

Farms in the Northwest Territories,

That will be valuable in a few years, can be bought now for a low price with a small cash payment and easy terms for the balance of the purchase price. Buy a section of land now, and you will have a property that will make you independent. The soil is rich and deep on clay subsoil, and will not wear out; is free from stones; has good water; easily broken and cultivated; none better for wheat raising, mixed farming or stock raising. If you don't know about the West, you should learn. What others have done you can do. It's an opportunity for you. Write us or come and see us, and we can tell you of some good deals.

Hard Pressed.

People sometimes ask us what we do with ALL the students we get. What we are asking ourselves every day is what we are going to do with ALL the positions we are asked to fill.

Last week we took a BOY from his final examination to START him at \$30 a month.

That's how hard pressed we are to keep up with the demand for skilled help.

Just think of it—a boy spends six months at a cost of \$50 for tuition, and STARTS at \$30 a month.

And still some are hesitating as to what would be a good line to enter.

Wouldn't it at least pay you to see just what we can do for you? A beautiful book, "The Story of a Business School," is yours for the mere asking.

Kingston, Ont., Aug. 12th, 1903

Mr. I. Usher, Queenston, Ont.:

In the fall of 1900 I laid stable floors with Portland and Queenston cement gauged in the same proportions with gravel, and find the Queenston barrel will do as much work and is just as durable as the Portland barrel, although I was led to believe by interested parties that this was not true, but am forced to admit the proof in my own stables.
