The beginning of
"Paisley Flour"
The SURE raising powder
was when Brown & Polson discovered
that the addition of a proportion of their
Corn Flour to the ordinary flour when
making scones, buns, pastry and cakes,
made a great improvement in added
lightness, fineness and digestibility.
To the Corn Flour were added rais-
ing ingredients of the highest purity,
resulting in the production of a new
raising powder, which by its ease in
use and improved results has marked
an advance in home baking.
Paisley Flour—the sure raising powder—is sold
in 2, 4, 8 and 16 cent tins, ready to mix 1 part to 8 parts of
ordinary flour. The 2-cent tin will raise 7 lbs. flour.
