J. J. ST. JOHN.
DUCKWORTH STREET.

DEAR SIR.—Photography is now being recognized as a method in Education too valuable to overlook.

More and more are we turning to Nature, because we recognize for the first time in the history of the world that we are a part of Nature. We are Nature. And the more we love Nature, the more we understand her, the stronger, the healthier, the happier, the saner we are.

The Camera brings us very close to Nature. It makes us feel our kinship with the Infinite.

The Camera habit isn't a passing fad. More and more it is becoming fixed in the heart of the race.

Yours faithfully,
