once send forth a statement that would reassure labor, "My chief concern," he added, "is whether labor is going to ask for too much at one time."

Labor, said the speaker, should settle down to work and increase the country's wealth, from which labor would immediately profit. Regarding profiteering, Mr. Clynes said the Government had tried to prevent it. "But," he added, "you could no more prevent profiteering under war conditions than you could prevent the development of trade unionism."

### EEEL-HOLE BUNKERS

"At least twenty ounces bear the marks of air raiders' bombs and in most cases these—like some of the trenches—will be retained as bunkers," writes Harry Leach the distinguished English golfer writer to The American Golfer.

It is added that these early they have their names these bunkers. There are "Big Willie" and "Little Willie" traps, not to mention "Old Hindy" and "Lady" etc, while almost everywhere the faces of these unusually-produced hazards are overgrown with grass. This turf development will save the clubs a lot of money in whipping the bunkers into shape for play.

But what a field of conjecture it opens up for the student of psychology in golf. A player gets into trouble in one of these bunkers and he is saved the trouble of falling back on his old expletives as a relief for the steam pressure. He can call "Big Willie"—the Scotch will probably pronounce it "Willie"—with all the demonstrative and "accusative" adjectives that will readily come to mind stringing along.
