It is really amusing to watch the Conservative organs in their hopeless task to avert the fate of their party. While Mr. Laurier has been capturing Western Ontario and kindling an enthusiasm that nothing can extinguish, the Government has been in dire straits. Following the Liberal triumph in Montreal Centre boast a large clientele and the incident would be alrest unworthy of notice did it not demonstrate how wretched are the fortunes of the Tories, in making so much out of it. A few years ago a paper in Vancouver did great injury to the place by its selfish calumniation of upright citizens and its pessimistic articles. Business men had to intervene and protest with the result that a change of policy occurred at once. The city went right along notwithstanding all the time and though M. Beaugrand's admirers may feel hurt by the action of the two French leaders in Federal and Provincial politics their antagonism will affect very little the manifest destiny of Mr. Laurier. Our local contemporary, having no experience of Eastern Canada affairs, especially in Quebec, does not understand the diffault results of the census of 1891, the area of improved lands in Canada was 23,437, of which 18,904,826 acres were under crop. There were 445,522 acres in gradens and orchards and 15,224,728 in pasture. The increase in lands under crop in 1891, compared with 1881 was 4,-70,542 acres of over 30 per cent. Relatively to the whole area of Canada the attempt of experience of Eastern Canada affairs, especially in Quebec, does not understand the diffault of the census of 1891, the area of improved lands in Canada was 23,437, of which 19,94,826 acres were under crop. There were 445,522 acres of which 19,94,826 acres were under crop. There were 445,522 acres of or which 19,94,826 acres were under crop. There were 445,522 acres of or which 19,94,826 acres were under crop. There were 445,522 acres of vibral results and orchards and 15,224,728 in pasture. The increase in lands under crop in 1891, compared with 1881 was 4,-70,542 acres of even and orchards and experience of Eastern Canada affairs, especially in Quebec, does not understand the difficulty which M. Laurier has overcome, not toe soon either. Those acquainted with the situation regard his attitude towards La Patrie as the outcome of much thought and a desire to conserve the best interests of his followers. We are sanguine that it will strengthen him with personages of great influence who hitherto could not see eye to eye with the ultra wing of the party. As we have said, the matter amounts to very little, but it shows the miserable plight the Conservatives are in when they attach importance to it and make deductions that are ridiculous in the extreme.

Upon the larger number of public questions The World and The Province agree. We believe that each is actuated by high principle in advocating the triumph of Liberalism as opposed to Conservatism. Both, we think, hold the same views in so far as regards the doctrine and sentiment of self-government, the more especially in reference to the Irish nation, believing, with Mr. Gladstone and Edward Biake, that peace between the two-races the world over is the surest guarraces the world over is the surest guar-antee of the integrity of the Empire whose interests her sons may at any moment be called upon to guard. We like its course thus far, and spare no opportunity to give it encouragement. We disapprove, however, of its hostility to the Government of the Province and its unreasonable attacks upon mining enter-prises that are calculated, in by no means too lively times, to retard the progress of British Columbia. Granted that much that has been said in this connection is true, we question the advisibility of a publicity that seems altogether unneces-sary. What the Province wants now is sary. What the Province wants now is money and population, and those who bring in the former should receive something more than censure, sensible persons agree, while the latter will follow as a matter of course. But this apart, The Province, in its treatment of Ministers of the Crown, and the Agent-General, develops small tact. It injures the country abroad and prevents an influx of capital. Realizing this, the Provincial Secretary has decided that its circulation is injurious and the periodical sheds idle tears. Would it not be a most singular proposition that the Government should, out of the public treasury, subscribe to a paper, and place it in the libraries of Britain, which denounces its general administration and mayhap libels its mem sritain, which denounces its gener ninistration and mayhap libels its

Rouge newspaper be it understood, and immediately there is a great shout of delight as if the fate of Mr. Laurier and much improved since the operation on

health.

Ottawa, Nov. 2.—The New Zealand Legislature, by a majority of 2, has rejected the proposed trade treaty with Canada.

The Militia department to-day placed an order for 2,000 greatcoats with Shorey Bros., of Montreal. The contractors have undertaken to waterproof this supply as an experiment without extra cost to the department, and if the coats prove serviceable it is likely both coats and trousers will be waterproofed hereafter.

Controller Wallace says there is no truth in the report sent out from here that about 20 customs officers will be suspended in Montreal shortly.

Premier Bowell evidently thinks that the next elections will result favorably to the Government. He will take a house here next week after boarding at the Russell for nearly ten years.

Hamilton, Ont., Nov. 2.—The Provincial W. C. T. U. convention has re-elected Mrs. May R. Thornley, of London, as president, and Mrs. Rutherford, of Toronto, vice-president. Mrs. Wyle was reelected coresponding secretary and Miss Cosford, recording secretary and Miss Cosford, recording secretary and main paign by the Conservative party. Hon. Messrs. Caron, Foster, Haggart, Montague, Ouimet and Wallace spoke in the evening.

Chatham, N. B., Nov. 2.—Jos. Doherty

Canada. They proposed to do what was reasonable, taking into account the pecuniary resources of the country.

Toronto, Nov. 2.—S. S. Hamilton, father Col. R. B. Hamilton, commandant of the Queen's Own Rifies, is dead. He was born in 1811, and was the oldest native born resident in Toronto.

The Ontario Government in accepting the resignation of the senior professor of the university, E. J. Chapman, who held the chair of mineralogy and geology, grants him an annuity of \$1,800.

James Rayside, ex-M. P. P., for Glengarry, died yesterday.

Chief Justice Meredith refused to hear the case of Moncrieff vs. Preston, in which W. T. R. Preston, late organizer of the Liberal party, is charged with handling money illegally in connection with the late Provincial elections. Justice Meredith was leader of the Opposition at the time of the alleged illegality, and the London Advertiser and Toronto Globe both urged him not to hear the case personally, though the Globe expressed the utmost confidence in his fairness. Preston's lawyer begged that the case might be proceeded with, but Justice Meredith absolutely refused.

Halifax, N. S., Nov. 2.—The steamer Obdam broke her Shaft off Sable Island

Justice Meredith absolutely refused.

Halifax, N. S., Nov. 2.—The steamer Obdam broke her shaft off Sable Island and was taken in tow by the Pennland on Thursday. The Obdam will likely discharge here and dock to receive a new shaft. The Pennland does not require coal, and will proceed at once. The Obdam's passengers will be forwarded by rail. The Obdam broke adrift twice yesterday in a southeast storm. The cable terday in a southeast storm. The cable parted and a new line was got aboard with great difficulty.

NELSON'S ABRIAT, TRAMWAY Nelson, B. C., Nov. 1.—(Special.)—The Hall Mines, Ltd., Aerial Wire Tramway, four and one half miles long, the longe of its kind in the world, constructed by the Cal.fornia Wire Works, of San Franthe Cal.forn's Wire Works, of San Francesco, under the personal supervision of E. O. Parsons, was completed on Wednesday. Yesterday an entirely satisfactory trip, of run was made over the work, in the presence of Sir Joseph Trautch, an eminent engineer of long standing, chairman of the board of directors, H.E. Croasdal'e, Commercial Manager, M.S. Davis, superintendent of the company's mines and many others. Ore was delivered from the famous Silver King mine at the rate of over 10 tons per hour, a result which fully covers the anticipations of the enterprising owners of the valuable property. Paul Johnson, superintendent of the company's smelter, states that it will be completed by the end of the present year. About 100 men are now at work on the plant on the ground.

the ground.

J. Findlay, representing the British
Columbia Iron Works of Vancouver, sold an electric light plant to a company in this town yesterday, and work on installing the same will be proceeded installing the same will be proceeded with immediately.

Business hereabouts is very brisk and the outlook for a good winter season's operations is most encouraging. All the mines being worked are turning out well, and the indications are that everything published concerning Southern Kootenay's immense mineral wealth is likely to be realized.

Symptoms—Moisture; intense itching and stinging; most at night; worse by awasching. If allowed to continue tumors form, which often bleed and lacerate, becoming very socs. Swayne's Olntment stops the Itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mall, or 50 cents. Dr. Swayne & Son, Philaselshiba.

He who rose and roused his household, In the dawning gray, Rises not, not lifts an eyelid All the sunny day.

Fears for Missionaries-The United States London, Nov. 1 .- The Daily News says ed.tor.ally: "The Turks may go too far with the United States. Minister Terrell is not disposed to acquiesce in the Americans being treated like the Armenians."

nians."

United States Minister Terrell has succeeded in moving the Turkish Government to punish the men who murdered the American bicyclist Lenz in Armenia. He has cabled his State department that the has cabled his State department that the Kurds and Armenians who committed the murder will be tried at Erzeroun, and that the United States will be represented at the trial by the British consul of that place. This official was the lirst person to learn of Lenz's murder, and as there is no American consul there he actively interested himself in the case and reported the results of bis investigation to Mr. Terrell.

Constantinople, Nov. 1.—Advices from Marsoven, Asia Minor, say the trouble which was anticipated by U. S. Ambassador Terrell, in the despatch to Washington of August last, has culminated in an attempt to burn the American college there. It is added that the would-be incendiaries have not been discovered. The agitation against Americans at Marsovan began about a year ago, when a number

aginst Americans at marsovan began about a year ago, when a number of pupils of the American college were expelled because their fathers were ac-cused of being implicated in the Arme-nian movement. This caused suspicion to fall upon the professors of the college, five in number, two of whom are American citizens. Mr. Terrell notified the authorities that Washington Gerabed, a naturalized American citizen, had tend a religious service. Garabed was one of the students previously sent from the college, at the request of the Turkish authorities, on the ground that he was connected with the Armenian revolutionists. He was the chief man of the Protestant community at afarsovan and chairman of the Council of Thirty, who are held responsible for the peace of the city. Garabed, however, is said to free been murdered by the revolutionists because he had given the revolutionists had mark at the professors at Marsovan for slaughter long before the Sassoun atrocities were committed. President Tracy and Prof. Riggs, of Marsovan college, were especially cisliked by the revolutionists, and their lives were threatened for having consented to the expulsion of Armerian students suspected of being in sympathy with the revolutionary movement. Eventually a Turkish guard was furnished to the cologe at the request of Mr. Terrell and sil danger seems to have passed, especially in view of the fact that the United States authorities had previously compelled the Turkish Government to pay indemnity as a result of the destruction of one of the school buildings at Marsovan.

Varnia, Bulgaria, Nov. 1 - voording to advices received here from Constantino-

Varnia, Bulgaria, Nov. 1 - voording to advices received here from Constantino-Mrs. May R. Thornley, of London, as president, and Mrs. Rutherford, of Toronto, vice-president. Mrs. Wylle was relelected coresponding secretary and Miss Costord, recording secretary. London, Nov. 2.—The new Conservative fullw was opened yesterday and was made the occasion to start the Dominion campaign by the Conservative party. Hon. Messrs. Caron, Foster, Haggart, Montague, Outmet and Wallace spoke in the evening.

Chatham, N. B., Nov. 2.—Jos. Doherty became involved in a quarrel with four other men on Thursday night. Having got the worst of it at fisticuffs, he procured a gun and shot Arthur Luke, one of his assailants.

Owen Sound, Nov. 2.—The banquet by the Board of Trade is honor of Hon. Messrs. Foster and Outmet, who had come to town to inspect the harbor, was void of political significance, the ministers in their speeches hardly referring to party matters. Outmet said the policy of the Government in relation to the people of Owen Sound would be to still further improve the routes of communication from the Northwest to Eastern Canada. They proposed to do what was reasonable, taking into account the pecularly resources of the country.

Blood Poison

THE BANE OF HUMAN LIFE. Driven Out of the System by

the Use of Ayer's Sarsaparilla

"For five years, I was a great of most persistent ror nive years, I was a great os sufferer from a most persistent blood disease, sone of the various medicines I took being of any chelp whatever. Hoping that change of climate would benefit me, I went to Cuba, to Florida change of climate would benefit me, I went to Cuba, to Florida, and then to Saratoga Springs, where I remained some time drinking the waters. But all was no use. At last, being advised by several friends to try Ayer's Sarsaparilla, I began taking it, and very soon favorable results were manifest. To day I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. To all my friends, and especially young men like myself. I recommend Ayer's Sarsaparilla, if in need of a perfectly reliable blood-purifier. Jose A. Escobar, proprietor Hotel Victoria, Key West, Fla; residence, 352 W. 16th St., New York.
