Some fine fields of beans are now being gathered in. The dry beans are now being gathered in. The dry weather suits the harvesters eplendidly. A number of new poultry houses have been built this summer. Some of them are of the latest design, with open fronts, on cement foundations.

QUEBEC HOLSTEIN MEN MEET OUBBIG MOLSTEIN MERY ON September 7th the sixth annual banquet of the Quebec Branch of the Holstein Friesian Association of General Holstein Price and the Holstein Company of the Holstein Company of

The Hostein have made great progress.

The Holstein have made great progress in Quebe the past year. At the butter test just concluded at Sherbrooke, while open to all breeds, only the Holsteins competed. The records made were most satisfactory, and the other breeds would ocrtainly have been distanced as they were last year. The champion grade cow this year was sired by a pure-bred bull. The tests were conducted by the Ottawa The tests were conducted by the Ottawa Guelland of the same regulations, and were under the same regulations, and were under the same The great in the Regulation.

AYRSHIRE NEWS

Farm and Dairy is the recognized exponent of the Dairy interests of Can-ada. Breeders of Ayrshire Cattle and all members of the Canadian Ayrshire of the Canadian are invited to send items of includion are invited to send items of the Canadian Ayrshire breed-ers for publication in this column.

SOME THOUGHTS ON THE JUDGING AT TORONTO.

Editor, Farm and Dairy,—I have just returned from making my first exhibit of Sunnybrook Ayrshires at Toronto, and sust asy that on all former visits to the Exhibition, I never saw such a showing of dairy cattle, especially of Ayrshires. This year's exhibit will not be forgotten for years by all interested dairymen. It was the prove a boom to Ayrshire men, as the life prove a boom to Ayrshire men, as the life prove a boom to gracely be surpassed for general conformation and dairy purposes. purposes.

purposes.

There was one feature which came under my notice, and that is that the herds of Ontario breeders appears to differ from the herds of Eastern breeders in type. I think I can speak for the Ontario mental that general conformation, attacking that general conformation, attacking that general conformation, attacking the face of the conformation of the confor were not called upon to mik out our cows in the ring as were the breeders of all other dairy breeds? In my own case, had it not been for my team of general pur-pose horses I should have returned home

without a single prize.

That does not discourage me, however, That does not discourage me, however, from going next year, because there were buyers there who believe that I am after the type of dairy cattle to make a poor man rich, rather than to make a rich man poor. I sold seven head while at the exhibition, realizing the sum of \$1,300 for them.

Mr. W. J. Rutherford, Dean of Agricultur, University of Sankstchewn, who
