Dr. Geo. M. Gorrell, D. D. S., of Westport, a graduate of the A. H. S., has purchased the practice of a Morrisburg dentist and is now established there. Just as some were consoling themselves in the belief that they were getting too old to be attacked by appendicitis, along comes Sir W. P. Howland to undergo operation for this fashionable trouble. Sir William is 96. Mr. Morford C. Arnold, who was taking his final course at the R.C.D.S., Toronto, became ill while writing on his exams and was unable to complete the work. Mr. A. M. Eaton left Athens on Monday for Boston where he will continue his engineering studies in theory and in practice, the latter in the department of structural steel. We wish him the full measure of success that his hustling, industrious spirit deserves.

In a letter to the Reporter under date of April 23, Mr. David L. Greene of Brown, Man, says: "The weather here is all that could be desired, and farmers have their seeding well advanced. I have enjoyed excellent health ever since I came. Icelandic hospitality is not so freezing as its name might suggest."

During the session of the Sabbath School of St. Paul's Presbyterian church on Sunday last, the departure of Miss Fanny Cadwell from Athens was becomingly honored. An address expressing appreciation of the valuable services she had rendered as secretary-treasurer of the S.S. and member of the church choir, and the regret that all felt at saying good bye, was read by Mrs. Cavanagh and the presentation of a handsome silver manicule set was made by Miss Watson, in behalf of the church and school. Miss Cadwell has resigned her position as bookkeeper in the store of Joseph Thompson and has gone to her home in Smith's Falls.

Hon. M. Cochrane has announced in the Legislature that anthracite coal had been discovered beyond the height of land in Northern Ontario.

Several leading citizens of Greenbush and New Dublin are asking for telephone communication, and it is probable that a line will be put in centering at Athens.

One of the most artistic booklets ever issued by a Canadian house is the new Spring Style Book "Progress Brand" Clothing. The illustrations, all taken from life, show the many popular models in which "Progress Brand" Suits, Top Coats and Rain Coats are made. The Semi-Ready Clothing Co. of Brockville sell the Progress Brand.

Morrisburg's industrial boom was reflected in a pleasing way by The Leader last week, which appeared in a dress of machine set type, eight pages, all home print. Under the editorial management of Mr. Whitney, The Leader has taken a position in the front row of town weeklies, and this latest step forward will no doubt receive due recognition from its patrons in town and country.

Following the disastrous fire of two weeks ago, Mr. A. Root of Greenbush has been busily engaged in preparing for a resumption of his business. Talent will come from Brockville to assist, and a thoroughly enjoyable evening is assured. Proceeds will go into a fund for furnishing the stage of the new town hall.

The A.H.S. students have entered upon the athletic part of their training in a spirit that promises well for the summer campaign. Tennis has found some devotees, but the more strenuous game of baseball is preferred by the majority. Just by way of practice, a match was played after 4 on Thursday with a team marshalled by members of the old time invincible village club, and the result was a surprise all round. The villagers proved to be "dead easy" for the students and the score of 28 3 in favor of the school is more eloquent than words. Perhaps the villagers are playing Kuropatkin.

A combine of lawyers to keep us from getting our wills drawn up by honest men who are not lawyers; a combine of doctors to keep us from taking pills or syrup or plasters prepared by the common herd; a combine of druggists to keep us away from the drug counters of the departmental stores; a combine of nurses to shoo away all unregistered angels of mercy; a combine of undertakers to lay us out in regulation coffins at regulation charges; a combine of parsons to make the proper prayer over us after all the other combines have had their turn. That's what we are coming to.—Ex.—

On Saturday last nearly 900 bushels of potatoes arrived here consigned to Mr. Joseph Thompson. It was thought that this would fully satisfy the local demand, but by Monday evening the supply was exhausted, and Mr. Thompson will bring in another lot. The potatoes were grown in Quebec and are known as "White Favorita." They evidently escaped both the rot and the blight, so common in Ontario, and were in demand largely for planting. The failure of the potato crop in this section year after year, is getting to be a serious matter, and when the difficulty is overcome, either by the introduction of new seed, treatment or cultivation, there will be general rejoicing.

All Run Down
