

LIVE STOCK MARKETS. TORONTO.

Receipts of live stock at the City Market since Friday, as reported by the railways, were 120 carloads, composed of 1930 cattle, 873 hogs, 2699 sheep and lambs, and 120 calves. There were also 580 hogs that went to packers direct.

The quality of cattle is getting no better, but worse, as the number of poor quality cattle is becoming larger as the season advances, and the better class smaller.

Trade was somewhat erratic—that is, unsteady, but prices were unchanged all around.

Exporters—There was nothing doing in exporters excepting for a few bulls, and these sold at \$3.30 to \$3.75 per cwt.

Butchers—We heard of one heifer that sold for \$4.50, and one load of 14 butchers, 1250 lbs each, that sold at \$4.10, which were the highest quotations reported. Medium cattle sold from \$3.50 to \$3.80; common, at \$3 to \$3.40; cows at \$2.25 to \$3.50; canners, 75c to \$1.60 per cwt.

Feeders and Stockers—There were a few good lots of feeders, and a large number of not very good feeders and stockers that were not good. The Messrs. Murby were busy as usual, as well as Lunness & Halligan, with a large number of farmers that were looking for a few of the right kind.

Prices generally were not any higher. H. & W. Murby report the following quotations: Best feeders, 1000 to 1100 lbs., at \$3.25 to \$3.60; best stockers, 800 to 900 lbs., at \$2.50 to \$2.65; best stockers, 600 to 800 lbs., at \$2.25 to \$2.60; medium stockers 600 to 800 lbs. at \$2 to \$2.25; common stockers, 500 to 700 lbs., at \$1.50 to \$1.75.

Milkers and Springers—The good prices being paid for milkers and springers brought in a large number, there being between 70 and 80 cows of all classes on the market. Prices were a little easier, if anything, but there were a few that sold up to \$65. Good to choice sold at \$40 to \$55; common to medium at \$25 to \$35 each.

Veal Calves—Veal calves sold at old prices, \$3 to \$6 per cwt.

Sheep and Lambs—Export ewes sold at \$3.75 to \$4, a few choice yearlings sold at \$4.50 per cwt.; lambs sold at \$4.75 to \$5.25 per cwt. for the bulk. Inferior quality lambs sold as low as \$4, and selected ewes and weathers as high as \$5.50 per cwt.

Hogs—Mr. Harris reports \$5.75 for select and \$5 for light unfinished.

HOG FEEDING.

The following letter taken from the Farmers Sun will be of interest to farmers at this particular time:

A neighbor had publicly boasted that he had made \$1 per bushel out of his peas by feeding them to hogs. This statement was discredited, but as we had a litter of seven ready to wean, I decided to try the experiment, (peas were then worth about 60 cents.) I weighed out 30 bushels of peas, and began feeding these, soaked in very small quantities at first, with some skim milk, and kitchen waste, I gradually increased the amount of grain but never gave quite all the hogs would eat. When the 30 bushels were all I decided to kill. The seven dressed 585 lbs. and sold at 6c., totaling \$35.10. Deducting \$7 (the first cost), I had \$28.10 for my 30 bushels of peas, or 93c per bushel.

We all know now that this system of feeding was altogether wrong. Had I purchased half a ton of shorts (worth \$6) and fed with the milk during the first period, and then fed the peas (ground) with other grain, and finished the hogs, my profits would have been larger.

My next experiment was with five Berks, purchased at \$1.25 each. They were fed with shrunken wheat (unsaleable) and peas, ground together, with a little skim milk and kitchen waste added. The hogs consumed 2,735 lbs., valued at \$20.52 (peas were then worth 50c per bushel). These five hogs when dressed, weighed 809 lbs., and sold at 5c, totaling \$40.45. After deducting the first cost, I obtained \$19.93 per hundred for my meal. In both of these experiments no roots or clover were used. The experiments were carried out in the winter, and the selling prices were low, yet the profits were satisfactory.

Again, in October, 1904, we purchased six hogs for \$12, and put them up to feed. These were fed a mixture of equal parts of oats and barley, with one-half bushel of peas to the bag added. The hogs consumed of this meal 2,581 pounds. Our peas that year were injured by the wet weather, and a lot of wild buckwheat grew with them. We had several bushels of this seed, which were boiled and mixed with the meal. The hogs seemed to relish it, and did well on it. They received no milk or roots at any time. They were sold the following March for \$4.90 per cwt. live weight, and weighed 1,125 pounds, real-

RECIPE MIXED OFTEN.

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take a teaspoonful after each meal and at bedtime.

No change need be made in your diet, but drink plenty of good water.

This mixture, writes one authority in a leading Philadelphia newspaper, has a peculiar tonic effect upon the kidneys: cleansing the clogged-up pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in a short while.

A New York druggist who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October stated that the people who once try it "swear by it" especially those who have Urinary and Kidney trouble and suffer with Rheumatism.

The druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood-cleansing agent or system tonic known, and certainly none more harmless or simple to use.

izing \$55.10. This, after deducting first cost, allowed \$1.67 per cwt. for the meal.

In all these experiments the hogs were kept in comfortable pens, and fed regularly three times per day. The feed was given warm, the meal being mixed fairly stiff with warm water. They were treated kindly, kept clean, and allowed a good bed; a little salt was given occasionally.

These experiments go to prove the correctness of The Sun's contention that there is a profit in feeding hogs, even at the present high price of feed stuffs, if properly managed. It would be great folly to part with breeding stock now, because these can be wintered for half what it will cost to purchase a litter in the spring. Feed stuffs will likely be cheaper then. Breed the sows to farrow in April or May. Sow an acre of rape and an acre of peas early in the spring, and by the middle of June you will have plenty of feed until harvest. It would be a great mistake to lose the market we have, besides we owe it to the packers, who have put large sums into the business; and to the army of employees, who depend upon them for a living, to stay by the hog industry.

The plant of the Holyrood Creamery was sold under mortgage, by auction on Saturday last. The mortgage upon the property amounted to \$600, and the directors of the company, which was a joint stock concern, bought it at that figure. It was not, however, bought in for the stock holders but by the directors for themselves. The plant had cost \$2,900 and the stockholders lose all they put in it.

The London Advertiser says that potatoes were a drug on the market in that city on Saturday and farmers had difficulty in disposing of their loads. There were 60 loads of potatoes on the stands and the loads averaged about 40 bushels each. Then there were three car loads of potatoes in from Caradoc township which has the reputation of being the champion potato township of Western Ontario. The price of potatoes on Saturday was from 75 to 80c a bag.

LEARN DRESSMAKING BY MAIL

In Your Spare Time at Home, Or Take a Personal Course at School.

To enable all to learn, we teach on cash or installment plan. We also teach a personal class at school once a month—class commencing last Tuesday of each month. These lessons teach how to cut, fit and put together any garment, from the plainest shirt waist suit to the most elaborate dress. The whole family can learn from one course. We have taught over 7,000 dressmakers and guarantee to give \$500 to anyone who cannot learn between the ages of 14 and 40. You cannot learn dressmaking as thorough as this course teaches it if you work in shops for years. Beware of imitations, as we employ no one outside the school. This is the only experienced Dress Cutting School in Canada, and excelled by none in any other country. Write at once for particulars, as we have cut our rate one-third for a short time. Address:

Weak Kidneys

Weak Kidneys, surely point to weak Kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell
