

A COAL MINER'S RESCUE.

THE STORY OF A WORKER IN THE WESTVILLE, N. S., MINE.

Suffered From Asthma and Indigestion—Unable to Work for Eight Long Months—He Has Now Regained Complete Health and Strength.

From the Stellation, N. S., Journal.

Faith doesn't come to all by hearing. With many seeing is believing. Many when they read of what has been effected in other parts of the country may shake their heads with an incredulous air. To satisfy such people it is necessary to bring the matter home; to show it to them at their own doors. The people of this country may not have heard, or only know little about the places where good has been effected by the use of the medicine, the name of which is on everybody's lips, but they have heard of Westville, the second most populous town in the county, and people far and near have heard of the mining town where in 73, twenty years ago, fifty lives were lost by an explosion in a mine, and the people of these provinces know it to-day as the place from which they drew their supply of fuel.

Hearing of a cure that had been effected in Westville through the agency of Dr. Williams' Pink Pills, a journal reporter thought it might be of general interest to ascertain the particulars. So to Westville he went, and called at the home of Mr. Thos. McMillan, who is known to every man, woman and child in the place, having taken up his home there twenty years ago. Mr. McMillan was not to be seen at the time, unless our reporter sought him at a distance of between three and four thousand feet underground, in one of the deepest coal mines on the continent where he was at work. Mr. McMillan was at home, however, and when informed of the object of the reporter's visit, said he could give all the information necessary—and she gave it freely.

"Yes," said she, "Tom was a very sick man, so sick that he was unable to work for eight months—a long time wasn't it?" she said by way of question. "He had been sick more or less for about a year. He was like a great many miners who had to work in poor air, troubled with the asthma and, as you know, he couldn't eat and was of course did not thrive. He lost flesh gradually and he gradually became so weak that he was unable to work. After he had been sick for some months we read of Dr. Williams' Pink Pills. We talked the matter over and it was agreed to give the Pink Pills a trial—and it was a blessing we did. After he began to take the pills he felt himself gradually gaining strength. By degrees his appetite returned and with it his strength, and by the time he had taken six boxes he considered himself a well man. At this time he returned to his work in the mine, but he continued taking the Pink Pills for some time, to make sure that the trouble was driven out of his system. He can now work steadily and is as strong and healthy as he ever was. We are both so pleased with the great good this remedy did him that we never fail to recommend it to any sick acquaintance. This statement is true, and he is voluntarily giving because my husband has been benefited by reading the statement of another, and so some one else may be benefited by knowing what they have done for him."

"Dr. Williams' Pink Pills are a specific for all diseases arising from an impoverished condition of the blood or a shattered condition of the nervous forces such as St. Vitus' dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of a grippe, loss of appetite, headache, dizziness, chronic neuralgia, scrofula, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities and suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, over-exertion or excesses of any nature. These pills are not a purgative medicine. They contain only life giving properties, and nothing that could injure the most delicate system."

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper, (printed in red ink.) Bear in mind that they are never sold in bulk or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Ask your dealer for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes."

Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y., at 50 cents a box, or six boxes for \$2.50. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment."

NEWS NOTES.

PITTSFIELD, Mass., June 10.—The stallion Kremlin on Friday, trotted half a mile in one minute on the Allen farm track. His record was 2:07 3/4.

Mexico will issue in September a new series of postage stamps which will interest philatelists. It is the first series of pictorial stamps issued by that country. They will be in the usual denominations, one cent, two cent, four cent, five cent and ten cent, and will represent by cleverly executed drawings the various stages of Mexican mail transportation, showing the motive power of man, burro, stage and steam train.

A habeas corpus was yesterday applied for at chambers to discharge Henry Jackson from Rockhead, J. T. Bulmer in making the application said that it was on the docket last Tuesday, but when it was called he himself needed a habeas corpus and could not get to court to attend to it. He intimated to the court that it would be necessary hereafter, whenever he was absent, to send around and find just what jail he was in. Judge Henry and the barristers enjoyed the joke immensely.

CHICAGO, June 9.—A 10 per cent dividend on stock of the World's Columbian Exposition was distributed to-day, representing about \$800,000. Of this amount between \$600,000 and \$700,000 went to individual holders of stock and the remainder to the city of Chicago. A final dividend of 2 per cent may be declared before the exposition is wound up. There are a large number of claims pending against the exposition, and also some claims in favor of the exposition against concessionaires and others.

An old woman who owned a half acre of ground at Nenagh, County Tipperary, died without leaving a relative.

Her neighbors quarrelled on Saturday over the inspection of her land. Some thirty men fought with scythes and

pitchforks round her hut. Eventually they broke down the door, upon the body, beat each other with the candles which stood round the body, killed five, and several others were severely wounded. A farmer named Dwyer, near Nenagh was killed in an agrarian quarrel on Friday.

WEXFORD, June 10.—A fatal accident occurred this afternoon to the through Canadian Pacific express near Fort William. A burning bridge gave way under a train and four cars were precipitated into the River Mattawa. The cars took fire from the bridge and were consumed with all the mail and express matter. Mrs. Barker of Elkhorn, Man., was drowned and express messenger Brown, of Toronto, is missing. It also feared two others are drowned. Among the injured are Mrs. Bice, of Middleville, Mich., badly injured; Brennan Whitehead, seriously injured; engineer Elmes, slightly injured.

VANCOUVER, B. C., June 9.—There is but little change in the flood districts. Reports from all points on the Fraser and Thompson rivers show a rise of from several inches to one foot. At Katz lowering waters are reported for the past 24 hours. At Mission City and New Westminster there has been a falling of three inches. The only damage done lately was at Westham Island. London's wharf was swept away and the water a few minutes later forced a way through the dyke carrying 600 feet away. Several farms were cut off to the depth of three feet. The stock was saved. The crops are seriously damaged. Some valuable improvements were destroyed. Many are of the opinion that the worst of the flood has been experienced. The total acreage under water is approximately estimated at about 150,000,000. The only distress reported so far is from Barnston Island, where 150 families are said to be destitute. Steps are being taken to afford them relief. Dominion Day celebrations will be abandoned and the money appropriated for the purpose will go to the relief fund, except in Vancouver, which will celebrate as usual. Great indignation is felt here over the false reports sent out from Vancouver that an excursion train had been wrecked on the C. P. R. and 400 lives lost. Travel is, of course, greatly impeded and at present no trains are running. The floods caused a number of washouts on the Pacific Coast section of the Canadian Pacific, but there has not been a railway accident of any kind since the beginning of the flood.

DENVER, Col., June 8.—A Cripple Creek special says the miners are demoralized and fleeing from Bull Hill. The deputies are moving in squads of 300 and have so far met with no resistance. The only danger seems to be that the strikers may explode some hidden dynamite under them, but resistance is doubted. Governor White is violently angry at the inactivity of the militia and does not deny he sent it to all strikers.

OTTAWA, June 9.—J. G. Forbes is here, and with members from eastern Nova Scotia and Cape Breton will meet the council on Monday at eleven to urge the claims of Terminal City for the fast Atlantic service. He wants the government to leave the Canadian terminus an open question and has petitions from thousands in Antigonish and Guysboro counties urging this proposal. Senator Ogilvie and the wealthy Americans who own Terminal City will see Huddart and offer to build hotels, wharves, warehouses, breakwaters elevators and other improvements to make the port a first class one of the world use it. They say the harbor is the finest in the Maritime Provinces and is open all the year round. It is only 2,200 miles from England and with railway facilities new nearing completion is secured within three miles for \$2 a ton. Mr. Forbes expects Sir John Thompson to visit the city and believes his project will be adopted, and if it is that Terminal City will be able to offer advantages superior to any other port, there being besides the facilities mentioned no harbor or pilotage fees.—Globe.

now and their practice when in power. He also contrasted the land policies of the two parties and the results achieved, and pointed out the superiority of the land policy in force in Canada with the policy of the United States, to which Charlton was continually referring.

After recess Mr. Daly concluded his speech, and was followed by Messrs. Martin, Davis, and Miller of Bonaventure. The house divided at one o'clock when Charlton's amendment was defeated, 47 years to 100 nays.

The house then adjourned.

Mr. Gillies gives notice of the following enquiry of ministry: In their negotiations with Mr. Huddart and others touching any possible port in Canada to be selected as a terminus for the special Atlantic service, were the government influenced by the fact that a special committee of the house of commons in the session of 1874 appointed for the purpose of "inquiring into the best and most direct route for the conveyance of passengers and mails between the Dominion of Canada and Europe, and of finding on the shores of the dominion a harbor accessible both in winter and summer to be the terminus of such a shortest route," reported to the house of commons that the harbor of Louisbourg, Cape Breton, was always accessible, commodious and safe and nearer Europe by several hours than any other port in Canada.

Sir Charles H. Tupper gives notice of a resolution giving the government power to collect inspection fees from steamboats. It has been found necessary to do this in order to settle certain doubts that have arisen about the validity of the present inspection fees.

OTTAWA, June 8.—The house of commons spent nearly the whole day in conference. That is, the tariff resolution, including the tariff item by item, was read by the speaker and about a dozen members on each side and each item carried in.

After recess all the private bills on the notice paper were advanced a stage, including the bill to incorporate the Nova Scotia Steel company, which was read a second time.

Mr. Kaubach gives notice of an order for a return giving the names and tonnage of United States fishing vessels licensed under the modus vivendi with France since 1887. Also dates of departure and return of each vessel, and the names of the crews.

The following members of the New Brunswick bar have been created Queen's counsel: Solicitor General White, Messrs. Hazen, Cursey and Quigley of St. John, and Wesley Vanant of Fredericton. The following B. E. Lancers have been similarly honored: Attorney General Peters and Messrs. Hayward, Morson, Stewart and Angus McLean.

NEW BRUNSWICK.

Officer Collins of the I. C. R. makes an important arrest.

St. John, N. B., April 6, 1894.—Few men are better known to the travelling public in the provinces than officer John Collins, the courteous and obliging giant who with officer Stevens preserves order and gives information to puzzled travellers at the I. C. R., depot in St. John. His friends will be interested to learn that officer Collins some time since effected an arrest which had baffled him for twelve years. The story is best told in a letter which he wrote to the Hawker Medicine Co., and which is as follows:—

"Dear Sir:—I take much pleasure in strongly recommending your Hawker nerve and stomach tonic and liver pills, for twelve years I have suffered with a weak stomach, and I was generally run down with chronic dyspepsia, when I was advised to try Hawker's nerve and stomach tonic and Hawker's liver pills. They were the first medicine that has ever given me relief, and they effectually cured me, when all other failed.

Yours etc,

JOHN COLLINS.

Fellow sufferer here is encouragement for you. Hawker's nerve and stomach tonic is a perfect nerve restorer and invigorator, and blood and flesh-builder, as well as a valuable stomach tonic and aid to digestion. It is a certain cure when faithfully used for all diseases arising from nerve exhaustion, weakened or impaired digestion, or an impoverished or impure condition of the blood, such as nervousness, weakness, loss of appetite, dyspepsia, hysteria, and the prostrating effects of a gripe or any nerve weakness of heart or brain arising from worry, overstrain of mind or body or excesses of any nature. Hawker's tonic is especially adapted to the diseases peculiar to women, giving tone to the nerves and stomach, vigor to the mind and body, and strength to the blood, restoring the bloom of health to the pale and delicate. Hawker's nerve and stomach tonic and Hawker's liver pills can be obtained from all druggists and dealers. Tonic fifty cents a bottle or six bottles for \$5.00; Pills 25 cents a box.

Full Operation.
