

WAS TROUBLED WITH HEART DISEASE AND NERVOUSNESS

SEVERAL DOCTORS COULD DO HER NO GOOD. THREE BOXES OF MILBURN'S HEART AND NERVE PILLS COMPLETELY CURED HER.

Miss Mary Lebeau, Edison, Sask., writes:—"I was troubled with heart disease and nervousness for over two years, and was so bad at times I had to sit up at night being unable to breathe, and every little noise would make me shake and shiver. I tried several doctors, but they were unable to do me any good. A neighbor then advised me to try a box of Milburn's Heart and Nerve Pills. As soon as I began to take them I began to feel much better, and by the time I had used the third box I was completely cured. I would advise anybody suffering from heart disease and nervousness to try these pills. They will save quite a bill in doctor's fees."

Milburn's Heart and Nerve Pills cure all heart and nerve troubles by their restorative influence on every organ and tissue of the body.

Price 50 cents per box, or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CONDUCTING A COLLECTION.

The Reverend Allen Fort, pastor of the Baptist Tabernacle in Chattanooga, asked J. B. Capeheart, a railroad conductor, to take up the collection one day. It was Mr. Capeheart's first experience as a taker of collections in church.

He started down the center aisle. There were several children in the first pew and each put in a penny. The people in the next pew also contributed something each. A big, glum fellow sat alone in the third pew. Capeheart passed him the plate. The man shook his head and stuck his hands deep in his pocket.

Capeheart stopped, put up his hand as if to jerk the bell-cord and said: "Well, you'll have to get off."

GOSSIP.

At the annual sales of Shorthorns and Aberdeen-Angus recently held in Scotland, the following averages were realized: 1,125 Aberdeen-Angus, £26.13.5; 856 Shorthorns, £33.13.6. Gross average for 1,981 head, £29.14.11. Approximately, \$145.

THE GUELPH STOCK SALE.

At the annual auction sale of registered stock, under the auspices of the Guelph Fat-stock Club, March 6th, 25 Shorthorns were entered, 21 of which sold for an average of \$94. The highest price obtained was \$152.50 each, for the two young bulls, Matchless Prince, contributed by W. G. Gerrie, Belwood, sired by Vice Chancellor = 68607 =, and Springfield Victor, contributed by A. F. & G. Auld, Eden Mills, Ont., sired by Victor E. = 73878 =. Eight bulls sold for an average of \$124.65.

HOLSTEINS AT MEADOWBROOK.

On visiting the great Meadowbrook herd of Holstein-Friesian cattle, the property of Dr. A. A. Farewell, of Oshawa, Ont., a few days ago, a representative of this paper was certainly a little surprised to find what is doubtless the richest-bred and highest-priced herd in Canada, that is the highest-priced foundation, selected from the leading herds of the United States, a large number of them costing their present owner an even \$1,000 each. Six of them are daughters of the world-renowned Pontiac Korndyke, with over 70 daughters in the A. R. O. Three others are daughters of the great King Segis, whose superiority as a sire is too well known to need comment.

Another three are daughters of Hengerveld De Kol, with 120 A. R. O. daughters. Among this grand lot of cows are Fairview Pontiac Pet, who, at one year and ten months of age, made the great record of 16 lbs. butter, and a butter-fat test of 4 per cent. She is a daughter of the world's champion cow, Pontiac Pet, whose record is 37.67 lbs., and butter-fat test 5 per cent. She is also a granddaughter of Pontiac Rag Apple, whose record is 31.62 lbs., and butter-fat test 4.8 per cent., and sold for \$8,000. This great heifer is again about due to freshen to the present stock bull described below. Another is Fairview Queen Korndyke, with a junior four-year-old record of 20.23 lbs. She is a daughter of Queen Korndyke, record 31.1 lbs., and butter-fat test 4.61 per cent. Still another is Meadowbrook Queen Korndyke, a two-year-old daughter of Fairview Queen Korndyke, and sired by Pontiac Korndyke, and thus has five 30-lb. sisters.

At her first freshening last year, in spite of a serious sickness, she made a seven-day record of 12 lbs., and will certainly go over 20 in her test at the next freshening. Out of this heifer is a yearling bull, sired by a grandson of Hengerveld De Kol. Three of his nearest dams have records averaging over 30 lbs. Pietertje Matilda Korndyke is a daughter of Pontiac Korndyke. Her junior two-year-old record is 18.36 lbs., and better-fat test 3.95 per cent. Urna Gelsche Segis has not been tested, as conditions were not favorable when she came in. She is a daughter of Urna Gelsche 2nd A, record 31.24 lbs., fat test 6.04 per cent., record of granddam 30.12 lbs., fat test 4.61, great-granddam's record at thirteen years 25.20 lbs., fat test 4.42 per cent. This heifer was sired by King Segis. The above is sufficient to show the phenomenal breeding of this great herd on the female side. Chief stock bull in service is the remarkably-bred King Segis Walker, a grandson of King Segis. His seven nearest dams have records that average 28.36 lbs. butter in seven days, 542.44 lbs. milk, and average butter-fat test 4.24 per cent. Among the young bulls for sale is Sir Colantha Gladi Rag Apple Korndyke. He is a grandson of Colantha 4th's Johanna, whose record is 35.22 lbs., butter-fat test 4.32 per cent. His dam is a daughter of Rag Apple Korndyke, a son of Pontiac Rag Apple, record 31.61 lbs. His dam, granddam, and sire's dam, have records that average 32.61 lbs., and with this wonderful breeding this five-months-old bull is put up on show lines from the ground up. Write Dr. A. A. Farewell to Oshawa P. O., or call up on long-distance phone.

FERTILIZER REQUIREMENTS OF CORN

Extract from "Fertilizing Fodder Crops," by T. Walter Shipley

"Corn is a gross feeder, and must have an abundant supply of readily-available 'plant food' material. Where corn is grown on any but a clover-sod or meadow, a dressing of 12 to 15 tons of barnyard manure should be applied and thoroughly worked into the soil. While this dressing of manure would supply the necessary humus and part of the nitrogen required, it must be supplemented by the addition of phosphoric acid and potash if a maximum crop is to be grown. The addition of, say 400 lbs. Acid Phosphate and 150 lbs. Muriate of Potash per acre, would supply these necessary ingredients and, except where the land is in a very high state of cultivation, 120 to 150 lbs. Nitrate of Soda, applied as a top dressing, would be required to supply the amount of nitrogen to produce a maximum crop."

DAVIES'

Slaughter-house by-products, Bone, Blood, Tankage, etc., are thoroughly sterilized, practically deodorized, then utilized in the preparation of

HIGH GRADE ANIMAL FERTILIZERS

Brands specially suited for Potatoes, Tobacco, Corn, Beans, Orchards, Grains, Vegetables, Greenhouse crops, Grass Lands, Lawns, etc., are being manufactured at our Toronto factory. There is no doubt as to their superiority over mixtures of purely chemical compositions. Professors Harcourt, Blair, Cumming and Gable highly commend them in their opinions expressed in our booklet. Samples of the raw materials may be seen on the FARMING SPECIAL now being run by the Ontario Government. (We will supply you with these raw materials if you prefer to do your own mixing—the economy is doubtful, however.) We pay freight on all orders of 200 lbs. or more, in the Provinces of Ontario and Quebec—all other quotations f.o.b. factory. Payments in the fall. Don't be satisfied with any brand your dealer happens to handle—demand Davies', and if he isn't "up-to-date in the Fertilizer line," order direct from us. It will cost you no more. Don't waste your money paying 10% duty on imported brands—we give you that in extra plant food. Increase your yields, profits and happiness for years to come by writing us for our assistance.
