Seize the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike.

He declares that gold is of little value in comparison with this marvelous cure.

It is unfortunate that no one appears to have taken sufficient notice of the three men as to be of material assistance to the police in running them down.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, headache, nervousness, headache, dizziness, fainting, run-down feeling.

It is a great drawing card. Every body in the province who possibly can will want to see Sanborn's famous string of French horses.

The St. John exhibition is now on, and in the general display as well as special features surpasses all its predecessors.

Every inch of space in the industrial and agricultural building is taken up. All the space for live stock is taken up, and new quarters for the entire show exhibit had to be provided.

A special feature is the C. P. R. exhibit of grain, grasses and other products along its line, occupying 2,000 feet of space.

The Nappan experimental farm makes a fine exhibit of trout and other fish from lakes and streams, and a complete line of New Brunswick poultry.

Every body in the province who possibly can will want to see Sanborn's famous string of French horses.

It is unfortunate that no one appears to have taken sufficient notice of the three men as to be of material assistance to the police in running them down.

Killed By a Train.

PARRISBORO, N. S., Sept. 5.—William Booth, aged fifty-five, a miner from Springfield, fell from the picnic train near Lakeland last night and was killed by the train running over him.
