ing. Large numbers will be given by the Crosses and Distinguished Comedals, but many more have earned them, for it has been impossible to give every case to notice. Tell the world, proud as I am to have such heroes under my command, they should prouder still to be men and dear ones of such men, and that they can take their place by their own behavior, the wives to take to their children and their brave fathers, and for themselves never to do anything a full account of which they would shrink from giving their husbands on their return to the war. Tell the men and girls can serve their country best by being quiet lists, thus getting an account of self-restraint and upright behavior, which, equally with the bravery of their dear ones in the war, is necessary to bring the country through great national crisis with credit and glory, and to give the good fortune to live for the Union Jack."

DRY CAUCUS IN WOODSTOCK.—Woodstock, N.B., Nov. 28.—(Special)—Meeting of some of the Elementals in Tory ranks was held here tonight. A caucus was set out for the faithful Postmaster Winslow, and B. Frank responded promptly. Premier Manning, who was in Florenceville last night, was communicated with and asked to get here, if possible, on Tuesday. He may arrive during the night.

The following district officers were present: District Chief, Temporal Rev. G. A. Byles, District Councilor, E. Kirkpatrick, District Deputy, H. L. Kirkpatrick, District Secretary, Merrill Mersereau, District Treasurer, Mrs. Dorothy Byles, District Marshal, Frank Byles, District Sentinel, T. Alexander, District Messenger, Miss Vera Kirkpatrick, District Organist, Miss Hazel Mersereau.

Eleven candidates were initiated in the district degree.

Miss Dorothy Byles tendered her resignation as district S. J. T., and Frank Neary was elected to fill the vacancy, and installed by the grand vice-temple, Mrs. M. E. Murray.

The plan to have the provincial organizer in this district during January and February was thoroughly discussed and approved.

The report of the credential committee stated that returns from three lodges showed 103 members in good standing. It was decided to have a petition circulated and presented to the council of Sunbury county asking for the appointment of a more energetic Scott as inspector than the present one, and also to make application to the grand lodge to have Clemond lodge placed under the jurisdiction of this district lodge.

The next place of meeting was left in the hands of the executive.

These are the guests of good music, and the members will have cause for remembering the visit to St. John if only for the pleasant evening that was passed.

The Common People.
When the loyal toast of the King had been passed, the local New Brunswick branch the chairman called upon Mayor Pinks to prepare the next toast, that of the United Kingdom. There were those who might not see at all times an attractive subject but it would to one who believed in the democratic rule and the honor of the country. Those who gathered there had come from all over the province with an almost legislative idea so far as their own particular district was concerned. Everyone could not doubt take something away with him. Especially democratic was the system under which they lived; nothing was more democratic than the British Empire and no one in Canada thought that the empire could exist for a moment without the approval of the common people.

Judge Ritchie said that he had been told that the speaker had been so great but thought it appropriate enough for he was the son of "the common people." It did not matter whether a man was a poor or rich man, it was the common people that it was the common people who were going over to Germany to knock down the big bluff there. (Applause.) He said he was glad to be able to speak of the days of the Madras road, when he a thoroughly bred Catholic had to preside at a meeting of Anglicans, and he was glad to see the people in the dominion religious freedom. (Applause.) He said he was glad to be able to see the gathering of the representatives of the best men in the province and the legislature he always found that some of the best men had been brought up in the country.

In fact he considered county councils were the training schools for the legislative and deliberative assembly at Fredericton. He rejoined in these days of the higher criticism, that he lived in Canada under a flag which had on it the crosses of St. George, St. Andrew and St. Patrick. (Applause.)

A Newcastle Speaker.
Mayor C. J. Morrissy, Newcastle, proposed The Members of the Union of New Brunswick Municipalities. He said that the members so far as he could judge by the quality of the addresses that had been given they were excellent all round.

The toast was received with musical honors.

In reply, W. J. Osborne said that he had found much value in the gathering of the union and had the highest opinion of the men who composed it. He added there was one weak feature in this, and that was the address given by the speaker. He expressed great pleasure at the way in which the delegates had been entertained.

The toast was received with musical honors.

fighting for Britain's glory at the front and introduced a song in Scotch Gaelic with most loyal sentiments. To this, Dr. G. G. Melvin, medical health officer, replied, as a representative of the board of health. He also paid a tribute to the gallant soldiers and associated with their work of the health department.

His Own Troubles.
R. E. Armstrong, secretary of the board of trade, followed with a toast to the health department. His remarks were few, but Hon. J. E. Wilson, a representative of that body, was called upon to respond, dealing at length with matters of present-day interest.

"The government has troubled of its own at the present time," he said, but he assured the meeting that in accordance with his judgment and in the interests of the people.

Mr. J. L. Duguid followed with musical numbers. He introduced an entirely new song, "Take Me Back to Canada," which was enthusiastically received by those present. Mr. Marston contributed a solo and readings, and J. Westmoreland, of the City of St. John, presided over the evening.

Dr. G. G. Melvin, secretary of the board of health, presided over the evening. He introduced a toast to the warden, which was heartily received.

Edward Sears followed by proposing a toast to the boys in the trenches. He also introduced a toast to the warden, which was heartily received.

enjoyable gathering of the kind that the union has had since it was formed. The dinner was splendidly served and the right atmosphere was soon evident and it was from the first a success.

Thanks to Mr. Armstrong, remarked that there was an unfortunate feeling in the old city of Canada that had been expressed by the building of a school at that time that it could not be remedied. It was the duty of that union to facilitate the problem and so help to educate the people.

Commissioner Potts, in seconding, suggested that the school building of the old city be restored. He also suggested that the behavior of children in keeping the streets and parks clean and orderly be emphasized by Mr. Armstrong for a most valuable paper.

An interesting discussion also took place on the paper by Mr. Lingley, in which the milk problem was dealt with by Mr. Osborne and J. King Kelly, K. C.

Milk Problem.
Dr. G. G. Melvin, St. John, public health officer, read an instructive paper on Public Health Needs of the Province. It covered a wide field. Dealing with the milk problem, he pointed out that the value of their own manufacturing industry was a valuable lesson even in the export. After the war, the value of their own manufacturing industry was a valuable lesson even in the export.

The young men of the province, he thought, were repulsed well to the fact that they were not the best of the Canadian forces they were of a class that the empire might be proud of. He then turned to the value of their own manufacturing industry, which was a valuable lesson even in the export.

HONOLULU MURDER TRIAL MAY PROVE SENSATIONAL

Kate Michaud, indicted accomplice in Sullivan Girls' Murder, Expected to Turn States-Evidence.

Honolulu, Maine, Nov. 25.—Dr. Lionel R. Dudley, of Presque Isle, Miss Alice Pelletier of the same town and Miss Kate Michaud of Wallagrass have been indicted by the Aroostook County grand jury, now in session here, for the murder of Mirred Sullivan, a 17-year-old Honouliuli girl, on September 4. A preliminary report of the grand jury proceedings disclosed that Miss Michaud, who is three indictments had been found, one for murder, one for malpractice and one for accessory before the fact. Dr. Dudley and Miss Michaud each face two indictments—for criminal malpractice and for murder.

Amrose Bridge, of Honouliuli, sweetheart of the dead girl, was indicted as an accessory before the fact. It was intended to report a secret indictment against Bridge but through an error the indictment was made public by the clerk of the court. Bridge has dropped out of sight and a search made for him on Tuesday night failed to reveal his whereabouts. The officials believe that it is possible he may have crossed the boundary line into New Brunswick.

The list of indictments returned against the respondents in the Sullivan case and others was but a partial one and it is strongly rumored that a prominent Aroostook county man who has not yet been named, is the author of the indictments in the complete list of indictments found in this case.

The arraignment of the accused in the Sullivan case will probably take place on Friday or Saturday, when they will be given an opportunity to plead to the charges. The trial will not begin, it is expected, until December 7, after October business of the term is disposed of.

Perley Pelletier, a brother of Alice Pelletier, who was indicted for criminal malpractice in the Sullivan case, is reported to have assisted in burying the dead girl in a shallow grave, a mile outside of Presque Isle village, where the body was found following the murder. The coronation jury which was named in the complete list of indictments found in this case.
