Governor Emin Pasha.

London, Jan. 7.—The Standard's Berlin correspondent says it appears settled that Emin Pasha is to be governor of the western portion of German East Africa, including the lake territory, and Herr Von Soden is to be governor of the remainder. Baron Wissmann will probably retire or be sent to settle affairs in West Africa. He is displeased because he was not appointed head of the new colonial department.

Revolution in the Vatican.

London, Jan. 8.—A remarkable domestic revolution was effected in the Vatican Monday. Every Italian in the service of the Papal domestics, both in the interior and in the ante-chamber, have been transferred to foreigners. This is in consequence of an inquiry that showed that Signor Crispi had secret agents among the people employed in the Vatican.

Better Business.

London, Jan. 8.—On the street yesterday afternoon, after the closing of the Stock Exchange, prices became the firmest they had been during the day. This increase of strength was due to reports of an influx of gold to the Bank of England, and rumors that the finances of the Buenos Ayres waterworks undertaking have been satisfactorily arranged with the Argentine Government in such a way that the amount of the Barings' liabilities is reduced by several millions.

Rome, Jan. 8.—A terrible snowstorm, accompanied by winds of hurricane force, has been raging since this morning on the Gulf of Trieste and along its shores. The storm extended from Capo d'Istria to Venice. The severest cold weather known to the present generation now prevails in the olive-growing region of Italy. A violent rain storm, accompanied by lightning, descended upon the city this evening. The palace of the Propaganda was struck by lightning.

Typus Fever in Florence.

ROME, Jan. 8.—An epidemic of typus fever is playing havoe in Florence. Ninety persons have died within a few days from this disease, and one regiment has had every man but four on its roster sick at one time with it. One hundred wells in the neighborhood have been analyzed, and 90 were found to be infected. Orders have been issued to boil the water before using. The Auglo-American colony is panic-stricken, and almost all have left the city.

The Behring Sea Dispute.

London, Jan. 8.—Sir Edward Clark, Solicitor-General, speaking at Plymouth, said, with reference to the Behring Sea dispute, that Lord Salisbury was only asserting a doctrine laid down by the United States Governmentyears ago, namely, that no nation could claim sovereignty over the open sea. Hostilities between England and the United States, said Sir Edward, would shock the conscience of the world, and even the contemplation of such hostilities would be an outrage upon civilization and human, ity. "It is to be hoped that Lord Salisbury's offer will the accepted; thut, if an English vessel is seized on the high seas and violence is used toward British subjects, one fatal half hour would put it beyond the power of the two countries to settle the difficulty by arbitration."

Cold Weather in London.

London, Jan. 8.—The new year has not opened auspiciously in London. Twenty-three days of continuous frost, the mercury at times reaching within 5° of zero, has given the population a better conception of rigorous weather than they previously possessed. No such winter has been known in England since 1830. Hares, rabbits, pheasants and wild birds generally are dying by tens of thousands. Seagulls are seeking shelter in London, hugging close to chimney stacks for warmth, but frequently perishing from hunger and exhaustion. Great hummocks of snow-covered ice are floating down the Thames, and piles of snow in every thoroughfare outside the main city, avenues give London the appearance of an arctic city. Upper reaches of the Thames River are entirely frozen, and at Windsor and Walton fairs on the ice have been organized. Bullocks and sheep have been rosated, stalls have been erected for the sale of goods, and numerous ice picalies have been carried out. On the frozen Cold Weather in London.

waters of the London parks over 100,000 people disport themselves on skates daily. The curious feature about this severe winter is that it is confined to London and the Seyond one or two southeast of England. Beyond one or two sharp bursts of frost, Irelard and Scotland have been favored with comparatively mild weather.

Ized statement has been present at the conference here. They announce that the conference terminated to-day, and that both parties have resolved that the proceedings should be regarded as of a confidential nature. It is understood, however, that an arrangement satisfactory to all has been arrived at. The exact nature of this arrangement must leak out in course of time. The number of erroneous statements made in regard to the Boulogue conference have made the Irish leaders more careful of their utterances.

made the Irish leaders more careful of their utterances.

London, Jan. 8.—A conference of the McCarthyites was held yesterday at the National Liberal Club. The news received from Boulogne in regard to the conference there between the Irith leaders was satisfactory, both to the McCarthyites and the members of the club. A majority of the National Liberals express themselves as having no fear of the McCarthites as having no fear of the McCarthyites and the McCarthyi

A Boulogne dispatch says: Messrs. Parnell, Clancey, Redmond, Campbell, Scully and Harrington have returned to England. Wm. O'Brien remains here for a few days. It is understood he has been in communication with Justin McCarthy. Later advices from Boulogne say Mr. O'Brien, at his own request, has been empowered to ask Mr. McCarthy to retire from the chairmanship of the anti-Parnell section of the Irish party in favor of John Dillon, or, if Mr. O'Brien prefers, in favor of himself. Mr. O'Brien announces that his conferences with Mr. Parnell are finished. The negotiations with Mr. Mc. Carthy will follow.

A Boy Dies from Drinking Whisky.

CARLISLE, Pa., Jan. 7.—At Bowmansdale, this county, on Saturday night, four young men got a lot of whisky on a prescription and drank it. Harry Stouffer, aged 17 years, has died from the effects, and another of the party named Weaver laid out in the cold and was so badly frozen that both legs must be amputated.

Murdered His Young Wife.

San Francisco, Cal., Jan. 7.—Robert De Rose, aged 27, last night killed his wife, Elizabeth, aged 22, at a lodging-house on Hess street. Mrs. De Rose deserted her husband and became a chorus girl at the Bijou Theater. She roomed with an actor named Mitchell. De Rose called at the house last night, and, seizing Mitchell's pistol, which was on a table, shot her in the back. De Rose was arrested.

The Bishop Was Fined.

Detroit, Jan. 7.—In the Recorder's Court Bishop A. J. B. Jenner was convicted of cutting down sixteen shade trees near the corner of Woodward and Willis avenues, in violation of a city ordinance, and fined \$25, to be paid within twenty days. His defense was that the trees interfered with the approach to his residence, were decaying and unhealthy, and that he was ignorant of the law. The court, in convicting him, found that there was nothing malicious in his conduct.

Cecil Clay's Bad Fall.

New York, Jan. 7.—At the rehearsal of The Silver Shield' at the Madison Square Theater by the Rosina Vokes company Cecil Clay, Miss Vokes' husband, disappeared abruptly, and with a crash, through the shaft of the lift back of the stage, which is used to hoist stage settings to the property room in the dome. He had stepped upon the lift inadvertently, and it went down seven feet with him. He dislocated his ankle. It was a painful injury. Mr. Clay was taken to the St. James Hotel.

THE WORLD OF WORK.

Terrible Accident in a California Mine

Eight Men Rilled.

San Andreas, Cal., Jan. 8.—An accident occurred on Tuesday in the north shaft of the Utica mine, at Angel's Camp, which resulted in the death of eight men. The skip with the miners aboard was coming up for dinner. When within 150 feet of the top of the shaft the cable parted at the reel, letting the men, skip and 100 feet of cable fall into the sump at the bottom of the shaft, a distance of 450 feet.

The names of those killed are: Joe Carter, William Case, Dan Dennison, Tom Conovish, John Demarris, Dave McCann, P. Trupich, J. Bristano. Four of them are married and have families. The bodies presented a sickening sight, being fearfully mutilated, one being found without any head and another with half the body and lower limbs. The sump contained about fourteen feet of water. Four bodies have already been recovered, three of which were recognized as Joe Carter, Wm. Case and Dan Dennison. It is but a little over a year ago that a cave-in occurred in the same mine, burrying sixteen men, and the slow work of recovering their bodies had nearly been accomplished when the second disaster took place.

has nearly doubled during the year, being now 322. During the year eleven local associations affiliated with the parent society. The treasurer's report was satisfactory. The president's address was read by R. McKnight, and a paper on "Honey-hearing Plants" was discussed.

Crowe's Pickings.

New York, Jan. 7.—A Baltimore dispatch says: Last Monday afternoon at a meeting of the stockholders of the Franklin Bank of which Charles J. Baker is president, those present learned from Mr. Baker that ex-Councilman Crowe, who failed a few months ago, had overdrawn his account on that bank to the extent of \$100,000. The bank holds Crowe's paper to an extent of \$119,000. The bank surplus of some \$50,000 was gone, and the \$97,264 charged in the bank reports of Jan. 3, 1891, to the profit and loss account was all lost. The capital stock which was \$320,000 had been impaired to the extent of one-third.

Anticipated His Death.

Scottdale, Pa., Jan. 8.—Thomas Goswick, who was instantly killed a few days ago in the Dexter mines, near here, kept telling his wife prior to his death that he believed that some accident was going to befall him, and assigned reasons for his belief. He was not content with this, however, and finally addressed a letter to her, which he forbade her opening unless some fatality should overtake him. He was employed in a room almost adjoining the Fountain mine, which has been afire for some time and is being flooded in the hope of quenching the flames. He was fearful lest the water should force through and drown him. In this letter, which has just been opened, he fully outlined a method of procedure to recover his body in this event.

Immigration Figures.

Montreal, Jan. 7.—The returns from the immigration offices show that the arrivals at this port for 1890 were 8.589, an increase over the previous year of 658. The amount of money which the immigrants acknowledged owning was \$498,400, an average for each person of less than \$60. The destination of these new comers was: Quebec, 2,727; Ontario, 2,296; Manitoba, 1,080; the Northwest, 422; British Columbia, 379; United States, 1,033. From this it will be seen that over 1,000 went to the United States, which reduces the gain to Canada to something over 7,000. Of the new comers there were farmers, 511; farm laborers, 624; general laborers, 1,062; mechanics, 845; clerks and traders, 482; female domestics, 413; "no calling," 2,969. The agent's report states that the call in surrounding districts for agriculture labor has exceeded any previous year, and was far beyond the supply. Employment for market gardeners is on the increase in Montreal and district.

Miles' suggestion that military officers be appointed to take charge, temporarily, of the five Indian agencies near the scene of the hostilities. Standing Rock, Pine Ridge, Rosebud, Cheyenne and Lower Brut, all of which are in the Dakotas. In reference to the children the plea of the defence is that Mrs. Worts, after full consideration, entered into an agreement three years ago, giving up the guardianship over them, and with that any claim under her late husband's will in that respect.
