

Are 10,000 Men Mistaken?

Unless about 10,000 men, mainly professional men—lawyers, doctors, editors, preachers, and all other classes, including the writer, are very much mistaken, the Electropoise effects cures and gives relief where all other known remedies have failed. Especially is it efficacious in the case of feeble women and children. I have used one for the past two years, and find it invaluable as a curative agent.—REV. ZEPHANIAH MEEK, D.D., Editor of *Central Methodist*, Catlettsburg, Ky.

The editorial above was published four years ago. Since that time the sale of the Electropoise has increased to such an extent that we feel warranted in

stating that there are now in use not less than 75,000 instruments indorsed by at least 300,000 prominent people.

Last July we reduced the price of the Electropoise. We did this at the urgent solicitation of our many friends and also to place a price upon the instrument which would permit every family to enjoy its benefits. We do not propose to sell an inferior instrument at this reduced price. They will be just exactly the same in every respect as heretofore. They are the original and the best. They fill to the utmost extent the principles of this method of treatment.

Result of Scientific Examination.

Laboratory, 70 Newman St., Oxford St., W., London, Eng., August 8th, 1892.

I have finished a series of experiments upon myself and on other subjects with the Electropoise submitted to me for scientific examination last January. I have also made a chemical analysis of the component parts of the instrument. As a result I beg to certify:

First—That its action, which is distinctly traceable shortly after the application of the instrument, has a decidedly beneficial effect upon the system.

Secondly—That it is impossible for the Electropoise, when attached to the body, to communicate any electric shock or sensation.

Thirdly—That no injurious results can follow upon its use according to directions.

I see no reason whatever to doubt the curative powers claimed for it.

PETER AUCHINACHIE,
Analytical and Consulting Chemist.

Spinal Trouble, Etc.

St. Johns, Que., Canada,
February 19th, 1895.

I have now used the pocket Electropoise in my family since last August, and cannot speak too highly of its merits. I fully believe it does all you claim for it. My daughter, who has been an invalid for the past three years from spinal trouble, partial paralysis

and neuralgia, and had the best medical advice that St. Johns and Montreal could give, has greatly benefited by the use of this wonderful little instrument; she is now able to walk about and come down stairs alone; she looks forward, and with good reasons too, to a complete restoration to health. I have also tried it on myself for muscular rheumatism, and on others for inflammatory rheumatism, cramps in the stomach, inflamed sore throat, indigestion and other ordinary ailments; in all cases the effects were so convincing that I cannot speak too highly of its curative powers.

I have recommended it to a number of my friends, and to my knowledge they all speak highly of its virtues. I consider it invaluable in a family if the directions are faithfully carried out.

Very truly yours, R. C. MONTGOMERIE.

Miss Clara Barton's Letter.

CONSTANTINOPLE, February 21st, 1896.

DEAR SIR,—When in London the other day I received two packets from the United States Embassy, each containing an Electropoise; to-day I received your kind letter. Please allow me to thank you heartily and gratefully for the splendid little machines. As you remember, I am not an entire stranger to the virtues of the Electropoise, and I will take great pleasure in passing your offering to afflicted humanity.

Very sincerely yours, CLARA BARTON,
President Red Cross Armenian Relief Expedition.
