The Mine Has Not Been Sold and Will Not be Says Patsy Clark—No Bond on the Mine for the Past Sixty Days.

SPOKANE, Wash., Dec. 3.—(Special.) Patrick Clark and W. J. C. Wakefield returned this morning from a trip to London and Paris.

IN THRIVING KASLO. Several Carloads of Freight Received—News of the Mines. KASLO, Dec. 2.—Archie Jardine, of Victoria, western manager for the British Canadian Gold Fields company, his mineral claim Voyageur, situated in the dry ore belt, about three miles north of the Ten-mile house on the Kaslo-Slocan railway.

D. R. Irvine, a mining expert, who has spent a good portion of the summer in the Ainsworth and Slocan mining divisions, has bought from J. E. Bigham, T. J. Lendrum and Ed. Baum, their entire interests in the mineral claims Right Bower and Moonstone, situated at the head of Kootenay lake and in the immediate vicinity of the townsite of Lardo.

Mr. Ewart, while in the Slocan, visited the workings of the Cariboo-Rambler mines, in charge of the well known "Dick" Shea. He reports 10 men at present engaged in stopping and drifting, but the number will soon be increased as a crosscut tunnel has been begun which is expected to tap the lead at a depth of about 400 feet.

The Kokanee on Monday evening was laden almost to the guards with freight for local houses and their branches. For Henry Giegerich alone he brought three carloads, one of candles from the east, one of canned goods from California and a third of beans—besides considerable miscellaneous freight.

Although the general meeting of the London Hill Mining and Development company does not take place until the middle of January next, there was an informal consultation of the promoters and owners in this city on Monday and Tuesday last, at which many preliminaries were arranged, and perfected for prosecution of work at the mines. The London group includes some valuable claims, which have hitherto been developed under the directions of Major Vanmerkerke who will continue in charge at the work, while Mr. Thomas G. Proctor will become business manager for the company.

A considerable amount of work has been done. In the upper works there is in one drift about four feet of good ore, and in the left hand drift about eight feet of a vein. Ore from the mine has ranged from 150 to 300 ounces to the ton. In the lower tunnel only one shift is presently working because of bad air, but air pipes and a fan have been sent up, and when this has been set up, the force will be increased.

A considerable block of the company's stock has been sold in the east. Mr. Proctor left for the coast cities on Thursday morning and he expects to have it all placed upon the market before his return.

H. E. Porter, lately manager for the Black Fox Mining company, will leave for the east in a few days to spend the winter with friends in Nova Scotia.
