

## Woman And The Home

### NEW STREET SUIT HAS A SHORT STON JACKET, FUR-TRIMMED

Here is one of the very latest street gowns with its short modified Eton jacket, cut with the long shoulders and closed with one button in front. The jacket is trimmed with fur which outlines the sleeves and embroidered collar. The skirt is plain and narrow with a double pleat about the hips which simulates a tunic. The waist is of white net and the gown white corduroy with black and white fur. A black velvet hat shows the latest eccentricity of fashion in its abruptly upturned brim.

### GOOD JAPANESE NAKYET

Have you ever tried the experiment of using Japanese napyet? Of course you've often seen the 10-yard bolts of 12-inch wide coarse white cotton printed with a bird, flower or butterfly design in Canton blue. But do you know that one of these bolts may be cut into two sets of 1 1/2-yard strips, and that these placed one lengthwise and two crosswise on your dining room table do quite as well as the conventional cloth and are only half the trouble to handle and to launder? For breakfast and luncheon napkins may be made from squares cut from the bolt, and while these will not do for dinner, white serviettes go nicely with the Japanese scarfing.

Different housekeepers have different ways of finishing the raw ends of the scarf. They may be hemmed like the ordinary napkin, hemstitched or trimmed with a short white cotton fringe. After many launderings, the blue of the printing

### Blinding Headaches From Catarrhal Irritation Now Quickly Cured

The New Inhaler Breathing Treatment Does Away With All This Sort of Thing.

"A stuffy cold in the head, or an old-fashioned attack of Catarrh are simply ancient history to me nowadays," writes S. Nathan Smith, from Cornwall, Ont. "I used to have the worst kind of blinding headaches. They were torture to me on damp days when my Catarrh was bad. I would still perhaps be suffering but for the fact that I saw a friend inhaling Catarrhose with apparent pleasure, and I got the dollar outfit in the Windsor Hotel Pharmacy in Montreal. I could scarcely believe the way Catarrhose cleared out my head. It let me breathe easier than I had breathed for five years. Catarrhose has cleared away every vestige of Catarrh from my system. My breath used to be rank—now it is sweet. My digestion was constantly disordered, but since the catarrh is cured I have no stomach trouble. I am perfectly well and Catarrhose did it all."

For speakers and singers and persons troubled with an irritable throat, bronchitis, asthma, catarrh or la grippe, Catarrhose is of inestimable value.

The inhaler can be carried in your pocket and may be used at any time or at any place.

Large size, guaranteed, and sufficient for 2 months' use, costs \$1; smaller size 50c; sample size, 25c; all stockholders and druggists at The Catarrhose Co., Buffalo, N.Y.

may fade a trifle, but it will never become shabby-looking.

### PEELED QUICKLY

The galley of the battleship Pennsylvania contains an ingenious machine for peeling potatoes. It consists of a large sheetiron cylinder, at the bottom of which is a revolving disk. The whole inner surface of the machine is lined with carborundum grains. When the disk at the bottom is rotated, the potatoes whirl about against the sharp carborundum grains, and a stream of water flowing upon them, flushes off the bits of skin. It takes less than a minute to remove all the skins from a cylindrical of potatoes.

### CHESTNUT PUREE

Substitute for the common mashed potato a chestnut puree, which looks like potato and is a delicious accompaniment to turkey. Boil the chestnuts as usual; mash them or put through a ricer; add a liberal supply of hot cream and butter, season with salt and pepper and butter, season with salt and pepper and add a little very light. A beaten white of egg may be added if desired.

### WORTH KNOWING

The addition of a little soda mixed with a teaspoonful of cornstarch to the cream before pouring it into the tomato mixture, will prevent curdling in the making of creamed tomato soup.

No matter how much dripping is used when being fried is apt to stick to the pan's bottom. If a tablespoonful of dry salt is put into the pan and rubbed over it it will be found satisfactory.

Nuts when bought ready shelled should be scalded, dried in the oven and put away in glass jars.

Use ordinary adhesive plaster for mending a rent in an umbrella. If the umbrella is colored, dye the adhesive tape.

Unightly stitches may be prevented by sewing matting with raffia. Raffia is very strong and may be bought to match almost any kind of matting.

### CARD-CASES OF LINEN

There's a nice little calling gift to make for the woman who carries an embroidered linen bag in the summer time. It is the linen card-case. It may be of white linen, of brown linen or of blue linen—any color, in fact, that one desires. It is made of one piece of goods, 3 1/2 inches wide by 7 inches long. The extreme ends are embroidered in scallops. One end is embroidered straight across with scalloping, while the other end is cut and scalloped to a point, so that it may be used as a flap. The straight end is turned up 2 1/2 inches, and two little side seams are made on either side to form an envelope. This little pocket, thus formed, is then turned inside out, so that the seam edges are concealed within. The pointed scallop flap is then brought over and buttoned to the pocket with a crocheted button. On the upper part of the flap is worked the monogram of the one for whom the little gift is intended.

### PAINTED INSIDE

Much is gained if instead of making linings or pads for the bureau drawers the drawers themselves are made dainty, writes a contributor. I first give the inside as many coats of white as is necessary to give a clear white tone, and then a coat of white enamel. This gives a smooth surface, which is fresher than any other lining could be. The drawers look neat and attractive, and when cleaning is desired a simple wiping with a damp cloth suffices. I have carried out the same plan with all the shelves, cupboards, and drawers in the house, whether for linen, china, or kitchen utensils, and find them more easily cared for than when arranged with other covers. This really makes a good substitute for the highly recommended glass shelves.

### WOMAN'S ADVANCE

Kansas has 275,000 women voters. Michigan has 100,000 women taxpayers.

Kansas women are asking that they have equal property rights with their husbands.

Women form about 25 per cent of the total immigration into the United States.

The National Suffrage Association has doubled its membership in the last year. Of the 90,000 trades union women in New York city, 80 per cent are foreigners.

In Oregon the law fixes a minimum wage of \$9.25 a week for adult women clerks.

### GRANDMOTHER OF RUSSIAN REVOLT AGAIN FAILS IN ATTEMPT TO ESCAPE

This is Mme. Catherine Breshkorskaya, who is called the "grandmother of the Russian revolution," who was unsuccessful in her third attempt to make her escape from Siberia. She is nearly seventy years old, but retains the fiery energy of youth and is considered a most dangerous woman to be at large in Russia.

### STORES IN THE DESK

The housekeeper's desk should be equipped with all sorts of tags and labels. The boxes fitted out with various labels, clips, elastic bands, paste and twine are convenient, but the supplies can be bought separately at smaller expense. There should be plenty of note paper and pens and pencils and ink. There should be a small card index, if that is found helpful, which gives the location of everything in the desk. There should be notebooks and bill files. There should be a telephone book and a book of addresses, plenty of stamps, sharp scissors and a penknife, a paper opener, manila and paste, cement, a tape measure, a sewing kit, and dozens of other little things that every woman wants when she is planning the week's menu or a new wardrobe, or when she comes hurriedly to mend a piece of china.

### VEGETABLE BAGS

Bags made of cheesecloth may be used to put celery, tomatoes, lettuce and other fresh vegetables in before placing in refrigerator. Dampened, they keep the vegetables fresh and the ice box clean. They can be put into the weekly wash. They will sell readily at fairs or to home customers. Make assorted sizes and sell six of them for 50 cents.

## AT THE CHURCHES

### ANGELICAN

St. Matthew's Church—Corner Princess avenue and Eleventh street, Morning service 11 a.m.; Sunday school, 3 p.m.; Evening service, 7 p.m. Rev. A. Kennedy will preach at both services. Sunday school will be held in the body of the church.

## The Gurney-Oxford

### Attracts Madam To The Kitchen

THE GURNEY-OXFORD has a large following of fashionable cooks who dip into the culinary art simply for the pleasure they derive from trying dainty recipes previously not attempted. They are all most enthusiastic supporters of the Gurney-Oxford because it contains many exclusive devices that make a perfect cooking equipment.

Its oven is evenly heated in every corner to insure deliciously dainty cakes, golden brown biscuits, and light flaky pastry. A special Divided Flue carries the heat to every hole on the range. The top is perfectly smooth and clean, requiring no black lead polish.

But most important is the Economizer. It is a small lever that moves around a series of six notches giving the exact degree of heat required for any particular dish. The heat of the range can be shut off and the kitchen kept cool between meals by turning the lever to a certain number.

The fire is held at a low ebb on a special Reversible Grate until a baking oven is required. Then the necessary heat can be obtained quickly by simply turning the Economizer lever to another notch.

Such control as this enables many smart women to invent some very tempting dishes which they set triumphantly before their friends. It will pay you to investigate the Gurney-Oxford.
