The learned judge then made the order as asked. The writ of certiforari is to be taken out at once, and should there be no hitch in the proceedings it is probable that the interesting question of the validity of this verdict will be argued next week.

THE POULTRY SHOW.

A Successful Exhibition Held in Torente,

The poultry show held here under the suspices of the Onterio Poultry Association has been a most successful affair, the entries being very numerous. The attendance of visitors was all that could be expected, and the awards of the judges mest satisfactory. The exhibition opened this day week, and will be closed to morrow, when the exhibitors will be busily engaged packing un for their respective homes. Many of the birds brought here have changed hands, and in this respect the show has been beneficial, as poultry fanciers were not only anabled to exchange views but also procure other strains wherewith to improve their hennerics.

The display of ducks was a rare one, including Rouse, Aylesbury, and Pekin, Bogue, of London, carrying off most of the prizes.

James Main, of Boyne, made a fine display of bronze turkeys, one of last year's breeding being several feet high. He was also a successful exhibitors of Bremen and Tautouse geese.

Games were well represented, G. Goulding, of Parkdale exhibiting a pair of Pyles valued at \$150, which carried of first prizes. Gibb of Guelph, was very successful with his exhibits.

Dorkings occupied some prominence by their numbers. Hogue captured firsts for whites; Mana, firsts for Silver Greys and coloured; W. M. Smith taking miner prizes. There were 65 entries of Polands, Bogue being successful as a prize winner for Silvers, Golden Spangled, and White Created Blacks.

For the first time Langshans were on exhibition, and it is probable that this fine black Asiatic breed will receive greater prominence in the future, as they are said to be serviceable at layers and table birds.

A pair of Andalusians attracted considerable attention. They resemble White Leghorns somewhat, only that they are of a buff colour.

Plymouth Roeks appeared to be favouritee with many of the poultry raisers, as they

colour.

Plymouth Rocks appeared to be favourities with many of the poultry raisers, as they were numerous, and all of them fine large hieds.

In pigeons there was a very large display, a pair of Dun Carriers, the property of Welden, of London, being valued at \$425, which price was recently paid for them in Birmingham, Englahd, where they were successfully shown.

On Tuesday the annual meeting of the association was held and was largely attended.

President—Mr. Thomas Gowdie, Guelph. First Vice-President—Mr. Allan Boag, London.
Second Vice-President—Mr. J. Fullerton, Strathroy.

At a subsequent meeting of the Board of Directors Mr. Geo. Morton, of Guelph, was chosen as secretary-treasurer.

Bible?

Each person competing must send Firry Cenrs with their answers, for which the Ladice' Journal will be sent to any desired address for one year. Each question must be answered correctly in order to secure a prize. The competition will only remain open till 20th February. The names and addresses of prize-winners, together with the correct answers, will be published in the March issue of the Ladice' Journal. The publisher says the prizes will be awarded without favour or partiality. If any of our readers think of competing, the address is Editor Ladice' Journal, Toronto, Canada. A large sum of money must have been spent in obtaining these prizes, and the publisher says:—"It is only in order to get the Journal talked about, and to interest people in the study of the Bible that these prizes are offered." These questions are submitted by the Rev. E. B. Harper, D. D., a leading minister of the Canada Methodist Church. Names and address of prize winners in former competition are given in the February number of the Journal. Remittances had better be made by post-office order, scrip, or small coin.
