Canadian School of Tractioneering

SPECIAL NOTICE

OWING to our inability to accommodate the whole of the applicants who had asked to enroll in our demonstration and lecture courses so far, we are glad to state that by the courtesy of the Sawyer-Massey Company in granting us the further use of the premises and repair shop plant, we are now arranging for a special course, which will run from 8th to 27th March (inclusive).

The workshop is fully equipped with all tools and machinery necessary for repair work and is well heated and lighted.

Students will get actual practice in re-building and operating various types of machines. We will have a large number of machines on hand, including stationary, portable and traction engines of various types for the use of our students.

The course will be of a thoroughly practical nature, and, besides the actual shop work, lectures will be given daily by well known men who have a thorough practical and theoretical knowledge of the subjects dealt with.

If you want to gain first-hand knowledge of a Gas Engine (either stationary, portable or traction), an Automobile, an Auto-Truck, a Grain Separator, or even a Steam Engine, or if you already have had experience with any of these machines and wish to increase your knowledge, attend this school and study under a full of experts. Write at once to be sure of getting a full three weeks course. Full information from

A. C. CAMPBELL, Principal

Canadian School of Tractioneering
116 Higgins Avenue, WINNIPEG
