PUREST & BEST

Is the title of a treatise on Buttermaking written by Mrs. E. M. Jones of Brockville, Ont. Mrs. Jones' Book has been so highly thought of by the Ontario Government that it has been printed and distributed free among farmers as an authority on this subject. The following letter explains itself.

Some time ago I commented using the Windsor Salt in my dairy and I have been surprised and delighted at the result. It appears to me to be a purer Salt than any I have ever used (although I have always used the very best, regardless of cost). It is entirely free from any bitter taste and it dissolves so rapidly as to be at once incorporated in the butter. For the practical dairymaid these are vital points. More butter is produced in a shorter time and its nature so possible ways for you to think. Not only is the taste disagreeable but the grain of such salt is so short and its nature so possible that butter has to be worked almost to a paste and is thereby spoiled before it is even put on the market. Windsor Salt is free from these objections and its quality and price ought to make it a boon to every dairy in Canada. I shall use no other in future, and as the output of my private dairy is 7000 lbs. a year, which all brings the highest price ever reached by Canadian butter, the importance of my choice in salt can hardly be over-estimated.

(Signed) ELIZA M. JONES,  
Dairy Salt in salt.

Any wholesale grocer can supply you, in any quantity, with this "Windsor" Dairy Salt in salt, White Cotton Bags, packed 15 in a paper-lined barrel, or in gals. Linen Sacks.
