PERKINS & STERNS

PREPARE FOR COLD WEATHER By Having Your House Thoroughly Heated.

WE are now prepared to put this popular system of Heating into Dwellings, Stores and Buildings of every description. With our present facilities we can guarantee work second to none in the Province. We use the Gurney Hot Water Boiler, which, for simplicity, economy and durability cannot be excelled. There are thousands of them in use and working satisfactorily. We can supply other Boilers if required. The following testimonials speak for themselves:

MESSRS. A. WHITE & SON: DEAR SIRS,—After giving the Hot-Water Heating Apparatus you placed in my house in the fall of 1885 a pretty thorough test, I have arrived at the conclusion that your system is the right one, and much superior to steam, which I use in my office. The heat is very steady and pleasant, caused, no doubt, from the atmosphere in each department being heated without disagreeable drafts of any kind. On the important score of economy I do not think anyone could complain, as it seems unimportant what grade of coal is used.

Wishing you every success in your line of business, I am yours truly, Summerside, August 1, 1887.

MESSES. A. WHITE & SON: I have much pleasure in giving my unqualified approval of the Gurney Hot Water Boiler placed in my house two years ago. It has given me great satisfaction, and I can recommend it to anyone wanting a thoroughly good heating apparatus. I have used hard coal in it until lately, when I changed to soft, and find it quite as satisfactory. I intend to use the soft coal in future.

Yours truly.
