KENTVILLE, MAY 12TH, 1916

PROVINCIAL ELECTIONS

Liberal-Conservative Candidates for Kings County:
Lieut. J. D. Spidell, of Kentville.
J. Everett Kinsman, Farmer, of Centreville.

Spidell and Kinsman will be the rallying cry.

The Local Legislature will likely close its session this week. The elections are probable in June and we will see what we will see—a new Executive at the helm in Provincial affairs. So strong is the tide of public feeling against the corroded and barnacled Government that Liberals are not likely to carry more than a baker's dozen of the seats in the Province.

It is to be regretted that Mr. F. A. Parker of Berwick found it impossible to answer to the call of the Conservative party and remain in the field as a candidate. But Kings County people recognize that the farming interests are the most important in this County and have passed over several other good and very strong candidates to get a farmer representative. Mr. J. Everett Kinsman is one who has made a great success in his agricultural and fruit growing work and will be a worthy representative of the industrial life of Kings Co.

The Local Government followers in this County have not yet decided upon their candidates. A convention was to have been held a fortnight ago and the printed notices of Ward meetings for selection of delegates had been distributed. But there is a warm time on among the leaders in the party. Several offices in the County are vacant such as Registrar or Judge of Probate, Official Assignee, appointment to the Legislative Council in place of Hon. A. P. Welton, deceased, and a permanent appointment to the Registry of Deeds office.

The last two offices are the most serious problems the Liberals have to face now. The party has made up its mind that Dr. Covert, M. P. P. cannot again be elected and if he is to relinquish the position, he demands the seat in the Council so that he can move to Halifax and practice his profession there. Then again the list of applicants for the position of Registrar of Deeds shows that the Liberals have decided that the office must be filled before the Local Elections, as after that date a Conservative Government is sure to be in power and the Liberal aspirants will miss the office. But as to which of the many applicants will get the plum is causing the party much deep thought and worry. Hence the delay in selecting candidates until it can be decided who can be turned down with the smallest loss of votes from the different aspirants to office.

Liberals themselves are growing heartily tired and sick of the thirty-four year old Murray Daniels combination that has misgoverned Nova Scotia. The thought of a Province like this with all its wealth in coal, iron and other minerals, crown lands and other sources of income which have all been filtered away and we stand with a debt of nearly fourteen million dollars and nothing to show for it. Our farmers and laborers who are finding it hard to meet expenses in these war times are met with increased and direct taxes levied by the Murray Government. Being obliged to work harder and eat less they do not relish the extra taxes to help impoverish them. The Murray Government spent \$44,000 last year to induce twelve families to come into the Province and

settle here. These settlers were advanced money by the Government to repair buildings fence farms put in crops, buy fertilizer and seed, buy implements and provide stock. Nearly \$4,000 per family paid for these settlers whom we welcome. But a Conservative Government would assist our own people, who have the first claim upon us and not tax them so high that they leave our own Province to seek a home under another flag. It is not to be wondered at that scenes of Liberal farmers will vote against the Murray Government and their candidates in Kings Co.

HOUSING

A meeting of the Committee of the Board of Trade on Housing was held last night when it was decided to make a thorough canvas of the Town and immediate vicinity for the purpose of gathering information as to the number of rooms that can be rented for lodgers or boarders. Suitable forms have been prepared and each tenant will be called upon to state what they can do.

To make a success of the scheme the Committee have in mind, will require the patriotic assistance of every citizen of the Town. Roughly the idea is to have a Housing Bureau with a permanent secretary in charge where soldiers and visitors may be told where they can find accommodation. Complete records will be kept of the data gathered by the Committee and a trouble or delay to the visitors largely eliminated.

The Committee will start their canvas today and finish by Monday night and we would ask that everyone in town give this matter their earnest consideration.

It is not so much a matter of dollars and cents as our welfare for the town and in the case of the soldiers our duty to our country.
