

SHORT'S

STEEL BARB WIRE

is adopted by railroads, stock raisers and farmers on account of its SUPERIOR STYLE OF BARB, which passes between the two wires, then wound around both, and afterwards galvanized by a PATENT PROCESS, which prevents the barbs from rusting, and consequently when an animal is punctured it will heal quickly and not fester as in the case with rusty and ragged barbs.

SHORT'S STEEL BARB WIRE.

Manufactured by THE ONTARIO METALLIC SPINNING CO., WOODSTOCK, ONT.

CLINTON H. MENEELY BELL CO.

Ayer's Cathartic Pills,

For the purpose of Family Physic.

Constiveness, Jaundice, Dyspepsia, Indigestion, Biliousness, Headache, Stomachic, Colic, Piles, Hemorrhoids, Rheumatism, Dropsy, Tetanus, Cholera, and Sals Rheum, Neuralgia, Gout, Neuritis, etc. are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are pleasant to take, but powerful to cure. They purge out the foul humors of the blood, they stimulate the sluggish or disordered organs into action, and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skillful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefits derived from the Pills. They are the safest and best purgative for children, because mild as well as effectual. Being a vegetable, they are easy to take, and being pure and vegetable, they are entirely harmless. Prepared by DR. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists. Sold by all Druggists and Dealers in Medicine.

DR. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists. Sold by all Druggists and Dealers in Medicine.

CINGALESE HAIR RENEWER

WITHOUT DOUBT THE BEST PREPARATION FOR THE HAIR, that has been presented to the public, for restoring it to its natural color, and leaving it soft and glossy. It stops falling of the hair, it removes dandruff, it cools the scalp, it restores gray hair to its original color and beauty. Its continued use, by those with bald heads, will produce a beautiful new head of hair. Every one recommends it. For sale by all druggists. Price 50 cents.

Leaves Mowat's Quay at Yonge Street, daily at 10:30 am and 6:30 pm. Wednesday and Saturday Excursions. Leaving on morning trip. OAKVILLE AND RETURN... 25c. RINGTON BEACH AND RETURN... 50c. Tickets now on sale.

THOUSANDS of our little ones are lost annually from cholera, infantile diarrhea and the summer complaints, whose lives might be preserved by the timely use of Dr. Fowler's Extract of Wild Strawberry, the greatest and most reliable specific known for all summer ailments. For sale at all Drug Stores. See advertisement in another column.

Department of the Interior.

OTTAWA, 25th MAY, 1891.

WHEREAS circumstances have rendered it expedient to effect certain changes in the policy of the Government respecting the administration of Dominion Lands, PUBLIC NOTICE is hereby given:

1. The Regulations of the 14th October, 1879, are hereby rescinded, and the following Regulations for the disposal of agricultural lands are substituted therefor: 2. The even-numbered sections within the Canadian Pacific Railway Belt, that is to say, lying within 24 miles on each side of the line of the said Railway, excepting those which may be required for wood-lots in connection with settlers on prairie lands within one square mile, or which may be otherwise specially dealt with by the Governor in Council, shall be held exclusively for homesteads and pre-emptions. The odd-numbered sections within the said Belt are Canadian Pacific Railway Lands, and can only be acquired from the Company. 3. The pre-emption on each side of the Canadian Pacific Railway, up to and including the 31st day of December next, shall be disposed of at the rate of \$2.50 per acre, four tenths of the purchase money, with interest on the latter at the rate of six per cent. annum, to be paid at the end of three years from the date of entry, the remainder to be paid in six equal instalments annually from and after the said date, with interest at the rate of six per cent. annum on such portions of the purchase money as may from time to time remain unpaid, to be paid with each instalment. 4. From and after the 1st day of December next, the price shall remain the same, that is to say, per acre—for pre-emption within the said Belt, or for the corresponding Belt of any branch line of the said Railway, but shall be paid in one sum at the end of three years, or at such earlier period as the claimant may have acquired a title to his homestead by section.

5. The Dominion Lands of any projected line of Railway, which has given notice in this Office at Ottawa, as being a projected line of railway, shall be dealt with, as to price and terms, as follows: The pre-emption shall be sold at the same price and on the same terms as laid in the next preceding paragraph, and the odd-numbered sections shall be sold at \$2.50 per acre, payable in cash. 6. In all Townships of the Province of Ontario, and in the North-West Territories, outside of the said Canadian Pacific Railway Belt, the even-numbered sections, except in the cases provided for in clause two of these Regulations, shall be held exclusively for homestead and pre-emption, and the odd-numbered sections for sale to public lands. 7. The lands described in this paragraph shall be sold at the uniform price of one dollar per acre, excepting in special cases where the Minister of the Interior, under the provisions of section 4 of the amendment to the Dominion Lands Act passed at the last Session of Parliament, may deem it expedient to withhold certain farming lands from a public sale and settlement and put them up for sale at public auction to the highest bidder, in which event such lands shall be put up at an upset price of \$2 per acre. 8. Pre-emption outside of the Canadian Pacific Railway Belt shall be sold at the uniform price of \$2 per acre to be paid in one sum at the end of three years from the date of entry, or at such earlier period as the claimant may acquire a title to his homestead by section.

9. Except in cases where the provisions of clause 7, in so far as they relate to lands in the Province of Manitoba or the North-West Territories, lying to the north of the Belt comprising the Canadian Pacific Railway lands, wherein a person applying for an actual settler on an odd-numbered section, shall have the privilege of purchasing to the extent of 200 acres of such section, but no more, at the price of \$2.50 per acre, cash, but no Patent shall issue for such land until after three years of actual residence upon the same. 10. The price and terms of payment of odd numbered sections and pre-emption have set forth, shall apply to persons who have been selected in any one of the several Belts described in the said Regulations of the 14th October, 1879, hereby rescinded, but who have not obtained either their lands, and who may establish a right to purchase such odd-numbered sections or pre-emption, as the case may be, at the price and on the terms respectively fixed for the same by the said Regulations.

TIMBER FOR SETTLERS. 11. The system of wood-lots in prairie townships shall be continued, and to odd-numbered settlers having no timber on their own lands, shall be permitted to purchase wood-lots in areas not exceeding 20 acres each, at a uniform price of \$5 per acre, to be paid in cash. 12. The provision in the next preceding paragraph shall apply also to settlers on prairie sections bought from the Canadian Pacific Railway Company, in cases where the only wood lands available have been sold out on even-numbered sections, provided the Railway Company agree to reciprocate where the only timber in the locality may be found on their lands. 13. With a view to encouraging settlement by lessening the cost of building material, the Government reserves the right to grant licenses from time to time, under and in accordance with the provisions of the "Dominion Lands Act," to cut merchantable timber on any lands owned by it within surveyed townships, and settlement upon, or sale of any lands covered by such license shall, for the time being, be subject to the operation of the same.

SALES OF LANDS TO INDIVIDUALS OR CORPORATIONS FOR COLONIZATION. 14. In any case where a company or individual applies for lands to colonize, and is willing to expend capital to contribute towards the construction of a road or canal, or to connect two lands and existing settlements, and the Government is satisfied of the good faith and ability of such company or individual to carry out such undertaking, the odd-numbered sections in the case of lands outside of the Canadian Pacific Railway Belt, or of the Belt of any branch line or line of the same, may be sold to such company or individual at half price, or \$1 per acre, in cash. In case the lands applied for be situated within the Canadian Pacific Railway Belt, the same shall apply, so far as the half of each even numbered section is concerned, that is to say the half of each even numbered section may be sold to the company or individual at the price of \$1.25 per acre to be paid in cash. The company or individual will further be directed, up to the extent of \$25,000, to be paid in cash, to be applied towards the cost of advances made to place families on homesteads, under the provisions of section 20 of the

amendments to the Dominion Lands Act hereinbefore mentioned.

15. In every such transaction, it shall be absolutely conditional: (a) That the company or individual, as the case may be, shall, in the case of lands outside of the said Canadian Pacific Railway Belt, within three years of the date of the agreement with the Government, place two settlers on each of the odd-numbered sections, and also two on homesteads on each of the even numbered sections embraced in the scheme of colonization. (b) That should the land applied for be situated within the Canadian Pacific Railway Belt, the company or individual shall, within three years of the date of agreement with the Government, place two settlers on the half of each even-numbered section purchased under the provision contained in paragraph 14, above, and also one settler upon each of the two quarter sections remaining available for homesteads in such section. (c) That on the promoters failing within the period fixed, to place the prescribed number of settlers, the Governor in Council may cancel the sale and the privilege of colonization, and resume possession of the lands not settled, or charge the full price of \$2 per acre, or \$2 to per acre, as the case may be, for such lands, as may be deemed expedient. (d) That it be distinctly understood that this policy shall only apply to schemes for colonization of the public lands by immigrants from Great Britain or the European Continent.

PASTURAGE LANDS.

16. The policy set forth as follows shall govern applications for lands for grazing purposes, and previous to entertaining any application, the Minister of the Interior shall satisfy himself of the good faith and ability of the applicant to carry out the undertaking involved in such application. 17. From time to time, as may be deemed expedient, leases of Townships, or portions of Townships, as may be available for grazing purposes, shall be put up at auction at an upset price to be fixed by the Minister of the Interior, and sold to the highest bidder, the premium for such leases to be paid in cash at the time of the sale. 18. Such leases shall be for a period of twenty-one years, and in accordance otherwise with the provisions of section eight of the Amendment to the Dominion Lands Act passed at the last Session of Parliament, hereinbefore mentioned.

19. In all cases the area included in a lease shall be in proportion to the quantity of live stock kept thereon, at the rate of ten acres of land to one head of stock, and the failure in any case of the lessee to place the requisite stock upon the land within three years from the granting of the lease, or in subsequently making up the proportion of stock to the area of the leasehold, shall justify the Governor in Council in cancelling such lease, and in diminishing, or wholly annulling, the area contained therein. 20. In fixing the required proportion of stock within the limits of the leasehold, the lessee shall have the privilege of purchasing, and receiving a patent for a quantity of land covered by such lease, on which to construct the buildings necessary in connection therewith, not to exceed five per cent of the area of the leasehold, which latter shall in no single case exceed 10,000 acres.

21. The rental for a leasehold shall in all cases be at the rate of \$10 per annum for each thousand acres included therein, and the price of the land which may be purchased for the cattle station referred to in the next preceding paragraph, shall be \$1.25 per acre payable in cash.

PAYMENTS FOR LANDS.

22. Payments for public lands and also for pre-emption may be in cash, or in scrip, or in police or military bounty warrants, at the option of the purchaser. 23. The above provisions shall not apply to lands suitable for town plots, or to coal or other mineral lands, or to stone or marble quarries, or to lands having water power thereon, and further shall not, of course, affect Sections 11 and 29 in each Township, which are public school lands, or Sections 8 and 20, which are H. V. Ison's Bay Company's lands.

J. S. DENNIS, Deputy Minister of the Interior. LINDSAY RUSSELL, Receiver-General.

FRENCH'S HOTEL, European Plan, Opposite City Hall, New York, and New York House, and New York, N.Y. Prices reduced. Rooms, 75 cents and upwards. Special arrangements made with excursion parties.

AGENTS for the Best and Fastest Selling Bibles and Bibles. Prices reduced 33 per cent. National Pub. Co., Phila., Pa. \$5 to \$20 per copy. Samples worth \$5 to \$20 per copy. Address STINSON & Co., Portland, Maine.

Scientific and Useful.

APPLE FRITTERS.—Apple fritters make a nice and cheap dessert. Prepare a batter as for griddle cakes; that is, a thin batter made of flour, sweet milk, and baking powder, or flour, sour milk and soda. Then stir in apples which have been chopped fine, the quantity depending on your taste. Fry them as you would griddle cakes, and serve hot with a syrup made of melted white sugar.

MARLAND BISCUIT.—Rub one table spoonful each of butter and lard into one quart of grated flour, with one teaspoonful of salt; gradually add milk enough to make a stiff dough, mixing it with the hand. When the dough is mixed lay it on a floured bread-board and beat it with the rolling pin, turning it continually, until it blisters and cracks loudly. It will require to be beaten about half an hour. When the blisters are abundant tear off pieces of the dough as large as an egg, mould them in the form of biscuits, prick the tops with a fork, and bake the biscuits in a rather quick oven.

CELERY FOR RHEUMATISM.—Both as a nutrient and as a purifier of the blood, cooked celery is a very fine diet. Rheumatism is impossible on such diet. Cold or damp weather produces rheumatism, but simply develops it. The acid blood is the primary cause, and sustaining power of evil. While the blood is alkaline, there can be no rheumatism, and equally no gout. Cut the celery into inch dice; boil in water until soft. No water must be poured away unless drunk by the invalid. Then take new milk, slightly thickened with flour, and flavour with nutmeg; warm with the celery in the saucepan; serve up with diamonds of toasted bread round dish, and eat with potatoes.

POISONOUS GAS—Recent experiments have demonstrated that the poisonous effects of oxide of carbon are much more virulent than were supposed, a much weaker dilution of this gas in air being, in fact, fatal—that is, any man or animal that breathes during half an hour an atmosphere containing 1-779th part of oxide of carbon, absorbs a sufficient quantity of this gas to make half the red globules of his blood become incapable of absorbing oxygen; and if the atmosphere contained merely 1-1449th part of oxide of carbon, one quarter of red globules of his blood become incapable of absorbing oxygen. These experiments demonstrate the danger of several sorts of stoves. Whenever there is an incomplete combustion, oxide of carbon is invariably produced. Narcotic anemia, narcotic cardiacal diseases, are thought to be caused by this absorption of the most poisonous gas known.

NUTMEGS.—Nutmegs grow on trees which look like pear trees, and are generally over twenty feet high. The flowers are very much like the lily of the valley. They are pale yellow, and very fragrant. The nutmeg is the seed of the fruit, and the price is the thin covering over the seed. The fruit is about as large as a peach. When ripe it breaks open and shows the little nut inside. The trees grow on the islands of Asia, and in tropical America. They bear fruit for seventy or eighty years, having ripe fruit upon them at all seasons. A fine tree in Jamaica has over a thousand nutmegs on it yearly. The Dutch used to have all the nutmeg trade, as they owned the Banda Islands, and conquered all the other traders and destroyed the trees. To keep the price up, they once burned three piles of nutmegs, each of which was as large as a church. Nature did not sympathize with such meanness. The nutmeg pigeon, found in all the Indian Islands, did for the world what the Dutch had determined should not be done; carried those nuts, which are her food, into all the surrounding countries, and trees grew again, and the world has the benefit.

The most pleasant, rapid, reliable, and effectual remedy yet discovered for diarrhea, dysentery, cholera morbus, cholera infantum, and all summer complaints, is Dr. Fowler's Extract of Wild Strawberry. It is unsurpassed as a reliable specific in the above diseases, is well known as a great remedial agent, and is more highly valued the longer it is known. Travellers and tourists should carry a supply in their haversack. For sale by all Dealers in Medicines.

This remedy that has had the most remarkable success in the cure of diarrhea, dysentery, cholera morbus, and indeed every kind of summer complaint brought on by eating improper food, such as raw vegetables, unripe or sour fruits, bad milk, impure water, etc.—the remedy that is the most pleasant, rapid, reliable, and effectual, is Dr. Fowler's Extract of Wild Strawberry. It is the most reliable remedy for summer complaints known. For sale by all dealers.
