Indigestion is a trouble that is very common in infancy and e riy, chilchood, and unless prompt measures are taken to control it the result is often very serious. It prevents the proper growth of the child and weakens the constitution, so that he is unable to resist other diseases that are more dangerous. Fortunately, however, the trouble is one that in easily controlled. Proper food—not too much, but absolutely pure—plenty of fresh air, and Baby's Own Tablets, freely administered according to the directions, will soon put the sufferer right, and make both mother and child happy. Mrs. W. E. Bassam, of Kingston, Ont., is one of the many mothers who has proved the fruth of this statement. She says: "When my little girl was about three months old, she, had indigestion very badly. She was vomiting and had diarrhoea almost constantly. She was very thin, weighed one four pounds and although she had pavenous appetite her food did he no good whatever. I had tried several medicines but they did not helper. International Bible Lesson for To-Morrow-The Promise of Power Ful-filled-Acts is., 1-11.

Golden Text—"The promise is unto you and unto your children."

While the Jews and Romans said Jesus was a dead man, His disciples said He lives, and waited on Him in prayer. The feast of Pentecost or first fruits commemorated the giving of the law at Sinia, and occurred when the fields, were white with harvest, a type of the harvest of souls about to be gathered for God. This sacred fire, the Shekina, once rested on Jewish altar, but now rests on believing, obeying and praying disciples. No one present lost the fulness of that blessing, and "devout persons from every present lost the fulness of that bless ing, and "devout persons from every nation under heaven" heard the spirit filled disciples speak, by a divine gif of language, "the wonderful works of God." The human tongue for utter ance, the divine fire for effectiveness Have we had our own Personst fill-ing us with the same spirit?
