QUESTIONS AND ANSWERS. Miscellaneous.

STATUTE LABOR.

1. How should I proceed to get a copy of the "Ditches and Watercourses" Act for the Province of Ontario; also the rules governing statute labor?

2. I have two farms, and last year I was called upon to do all my statute labor on our home beat; but this year we are to put in some days at home and then the balance of our work some miles away. Would it be legally right were the Township Clerk to put me down for all the work on the home beat?

AN OLD SUBSCRIBER.

Ans.—1. Through any book-seller; or they may be seen at the office of the Clerk of the Peace for your county.

2. By Chap. 25, of the Ontario Statutes of 1904, Sec. 9, (4), every resident has the right to perform his whole statute labor in the statute labor division in which his residence is situate, unless otherwise ordered by the municipal council; so our answer to your question is yes, unless the council have ordered otherwise.

POOR FIELD—LAW RE DOGS.

1. I have a field of ten acres on a farm I bought of pretty heavy clay. It appears to have no life in it. The grain grows up very small and spindly. I have sowed it for two years and have not had the seed off it; it is also infested with wireworms. I have not the amount of manure—I would like to give it a good dressing. Can you tell me what is the matter? And what do you think of the method I intend to pursue, to plow late this fall, to give the frost a chance at the wireworm, work a bare fallow till, say, July 1st, sow a good crop of buckwheat, plow down in blossom, seed to fall wheat, and then to clover the following spring?

2. I have had sheep killed by dogs different times this summer, there being a tribe around every night. What is the law in regard to dogs running at large? Can I do away with them if found on the place doing damage?

A. H. M. Ontario.

Ans.—The method proposed is probably as good as anything that could be suggested, though it is not warranted to kill the wireworms. It might be well to sow the latter part of June, instead of July 1st. If the soil were in better heart, we would suggest sowing peas instead of buckwheat, but in this case buckwheat would doubtless be the better crop to use.

2. The Act is too long to quote in full. Write the Department of Agriculture, Toronto, Ont., for Bulletin 161 on the Sheep Industry in Ontario, which contains the Ontario "Act for the Protection of Sheep" and to impose a tax on dogs." The following excerpt is quoted from said Act:

9. "Any person may kill—
(a) Any dog which he sees pursuing, worrying or wounding any sheep or lamb; or

(b) Any dog without lawful permission in any enclosed field on any farm which the owner or occupant thereof or his servant finds giving tongue and terrifying any sheep or lamb on such farm, or

(c) Any dog which any person finds straying between sunset and sunrise on any farm whereon any sheep or lambs are kept;

But no dog so straying which belongs to or is kept or harbored by the occupant of any premises next adjoining the said farm, or next adjoining that part of any highway or lane which abuts on said farm, nor any dog so straying, either when securely muzzled or when accompanied by or being within reasonable call or control of any person owning or possessing or having the charge or care of said dog, shall be so killed unless there is reasonable apprehension that such dog, if not killed, is likely to pursue, worry, wound or terrify sheep or lambs then on the said farm. 56 V., c. 46, s. 2."
