was much exercised over the grief and sorrow of his aged father and other members of the family. Those who have been in close touch with him declare that he is a victim of a dual personality. When the news was brought to him to the extension of time, his wonderful control and composure was broken down. He had prepared himself for the end, and would sooner go through the ordeal tomorrow than have the day postponed, if it had to come.
