"We will have to do something to stop this prohibition wave," said the rotund distiller, as he pondered the table full of way the those hypocrites are fooling the people. They claim that prohibition pro- hibits, when I, a distiller, can show you by the internal revenue receipts that the consumption of liquor is twenty per cent. more than it was ten years ago. Al- most all the countries of the nation that are prohibition now permitted the liquor traffic then."

"In this case," said the man with a forehead resembling a mountain slope, "why in the world don't you favor pro- hibition?"—Judge.

DUN'S REVIEW.

Favorable industrial conditions remain unchanged and new production is now proceeding at a rapid rate. The cotton crop of the West has been a failure, and the people are concerned things actually produced and imported. The cotton crop of the West has been a failure, and the people are concerned things actually produced and imported.

FAILURES LAST WEEK.

Failures in the United States number 28 against 20 last week, 23 the preceding week and 25 last year. Of failures in the United States, 12 last week were in the East, 50 South, 62 West and 13 in the Pacific States, and 78 report liabilities of \$1,500,000 more, against 72 last week and 112 of commercial failures thus far reported for November are \$7,402,089 against \$9,347,939 for the same period last year.

COBALT STOCKS.

The mining market showed little activity in Toronto on Saturday, the only feature of interest being a sharp rally in La Rose, which went to 4.00 on the Toronto board, and as high as 4.85 in New York. There was little of the stock offered on the Standard, where prices ruled somewhat lower. Rochester was again the most active stock there, but the price varied very little, being maintained around 19. Nipissing touched 10.0 for a broken bid. The situation is believed to be favorable for higher prices, as stocks have been pretty well picked up and are rather scarce. A slight influx of buying orders will be sufficient to cause a general upward movement.

It Pays to Go to School.

The table prepared by the Massachusetts State Board of Education shows the weekly earnings of children who left school at 14 until the end of their twenty-fifth year. Those who left school at 12 began at \$4 a week and at the end of the twenty-fifth year were receiving \$12.75 a week.

Those from the high school began at a 10 a week and at 25 were receiving \$31 a week. The total earnings of the elementary schoolboy in the twelve years was \$5,722.50, while those of the high schoolboy in the eight years were \$7,377.50.—Educational Review.

Free Gas Lamps

What does this proposition mean to the Hamilton store man? It means a complete saving in the cost of fixtures. It means no outlay for mantle renewals or for cleaning. It means less money for lighting bills and it means a much more attractive place of business.
