MATTER HELD OVER

Having given a large amount of space this week to a report of Mrs. Ayscough's lecture we have been forced to hold over for our next issue other matter, and though some of it may lose a little by delay in publication, a week is not long, and we know we can rely with confidence on the patience and courtesy of our readers as well as of our contributors. The resources of a country newspaper are usually limited, and our own office is feeling the pinch of scarcity of skilled printers which is being felt by all printing establishments in Canada. Of one thing our readers can rest assured, that we do our very best to serve their interests and to produce a paper worthy to be a welcome weekly visitor in every home in Charlotte County.

OBITUARY

Mrs. GEORGIA PEABODY
St. Stephen, N. B., Aug. 7.

After an illness of several weeks, partly at the Chipman Memorial Hospital, Mrs. Georgia Peabody, widow of the late Stephen Peabody, of Peaton, Me., passed away at the hospital on Tuesday. She was the second daughter of the late Mr. and Mrs. John H. Rose, who for many years resided in St. Stephen, but afterwards at Grand Lake Stream. She was fifty-six years of age. She leaves two daughters, Misses Edith and Gertrude Peabody, to mourn the loss of a devoted mother. The funeral service is to be held from the home of her cousin, Senator Irving R. Todd, Pleasant St., Milltown, on Thursday afternoon at 3 o'clock.

Mrs. THOMAS WREN
On Thursday morning Annie Catherine Wren, wife of Thos. R. Wren, Collector of Customs, passed away in Boston at the age of 52. The deceased had been seriously ill for over a year and had endured great suffering. In May she was taken to Boston for treatment and had seemed to benefit by it. A few weeks ago she began to weaken and the end came suddenly. She is survived by her husband, one daughter, Miss Freda, at home, a son, Jarvis, Overseas, her mother, Mrs. J. R. Bradford, and a sister, Mrs. J. Smith, of Boston. The body will be brought to St. Andrews on Friday night, and the funeral will be held Saturday afternoon.

Mrs. GEORGE THOMPSON
Cummings Cove, August 7.
On Sunday last the sudden and sad news came to our island that Mrs. A. G. Fairhaven, Deer Island, had passed away at a Hospital in Calais, whither she had gone about one month ago for medical treatment, hoping that by skillful attention and nursing she might be restored to health, and to her family but evidently the disease was too deeply seated for medical aid. Several years ago Mrs. Thompson was operated on by an eminent surgeon of Portland, Me., and since that time has enjoyed the best of health, and although not a young woman yet she never lost her youthful and lively disposition and always enjoyed the company of the young as well as the middle aged. A most devoted wife and mother in the home, and one of the most prominent members of the Methodist Church at Cummings Cove, a distinct loss is felt in all these circles. Her husband and family visited her several times while in the hospital, and at the time of her passing out her two daughters were present. Besides these she leaves to mourn three sons, George Jr., of Worcester, Mass., and Willie, of Massachusetts, and Hartford, of Fair Haven. The funeral services were conducted from her home on Tuesday by Rev. Mr. Egan, Baptist in the absence of her regular pastor. The casket was adorned by beautiful floral gifts. The choir sang "Face to Face" and "My Savior first of all." Interment was in the family lot in the cemetery at Cummings Cove. The sympathy of the island goes out to the aged husband, children, and relatives in their sorrow.

To The Mayor and Alderman
Town of St. Andrews

Dear Sirs:—

At a meeting of the Board of Firewardens on Monday, Aug. 5th, a resolution was passed that this committee should bring the following matter before the Council; viz:— that it is in the opinion of the Board advisable that the large fire-tank on Market square should be fenced at an early date, as it is unsafe, and that, as the tank appears by our examination to be useless for fire purposes it should be filled in rather than incur the expense of re-covering it.

Committee on Fire-tanks

A. W. MALLORY

St. Andrews, N. B., June 6, 1918

To His Worship The Mayor,
St. Andrews, N. B.

Dear Mr. Greenlaw:—

It has been suggested to me by the Manager in Chief of the Canadian Pacific Railway's hotels, that it might be possible for the Town of St. Andrews, to be willing to exchange the Poor House, situated on the Farm and which is rented by us for Golf Links, for the property known as The Inn at Indian Point. This building is in thorough repair, with out houses consisting of large carriage shed, 3 horse stalls, 3 cow stalls, large hen house, coal and wood shed, with very large accommodation for hay and straw etc, in the loft of same, and also excellent storage on the floor above the coal shed. There is also acetylene gas plant and the whole house is in good shape. There are 20 rooms in the house, 2 bath rooms with all fixtures. There is a large attic which would accommodate from 15 to 16 people and the whole is thoroughly equipped for lighting with acetylene gas, even the attics. There is a large water tank in the attic, which holds 5000 gallons there is also a good artesian well and soft water system with leaders from the roof; this is solid brick and holds about 10,000 gallons of water, and will at all times insure sufficient water for domestic purposes.

The original part of the house is piped for hot air heating, with registers in all the principle rooms of that part of the house, this could be used in the Summer time exclusively, and if it was necessary to close off this part of the house in the Winter time, the extension, which includes the kitchen, contains eight bedrooms, sitting room down stairs and a large kitchen, and can be closed off so that one stove upstairs will do the heating and the kitchen range will heat the lower portion. There is a three section rafter left in the building, which is in good order.

It has occurred to me that the exchange of buildings might be more suitable for the Town purposes, at the same time the Golf Club have found it imperative that their Golf Club House be extended, and on the present site of which the Golf Club

house stands there is no room without interfering with the layout of the Golf Course. There is a possibility that we might be able to use the present Poor House with extensive alterations, make same available for the Golf House, as the intervening section of land between the two courses is very essential to us for the purpose of teaching golf. At the present time we find it necessary to do the teaching on the Fairway of the 18 hole course, which of course is a detriment at all times to the players, and at the same time embarrassing to the people who are being taught.

I should esteem it a great favor if you would kindly take this proposition up before the Council and advise me on what basis the transfer could be made, keeping in mind the fact that we will still continue to pay the rental of the farm grounds, which at the present time is leased on a ten year lease, four of which is still to run, with the option of the renewal at the expiration of this time. I shall be glad to have this lease renewed at the time when the present lease expires.

Your attention to this matter personally, with an early reply, would be very gratefully received by,
Yours faithfully,
A. ALLERTON
