

You Cannot Store Up Natural Gas

Moderate winds mostly fair and very warm today and on Tuesday.

Natural gas is very "volatile" and containers on the earth's surface would cost too much.

It can be brought to the consumer at low cost only by piping it direct from Nature's storehouse.

Nature's storehouse is hidden. We can't tell when the gas is going to "run out."

Use it as if this were the last day you would enjoy its benefits. Then, at least, you'll have it longer.

ALTHOUGH NATURAL GAS IS CHEAP, DO NOT WASTE IT. THE SUPPLY IS NOT EVERLASTING.

GRIMSBY CLEANINGS

Charge of Cruelty to Animals Against Nicholls Withdrawn

GRIMSBY, June 16.—A big delegation of Caistorites came into town Saturday afternoon with the full expectation of listening to a little petty squabble over a horse, and when there is a horse in the case, then everything else can go by the boards in Caistor. Morley Merritt, of South Grimsby, loaned a horse to D. W. Nicholls, J.P. of Caistor, for the season's work. Merritt claimed the animal was being abused and worked with a number of large sores on its shoulder and legs, so information was laid with Humane Inspector Berlinghoff of Hamilton, against Nicholls. The case came before J. P. Livingston yesterday afternoon, who advised all parties concerned to get together with him and effect a settlement. He emphasized the fact that all were neighbors and if he had to make a decision in the matter, it would engender a feeling of bitterness among all concerned that would take a long time to wipe out, though if a decision was necessary, he would give it. A compromise was therefore arrived at, each of the parties paying his own costs, and the charges being withdrawn.

DESERVES GOLD MEDAL FOR THIS

Cincinnati authority tells how to dry up a corn so it lifts out.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezezone applied directly on a tender, aching corn stops soreness at once and softens the corn loosens so it can be lifted out, root and all, without pain.

A quarter of an ounce of freezezone costs very little at any drug store, but is sufficient to take off every hard, or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

SEDITION AND FREE DISCUSSION

(Toronto Star) The Canadian law relating to sedition is to be amended. The Solicitor General of Canada says that many people in Canada do not understand the meaning of the word "sedition." In Great Britain a seditious intention has been defined as "One to bring into hatred or contempt or to establish discontent against the person of His Majesty or the Government and constitution of the United Kingdom or of any part of it as by law established, or either House of Parliament or the administration of justice, or to incite any of His Majesty's subjects to procure by unlawful means any alteration in the Church or State, or to promote feelings of ill will or dissension amongst them."

Evidently, this definition needs to be defined. It might be interpreted so as to prevent the free criticism of a Government or of the Senate or House of Commons. Many persons are now exceedingly dissatisfied with the Senate and would like to see it reformed or abolished. Such criticism is perfectly legitimate and should be allowed. Governments have also been fiercely attacked as corrupt or incompetent. Adverse criticism is sometimes rough, unjust or exaggerated, but it is generally felt that it is best to allow perfect freedom. Unfair or untrue statements may be answered and exaggeration discredits those who are guilty of it.

It ought also to be open to anyone to propose alterations in the constitution, so long as there is no incitement to use "unlawful means." In other words, it must be made clear that sedition means rebellion and that no one will be allowed to propose rebellion or the use of force or violence. More than once the constitution and Government of Canada have been changed—as when Upper and Lower Canada were separated in 1791 and united again half a century later; when responsible government was granted—as when the Provinces were confederated in 1867.

It probably never was intended to forbid the free discussion of such changes as these. But the law should be made clear and the distinction between violence and peaceful methods clearly drawn. In Great Britain during the Napoleonic wars and for some time afterwards men were prosecuted and severely punished for advocating such measures as the reform and extension of the franchise. Nature and the Indian

The Indian never liked work but he wanted his squaw to get well as soon as possible so that she could do the work and let him hunt, therefore he dug popoos root for her, for that was their great remedy for female weaknesses.

Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription" skillfully combined with other agents that make it more effective.

Women who are worn out, who suffer from pain at regular or irregular intervals, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic which a doctor in active practice prescribed many years ago. Now sold by druggists, in tablets and liquid, as Dr. Pierce's Favorite Prescription.

Woodstock, Ont.—I cannot say enough in praise of Dr. Pierce's Medicines. I had nervous prostration and was completely "down and out." I was so bad the doctors considered mine a hopeless case. I was much discouraged and was ready to give up when I began taking the "Favorite Prescription" and the Golden Medical Discovery. These medicines put me on my feet again and gave me the only real relief. Ever since I have recommended Dr. Pierce's Medicines to many specially the "Favorite Prescription." I know of many a young mother to whom I have recommended "Favorite Prescription" that has been wonderfully helped.

I am glad to lend my name in connection with Dr. Pierce's Medicines, knowing how good they are.—Mrs. A. L. MILLER, 610 John Street.

or panic stricken judges interpreted the law so as to prevent the free and wholesome expression of public opinion and the advocacy of reform. The law should be so clear and definite that sedition cannot be confused with vigorous criticism and advocacy of reform.

NEW YORK MARKETS

Weekly Review of Wall Street Conditions
NEW YORK, June 16.—Trading on the Stock Exchange last week was influenced by the money situation. The Federal Reserve Board's inquiry provoked heavy liquidation on Tuesday and on each succeeding day there was a rise in call money rates, serving further to depress prices, which receded from five to thirty points among those specialties which had for a long time been leaders on the advance, notably oils, shippings and motors. The decline was influenced in part by belief that the speculation on the long side had been over extended and that the market was ripe for a downward reaction from the recent high levels and there was much of realizing and professional short selling.
