

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took "FRUIT-A-TIVES"

ALBERT VARNER

Buckingham, Que., May 3rd, 1915. For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating, while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-tives". I took this grand fruit medicine and it made me well. I am grateful to "Fruit-a-tives", and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach. I say take "Fruit-a-tives", and you will get well". ALBERT VARNER. 50c. a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Protests Against the Persecution of Jews.

Madrid, June 4, via Paris.—The Spanish Government, it is announced in the newspapers, has instructed its representatives in Berlin, Vienna and Constantinople to present an urgent note demanding that there be an end to the persecutions, deportations and footings practiced against the Jews in Palestine. King Alfonso, it is stated, has intervened directly in this question. Numerous residents of the Near East, it is pointed out, are of Spanish origin and have retained that language. The action of Spain in this matter is declared to be energetically upheld by several of the other neutral nations, including Argentina.

Keep Minard's Liniment in the house

11 Provinces of China

Peking, June 3.—Eleven provinces of China, including the province of Chi Li, in which Peking is situated now no longer recognize the authority of the Peking Government.

The provinces of Ewang Tung, Mwang Si and Yun Nan are supporting President Li Yuan Hung, The Provisional Assembly of Ewang Tung, in assuring its loyal support to the President and Parliament, demands that the military Governors be dismissed and punished. Dr. Sun Yat Sen, former Premier Tang Shao Yi and other revolutionary leaders, are proceeding hurriedly to Canton.

It seems probable that should the military governors persist in their revolutionary course that the three loyal South China provinces named, Ewang Tung, Kwang Si and Yun Nan, will rise in support of the president. At present the situation is serious and the president virtually powerless.

Parliament was convened to-day to consider a bill calling for a declaration of war against Germany, but there was no quorum owing to the fact that 250 members had left Peking. Attempts are being made to influence President Li Yuan Hung to resign rather than to dissolve parliament, the object being to throw the blame for any disturbance upon the militarists.

The Militarists, it is said, do not intend to force a disturbance while they are in control of the railways. Traffic has been uninterrupted and the militarists are demanding a new election immediately for the purpose of securing a workable constitution. President Li Yuan Hung is powerless, owing to the Peking military commanders refusing to carry out his orders.

Believed that General Haig is to Strike Great Blow.

London, June 5.—All the familiar signs which herald a great offensive are reported from the British front in France and everything points to the near approach of a resumption of fighting on a great scale in the western front. The thunder of the British guns increases day by day in volume, while trench raids and other feintings for position multiply in number.

The most interesting feature in meagre official reports is the repeated announcement of a tremendous artillery duel in progress around the little Belgian village of Wytschaete, about five miles south of Ypres. From this point as far south as the famous Vimy Ridge, thirty miles away, the guns are roaring day and

night, apparently indicating that General Haig has chosen this sector for the next big blow. In this connection it is recalled that General Maurice, director of general military operations, predicted some weeks ago that the next British offensive would be on a vaster scale than any which preceded it.

Wytschaete marks the head of a short salient held by the Germans south of Ypres. This salient is roughly three miles deep and averages about the same extent in width. Its great importance lies in the fact that it is the only high land between the British and Lille. Once in the possession of the British their guns would command the broad plain between the plateau and Lille a distance of about ten miles.

Value of Manure from Twenty-Four Steers.

Kentville Experimental Farms Note

The manure from twenty-four steers averaging in weight close to 1000 pounds each and running loose in two-box stalls at the Experimental Station, Kentville, N. S., covering a period of 120 days, or four months, weighed 112 tons, 640 pounds. The average for each day was 1872 pounds or 78 pounds per steer. Straw bedding amounting to 10 pounds per steer per day was used and all liquids as well as the solids were saved.

Chemists tell us that this fresh manure from fairly well-fed steers contains in each ton 7 1/2 pounds nitrogen, 3 1/2 pounds of phosphoric acid and 9 pounds of potash. When buying commercial fertilizer we pay 25 cents per pound for nitrogen, and 7 to 8 cents for phosphoric acid. Potash cannot be bought at a fair price, but in order to get at a fair valuation for the manure we should allow at least 5 cents per pound the price of potash before the war. A ton of the above manure at these prices would, therefore, have a value of \$2.63.

At the valuation of \$2.63 per ton 112 tons, 640 pounds would be worth \$295.40 or \$12.31 per steer, a little over \$3.00 per steer per month. Considering that potash will each year become a greater factor in economical agricultural production, the value is even greater than that given above.

Nothing has been allowed in the above calculation for the value of the humus value of manures is 50 to 100 per cent of the value of the chemical ingredients, depending upon the soil on which the manure is used and the manner of application.

It is a well-known fact that half of the total value of the excrement from live stock is in the urine. If the liquid part is allowed to drain away through holes in the stable floor, or otherwise, over one half of the value of the manure will be lost, therefore, every effort should be made to conserve all the excrement voided by animals.

The water retained after twenty-four hours by 100 pounds of material used for absorbents in the stable is estimated to be as follows:—

Wheat straw, 220 pounds; Oat straw, 285 pounds; Well dried peat, 600 pounds; Dry sawdust, 435 pounds; Dried leaves, 162 pounds.

No Evasion of Service in United States.

Washington, June 1.—President Wilson issued a proclamation warning "that attempts to evade registration by fleeing from the country will expose them to prosecution upon return to this country." The proclamation says: "I, Woodrow Wilson, hereby give warning that all persons subject to registration under provisions of the act of congress, and the proclamation of the president withdrawing from the jurisdiction of the United States or the purpose of evading such registration, expose themselves on their return to the United States, to prosecution for such evasion of registration, which enacts that any person who shall wilfully fail or refuse to present himself for registration or to submit thereto as herein provided, shall be guilty of a misdemeanor and shall upon conviction be punished by imprisonment for not more than one year, and shall thereupon be duly registered."

The Hun Submarine is Losing its Power, and the Losses Cut Down.

London, June 5.—The weekly report of losses of British merchant vessels in the submarine campaign will again show a favorable total when it is issued tomorrow. In some respects the last week has been the best since unrestricted submarine warfare was inaugurated. Last Friday was a blank day on the records, that is, no loss of the British merchantmen occurred. It is the first time this has happened for a long period.

British naval people believe the improvement is cumulative, and that there is not the slightest chance with the improved allied organizations, that the Germans ever will repeat their performance of the black week, when nearly sixty boats were sunk.

Over Seven Hundred Airplanes Shot Down.

London, June 2.—The morning papers figure that 713 airplanes were shot down on the western front in May, of which 442 were German and 271 British and French. British headquarters admitted the loss of 86 machines but as the French do not announce any war losses it is impossible to verify the inference that they lost 185. It is worthy of note that the estimate of 271 is compiled from the German official reports. The total air losses for April were estimated at 709.

Enemy Airplane Bases Attacked

London, June 5.—The aerial attacks on German establishments in Belgium are being continued vigorously by the British. Further operations were reported officially to-day as follows: "Naval airplanes on Sunday night attacked the airdrome at St. Denis Westarm, near Ghent. Many bombs were dropped with good results. The enemy airplane base at Zeebrugge was attacked by our seaplanes at the same time and shipping in Bruges also was bombed. All our machines returned safely."

Captain Hayden Injured

Digby, June 4.—Captain John W. Hayden, coxswain of the life saving station at Bay View, had his arm broken in two places this morning while rescuing a disabled fishing boat in Digby Gut. He was brought to Digby by the life boat "Daring" and the limb was set as soon as possible. The captain suffered a lot of pain while the run was being made from Digby Gut to Digby Pier.

German Destroyer Sunk

London.—The German destroyer S20 was sunk by British fire near Ostend during the British bombardment of Ostend, the admiralty announced to-day. There were no British casualties.

FOR SALE

A small Farm situated in Steam Mill Village, Containing Thirty Acres. Good House and Barn. Twelve acres cultivated, 3 acres in orchard. Remainder in wood and timber. Apply to Advertiser Office, Kentville. atf

SHOP TO RENT

To rent, basement shop on Cornwallis Street, size 20x24. Possession May 1st, Rental \$8 per month. Apply to S. S. DeWolfe, or Box 277, Kentville. ott

THE CORRECT WAY TO TREAT A COLD

A cough is not a distinct disease, it is the result of inflammation caused by a cold. Therefore, the only way to cure a cough is to allay the inflammation which invades the delicate bronchial tubes. All of the narcotics in the world will not correct the conditions which cause a cough—they simply deaden the senses and afford temporary relief.

Penslar White Pine and Spruce Balsam with Menthol will promptly soothe and heal the inflamed membranes and overcome the nervous irritation. Price, 25c and 50c the bottle.
