The Bank of Nova Scotia will establish The Bank of Nova Scotia will establish branches at Vancouver, Calgary, Wetasker win and Fort Saskatchewan. R. A. Mingie, accountant of the ank of Nova Scotia in St. John, who has been relieving the manager at Port Rigin, passed through the city yesterday on his way to Fredericton, where he will relieve the manager for several weeks.

The first meeting for the winter of the Teachers' Association of St. John was held Thursday night in Forestens' hall, W.J. S. Miles, president, in the chair. The minutes of last meeting were read and approved, after which the secretary-treasurer submitted a statement of the accuracy with the secretary treasurer submitted it appeared the total urer submitted a statement of the accounts, by which it appeared the total income last year was \$54, while the expenditure was \$26.88, leaving a balance on hand of \$27.12. The following officers were then elected: W. J. S. Myles, president; M. D. Brown, secretary-treasurer. An informal discussion then took place on teachers' salaries, but nothing definite was decided upon

While on his rounds about 1.45 o'clock Thursday morning, the waterman of Fleming's foundry discovered fire issueing from the windows in the second floor of a three story frame building in the foundry yard. The lower floor is used for the storage of coal, second floor is unused, and there are a large number of valuable patterns on a large number of valuable patterns on the upper floor. An alarm was rung in from box 52 at the foundry, Pond street, and a good stream of water had the flames subdued before a great deal of damage was done. A section of the sec-ond floor was somewhat damaged, but it is thought the patterns will be uninjur-ed. The building and contents are in-

Over the New Drop Put In for the D. A. R. Company.

drop. The section cut out was arranged so it could be placed in position when it was necessary for the I. C. R. to use the track. The question then came up as to who would become responsible in case of an accident, should at any time the section be open and a car or engine go into the drop. The city owns the wharf, the D. A. R. the privilege of using the wharf, and the I. C. R. owns the track.

Both the city and the D. A. R. refused.

The Situation in Bangor.

The Bangor Commercial of Wednesday supply that because the board of health was unable to procure any dwelling suitable for a house of detention, to be used in suspected cases of smallpox, Mayor Beal ordered that the armory be turned over to the health officers and this will be used as an isolation hospital.

Dr. Woodcock of the board of health said Tuesday afternoon, there are a numthe drop. The city owns the wharf, the D. A. R. the privilege of using the wharf, and the I. C. R. owns the track.

Both the city and the D. A. R. refused to take the responsibility, so the I. C. R. tracking the city and trackmen were given their instructions yesterday, and the track section of the drop has been closed up.

The world produces about 250,000,000 tons of grain yearly.

NO SMALLPOX RESTRICTIONS,

Rev. E. H. Roper and Wife Nothing Being Done to Guard Tenders Resignation as Head Against Plague in Maine Being Brought Into This City.

With seventy cases of smallpox in Ban-

r and vicinity, with travel from that thing is being done to prevent the dis-se being brought here. The plague has ite a hold in some Maine towns ap-rently, for there are cases in Bangor, rewer, Oldtown, Orono and one in acksport. That it is unwise to take risks with it is shown in despatch printed in The Telegraph Tuesday from Amesbury (Mars.), telling that George Freeman, who went there Monday from Bangor, was found to have a well developed case of

Enquiries were made by a Telegrap, reporter Tuesday to learn if anythin was being done at the border of Main and New Brunswick to guard. agains people from Bangor, or the town wher cases of smallpox exist, bringing the disease to this city, but it was found that people appears from an at their so far as their

smallpox across the border.

In a recent situation, somewhat similar, when there was fear that this disease might be brought here from Maine, the provincial board of health had a physician placed on the C. P. R. train to operate between McAdam Junction and Vanceloro, examine travellers from the affected districts and deny entrance into New Brunswick of all not able to give evidence of immunity from the disease:

Now there is no restriction and, as one thoroughly conversant with the condi-

infected persons from Maine into this province.

Wednesday's Bangor Commercial says:

"According to Dr. Galen M. Woodcock, of the state board of health, there are about 55 cases of smallpox in Bangor at present. There are a considerable number of suspects whose filmss, it is expected, will develop into the disease within the next day or two. The board of health officals say that they advise everyone to refrain from attending public places where there are crowds and they think that if this is done it will, next to vaccination, be the greatest aid to prevent the further spread of the disease."

An attempt is being made to get all lumber operators in Maine to have their whole crews vaccinated. A new case of smallpox was discovered in Brewer on Sunday, and a suspected case in North Brewer. Another case was reported in Brewer. Another case was reported n Old Town on Monday.

Referring to the situation as it affects
New Brunswick, yesterday's Fredericton

Herald says:
"Dr. E. B. Fisher, secretary of the pro "Dr. E. B. Fisher, secretary of the provincial board of health, in an interview today stated that he had received no information in regard to the outbreak of smallpox at Bangor other than had appeared in the papers. Believing that the matter called for prompt action, he said he had written on behalf of the board of health to the director general of public health at Ottawa urging that a medical officer be placed on duty at McAdam Junction without delay, with instructions to vaccinate all persons coming from the infected district. Of course it was too soon for a reply but he had every hope that the director would recognzie the gravity of the situation and act upon his suggestion. Dr. Walter T. Ryan, who filled the position of quarantine officer at McAdam for the past two years, resigned his position on October 1st, and no successor has been appointed."

The Situation in Bangor.

Dr. Woodcock of the board of health said Tuesday afternoon, there are a number of new cases. There are numerous others which have been reported and which have not yet been passed upon and a considerable number of suspects are being watched.

There are at present at the pest house eleven men and three women.

The board of health is considering the advisability of making an inspection of the passengers on all trains, both in and out of the city.

The doctors are vaccinating hundreds daily, and it is estimated that about 5,000 persons have been inoculated inside the past week.

DR. BAYARD GIVES UP CHAIRMANSHIP.

of Provincial Board of Health.

SENT SOME WEEKS AGO.

He Declines to Discuss the Matter But Elsewhere It is Said His Action Follows a Difference With Dr. Fisher, the Secretary of the

ed that there was a difference of opinion and later legal action because of a disease which appeared in the vicinity of Fredericton recently. Dr. McNally diagnosed it as chicken pox. Dr. Fisher, secretary of the health board, declared it smallpox. In August, at a meeting of the Provincial Board of Health. Dr. Bayard read a paper on the subject, and copies were distributed. The newspapers received them and, reviewing this paper, the following which may or may not throw light on Dr. Bayard's resignation is found:

ton and saw with him a patient laboring under the prevailing disease." The condition of the patient, a child, is described and Dr. Bayard continues: "Judging from the history and the appearance of the eruption, I concluded that the disease approached very much nearer to chicken pox than Varioloid, and having no authority to class it as Vanioloid Varicella, I advised him to report it as chickenpox, for which I hear I have been demounced by those who differ from me; this does not trouble me in the least. Under similar circumstances I should

Under similar circumstances. I should give the same advice."

Dr. Bayard has for more than forty years been active in board of health matters and has given close attention to all matters pertaining to the public health. In 1855 he was appointed chairman of the St. John city and county board and for years he has been president of the Provincial Board of Health.

A MOOSE AND A BEAR.

Great Three Days' Sport at Bartibogue by Dr. Lance of Provi-

Dr. J. D. Lance, of Providence (R.I.) s a guest at the Park Hotel. Dr. Lance and the skin of a bear, and a very high opinion of New Brunswick as a field for big game. He left Providence a week ago last Monday, and intended to come from Boston by boat, but owing to the big storm he was delayed and came through by rait, arriving at Bartibogue, on the Miramichi, on Wednesday night. He put up at John Connell's, and on Thursday morning, with Mr. Connell's son Arthur as guide, started out. They left the house at 8 a. m., and at 11 a. m., Dr. Lance brought down a monster moose. The carcaes, by actual weight. moose. The carcass, by actual weigh was 1,160 pounds. The antlers, while the was 1.160 pounds. The antiers, while the only had a spread of 44 inches, were a remarkable formation, being unusuall, high and finely formed.

On Saturday, Dr. Lance shot a beautighing 200 pounds. He saw two more constant and treats of his game was also moose, and tracks of big game were plen tiful. He had a great three-days' sport and goes home delighted with his outing and its results.

DR. DUNDAS' CASE

Strange Matter Before Justice of the Peace in York County.

ADULTERY WAS ALLEGED.

Walter Rollison Had Hoyt Station Physician Arrested—The Accuser Didn't Appear at Time to Which Court Adjourned-The Tale of a \$500 Note of Hand.

further, and the magistrate was asked to dismiss the case.

The magistrate having taken time to consider, dismissed the information, with costs to be paid by Rollison.

After court adjourned it was stated that Rollison had shown the magistrate and his son a promissory note for \$500, which he claimed bore Doctor Dundlas signature, payment to be made at the Bank of Montreal, St. John, on December 1 next. Doctor Dundas said he had settled with Rollison and had received a release for all claims against him.

Doctor Dundas is an Englishman, holding degrees from leading medical colleges of Great Britain. He has been practicing medicine in Blissville for three years, and enjoys a large practice from the lower end of Sunbury county to the end of Queens. He took a deep interest in local public affairs, and recently contributed \$1,500 toward the construction of an Anglican church.
