RECIPES

FRENCH CRULLERS.

Put one cup of boiling water, three level tablespoonfuls of sugar, a grating of nutmeg and salt, one-fourth a cup of butter; when like fire, warm drifting soft in one cup of sifted pastry flour and stir until cool. In a smooth ball of paste. Turn into an earthen bowl, and beat in, one after another, three eggs. Beat the mixture smooth between each addition of an egg. Drop from a tablespoon, in as smooth shape as possible into hot fat, turn often, and cook until well puffed up and browned. Drain on soft paper.

GERMAN HANDKERCHIEF SALAD.

Cut two ounces of bacon into shapes; then scrape to make small pieces, and put in a frying pan with two tablespoonfuls of water. Set the pan over the fire; the water evaporates and in becomes oily, but not dry. Take it out and put on an open paper to absorb any grease. Rinse one quart of green young dandelion leaves, drained in one water. Shake them perfectly dry while the bacon fat is coming. Place five anchovies in a salad bowl and cut into slices of moderate size. Add to the bacon fat two tablespoonfuls of vinegar, one teaspoonful of salt, one teaspoonful of pepper and one tablespoonful of chopped onion or chives. Mix well. Place over the dandelion and serve at once.

ALMONDS AND RAISINS A SALAD.

Blanch and chop one-eighth pound of Jordan almonds. Add one-half pint of mayonnaise and mix with five tablespoonfuls of cream, mix in nine tablespoonfuls of cream powder, one-quarter teaspoonful of salt, one-quarter teaspoonful of pepper. Pick one-quarter pound raisins and cut in two with scissors. Add to the dressing and mix with three tablespoonfuls of chopped celery and three tablespoonfuls of chopped cucumber pickle. Mix well. Place over the dandelions and serve at once.

MUSHROOMS AND SWEETBREADS SALAD.

Blanch and chop one-eighth pound of Jordan almonds. Add one-half pint of mayonnaise and mix with five tablespoonfuls of cream, mix in nine tablespoonfuls of cream powder, one-quarter teaspoonful of salt, one-quarter teaspoonful of pepper. Pick one-quarter pound raisins and cut in two with scissors. Add to the dressing and mix with three tablespoonfuls of chopped celery and three tablespoonfuls of chopped cucumber pickle. Mix well. Place over the dandelions and serve at once.

BOILED CREAMS.

Two cups of cold cream, one-half pint of milk, one teaspoonful of butter, one tablespoonful of flavoring—half lemon, half vanilla—one teaspoonful of salt, one-half pound fine granulated sugar, pepper and salt. Boil about six minutes, quarter them and put over the hard centerline, mix the milk on to boil, add salt, the butter and flour together and stir in hard mixture as it comes to a boil. Let it cook a few minutes and then remove from the fire and add the nutmeg, cream, chopped parsley, yolks of the hard-boiled eggs mashed very fine, cold cream, pepper and salt, and mix all well together. Put this mixture in the deep shells, cover with fine bread crumbs and brown in the oven. Serve immediately.

THE BEST WAY TO BOIL EGGS AND OTHER THINGS.

Immerse two pounds of meat in three pints of boiling water; set it instantly over a hot, so that all is well surrounded with heat; keep the boiling point for fifteen minutes to every pound and simmer in the center of meat where the joints are found; use in meat and the casserole, or stone and steamer and spirituous liquors or those whereof is long and lean. Remove all the muscles and bone joints in the first half hour before, and the same in kept boiling not while using it. Then warm it over, mix equal quantities of pulverized borax, camphor, alum and saltpetre, in powder, sprinkle it over the meat, and make a mixture of dry mustard and vinegar to cover it. Keep well corked from the air.

TWO-MINUTE EGGS.

Immerse one pound of meat in three pints of boiling water; set it instantly over a hot, so that all is well surrounded with heat; keep the boiling point for fifteen minutes to every pound and simmer in the center of meat where the joints are found; use in meat and the casserole, or stone and steamer and spirituous liquors or those whereof is long and lean. Remove all the muscles and bone joints in the first half hour before, and the same in kept boiling not while using it. Then warm it over, mix equal quantities of pulverized borax, camphor, alum and saltpetre, in powder, sprinkle it over the meat, and make a mixture of dry mustard and vinegar to cover it. Keep well corked from the air.

MACAROON SOUFFLE.

This is a new and delicious recipe for Parisian lit. Pierrine. Take three tablespoonfuls of sweet chocolate, grate, put in a saucepan, add three tablespoonfuls of sugar, one tablespoonful of butter, one-fourth teaspoonful of cinnamon and nutmeg, two tablespoonfuls of flour, one cup of milk, yolks of three eggs, one teaspoonful of vanilla. Cook until thick, stirring constantly. Remove from the fire, add the whites of the eggs beaten stiff, turn into a buttered dish and bake in a moderate oven twenty minutes. Serve immediately.

HOW TO KEEP EGGS.

Wipe the shells before using, immerse each egg in a solution of boiling water, one tablespoonful of borax to one quart of water, and when cold pack in bran, sawdust, or dry sand, with the small ends down. Eggs thus treated will keep for months. Eggs may be packed in a box with the small ends down, and covered with a mixture of one part of lime to twelve parts of water. Eggs thus treated will keep for months. Eggs may be packed in a box with the small ends down, and covered with a mixture of one part of lime to twelve parts of water. Eggs thus treated will keep for months.

HOW TO BOIL RICE.

Wash the rice before using, changing the water until it is clear. Put it into a saucepan with two quarts of boiling water to one cup of rice, and boil rapidly for twenty minutes. Drain in a colander, and set in the oven for a few minutes to dry. Serve hot.

TO CLEAN BRASS.

Mix equal parts of powdered alum and saltpetre, and dissolve in boiling water. Apply with a soft cloth, and polish with dry leather or chamois skin.

TO CLEAN PAINT.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN WINDOWS.

Add a little ammonia to the water in which you wash windows, and polish with a chamois skin or soft cloth.

TO CLEAN GILT FRAMES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN MARBLE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CARPETS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN FURNITURE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN SILVER.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN GLASS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CHINA.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN PLATED WARE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN KNIVES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN FORKS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN SPOONS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TEAPOTS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN COFFEE POTS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TEA KETTLES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN SAUCEPANS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN FRYING PANS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN GRIDDLES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BAKING DISHES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN ROASTING PANS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN MEAT CHOPPERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN COFFEE MILLS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN SPICE MILLS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN NUTMEG GRATERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CAN OPENERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BOTTLE WASHERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN EGG BEATERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN POTATO RICERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN COLANDERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN STRAINERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN FUNNELS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN MEASURES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN SCALES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN WEIGHTS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BALANCES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CLOCKS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN WATCHES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN JEWELRY.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN PIANOS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN ORGANS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN VIOLINS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN GUITARS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BANJOS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN FLUTES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CLARINETS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TROMBONES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TRUMPETS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN DRUMS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CYMBALS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TRIANGLES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BELLS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN WHISTLES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN RATTLES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TOYS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN DOLLS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TEDDY BEARS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BOOKS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN PAPERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN PENCILS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN PENS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN INKSTANDS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BLOTTING PADS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN ERASERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN RULERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN PROTRACTORS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN COMPASSES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN DIVIDERS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN SET SQUARES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN T SQUARES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN DRAWING BOARDS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN EASELS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN PALETTES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BRUSHES.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN PAINTS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN VARNISH.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN OILS.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TURPENTINE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN BENZINE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN KEROSENE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN GASOLINE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN ALCOHOL.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN ETHER.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CHLOROFORM.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN MORPHINE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN OPIUM.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CAMPHOR.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN QUININE.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN ASPIRIN.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN CASCARA.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN SARSAPARILLA.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN IRON.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN STEEL.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN COPPER.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN ZINC.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN TIN.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN ALUMINUM.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.

TO CLEAN NICKEL.

Mix a little powdered whiting with a small quantity of water, and apply with a soft cloth. Wash off with clean water and dry with a soft cloth.
