This store always has the latest styles, and devoting all their attention exclusively to millinery are able to give better results. The Charlotte Corday is a brown hat trimmed with foliage and brown ribbon. This hat is very taking. An exceedingly pretty creation is the brown castor polo. This is a turban effect trimmed with gold buckles. A head dress that is attracting considerable attention is a large black ricture hat with creamlace crown and flowing ospreys. The corn flower blue mechlin is a hat that will be much worn. It is trimmed with a long steel buckle and silk flowers of the same color. The colors most in vogue this spring are blue and pink and amber shades. The latter colors seem to be the most popular.

The C. A. Cooksley millinery establishment is very attractive and the combination of colors is such as appeals to the article taste.

Their opening days, from a standpoint of crowds and sales, have been even more successful than in former years, which is saying a great deal. The busy and obliging salesladies have been kept continually at work and orders for new hats are coming in as fast as they can be filled. A large share of the credit for this splendid opening is due Miss Hayes, the head milliner. Miss Hayes' charming personality, apart from her exceptional good taste and business ability, makes her a favorite with ladies of culture and refinement.

## FINE CHURCH

First Presbyterian Congregation De cide to Make Many Improvements.

The interior of the First Presbyterian church will be thoroughly renovated and remodelled, the whole work in all probability to be completed before the anniversary of the church, which will be held next May. This was the decision arrived at by the congregation at their meeting held in the Sunday school room last evening. The whole work will cost about \$3,500.

As Colonel Rankin put it at the neeting, the church is face to face with the seating proposition. There is not enough seating room in the church for the large number of families who have sought admittance Mr. Robertson reported that during the last few weeks fully twelve families have been turned away from the church for the reason that they were unable to secure sittings.

By the changes proposed 200 more new seats will be added to the seating capacity. It is proposed to place the pulpit, choir and organ where the back of the church is now, install a seating gallery where the choir loft is now, to extend and lower the present side galleries and to have the whole interior retinted and brightened up. This is according to the original design of the church, this design being changed at the time the church was built. By this new arrangement it will be easier to keep the organ in good order, besides providing ample accommodation for all who wish to attend.

Mr. Ross explained the scheme to the meeting and everyone was in accord with it. It was moved and carried that the managers proceed with the work immediately. They have secured a subsarrption list of \$3,000. It is thought that there will be no difficulty in securing \$3,000 in subscriptions. The estimates of the work are as follows:

Enlarging galleries, \$1,500. Changing floor, \$1,300. new seats will be added to the seat-

work are as follows:
Enlarging galleries, \$1,500.
Changing floor, \$1,300.
Removal or organ, \$200.
Tinting, \$500.
It was a very representative meeting and everyone was enthusiastic over the changes as proposed by the board of managers. The managers of the church have decided to have one of the most upto-date and best looking churches in Western Ontario, and they will have the when the proposed changes are completed.

Feeding should not be suspended because the days have come when the work horses have less to do. Manage to give them some work every day or turn them in a yard or paddock to move about. Feed enough so they will not run down or get soft, as it will cost much more to get them in good condition again if allowed to fall off. They should have at least two feeds of grain each day. Corn and oats ground, from four to eight pounds, fed on cut hay, in two meals, is a good ration.—Farm Journal.

Spring Clothing For Well Dressed Boys

We have been fitting out a good many hundred boys already this Spring. We see abundantly satisfied with with the public appreciation of AUSTIN & CO.

BETTERNESS IN BOYS, CLOTH-ING.

It is a little more trouble for us, when buying, to pass by the Cotton-uived goods which other stores find no fault with; and the Cotton manfacturers think we are cranky when we demand reliable wearing clothes, then in making clothes for as the manufacturer has to put in larger pieces of linen when staying the inside of coats, and we also require larger reinforcements at the seat and knees than go into the regular clothing. Of course these are things that are not seen when the clothing is bought. These points of quality can only be appreciated after the boy has worn the clothing several months. These things are not done for immediate sale because our profit is less, but they are done to build up a permanent business and to bring parents back when they want other clothing for boys.

We have particularly attractive snowing of Spring suits at \$2.50, 3.00, 3.50 up to \$4.50 in a piece Norfolk styles for ages 6 to 15 years.

Boy's Russian Blouse Suits, with bloomer trousers made of excellent erges, worsted Tweeds, in sizes 3 to 12 years at 4.00 and \$6 00.
