

THE TRAIL OF '98

“‘The Trail of '98’ takes us to the Yukon; we share the privations and squandering madness of the pioneers who fought against Nature for gold. Mr. Service having seen and suffered, makes the story vivid. We realize the motley crowd, weaklings and strong, battling through the snows towards Klondyke. The way is strewn with dead and dying horses; but the people, hungry for gold, struggle on, shedding the unfit as the march continues. Then, after tribulation by track and river, comes the settlement, the claims, the mining—hard work and orgies unspeakable . . . ‘The Trail of '98’ is a book that counts.”—*Daily Chronicle*.

“The heart-breaking, incredible perils of the gold-hunt, its unspeakable cruelties and more than heroic endurance, lift the thing to the epic plane, and the reader's heart beats faster as he reads.”—*Observer*.
